*Between History and Romance* Gifra-Adroher, Pere, 2000 It demonstrates that even though Washington Irving's sojourn in Spain from 1826 until 1829 marked a distinct shift in the literary commodification of things Spanish the transition from an enlightened to a romantic representation of Spain was a process triggered by a group of writers who produced Spanish travel narratives of lasting influence

**Romantic Prose Fiction** Gerald Ernest Paul Gillespie, Manfred Engel, Bernard Dieterle, 2008 In this volume a team of three dozen international experts presents a fresh picture of literary prose fiction in the Romantic age seen from cross cultural and interdisciplinary perspectives The work treats the appearance of major themes in characteristically Romantic versions the power of Romantic discourse to reshape imaginative writing and

a series of crucial reactions to the impact of Romanticism on cultural life down to the present both in Europe and in the New World Through its combination of chapters on thematic generic and discursive features Romantic Prose Fiction achieves a unique theoretical stance by considering the opinions of primary Romantics and their successors not as guiding truths by which to define the permanent meaning of Romanticism but as data of cultural history that shed important light on an evolving civilization SPECIAL OFFER 30% discount for a complete set order 5 vols The Romanticism series in the Comparative History of Literatures in European Languages is the result of a remarkable international collaboration The editorial team coordinated the efforts of over 100 experts from more than two dozen countries to produce five independently conceived yet interrelated volumes that show not only how Romanticism developed and spread in its principal European homelands and throughout the New World but also the ways in which the affected literatures in reaction to Romanticism have redefined themselves on into Modernism A glance at the index of each volume quickly reveals the extraordinary richness of the series total contents Romantic Irony sets the broader experimental parameters of comparison by concentrating on the myriad expressions of irony as one of the major impulses in the Romantic philosophical and artistic revolution and by combining cross cultural and interdisciplinary studies with special attention also to literatures in less widely diffused language streams Romantic Drama traces creative innovations that deeply altered the understanding of genre at large fed popular imagination through vehicles like the opera and laid the foundations for a modernist theater of the absurd Romantic Poetry demonstrates deep patterns and a sharing of crucial themes of the revolutionary age which underlie the lyrical expression that flourished in so many languages and environments Nonfictional Romantic Prose assists us in coping with the vast array of writings from the personal and intimate sphere to modes of public discourse including Romanticism s own self commentary in theoretical statements on the arts society life the sciences and more Nor are the discursive dimensions of imaginative literature neglected in the closing volume Romantic Prose Fiction where the basic Romantic themes and story types the romance novel novella short story and other narrative forms are considered throughout Europe and the New World This enormous realm is seen not just in terms of Romantic theorizing but in the light of the impact of Romantic ideas and narration on later generations As an aid to readers the introduction to Romantic Prose Fiction explains the relationships among the volumes in the series and carries a listing of their tables of contents in an appendix No other series exists comparable to these volumes which treat the entirety of Romanticism as a cultural happening across the whole breadth of the Old and New Worlds and thus render a complex picture of European spiritual strivings in the late eighteenth and the nineteenth centuries a heritage still very close to our age

**Literature and the Marketplace** William G. Rowland, 1996-01-01 Literature and the Marketplace addresses one of the great ironies of nineteenth century British and

American literature the fact that authors of that era in voicing their alienation from middle class readers paradoxically gave expression to feelings of alienation felt by those same readers As William G Rowland Jr points out romantic writers thought of the market as conspiring against imagination Blake or telling the truth Melville and consequently felt frustrated with literary institutions Yet their frustrations writes Rowland helped to energize romantic work and explain its subsequent and continuing appeal The book opens with a survey of reading publics in Great Britain and the United States in the early years of the nineteenth century Rowland then presents individual writers including Wordsworth Shelley Hawthorne Poe and Emerson and their relations to their readers Finally Rowland shows how the idea of genius was developed by writers as different as Coleridge Blake Whitman and Dickinson and how that idea evolved as an antidote to the commercial literary marketplace of the nineteenth century A wide ranging and provocative book Literature and the Marketplace describes the relations between important British and American authors and the audiences and publishing industries of their era relations that were troubled uncertain and remarkably productive of literature William G Rowland Jr is the Director of Studies at Hereford Residential College University of Virginia This is his first book

**The View from the Masthead** Hester Blum, 2012-09-01 With long solitary periods at sea far from literary and cultural centers sailors comprise a remarkable population of readers and writers Although their contributions have been little recognized in literary history seamen were important figures in the nineteenth century American literary sphere In the first book to explore their unique contribution to literary culture Hester Blum examines the first person narratives of working sailors from little known sea tales to more famous works by Herman Melville James Fenimore Cooper Edgar Allan Poe and Richard Henry Dana In their narratives sailors wrote about how their working lives coexisted with indeed mutually drove their imaginative lives Even at leisure they were always on the job site Blum analyzes seamen s libraries Barbary captivity narratives naval memoirs writings about the Galapagos Islands Melville s sea vision and the crisis of death and burial at sea She argues that the extent of sailors literacy and the range of their reading were unusual for a laboring class belying the popular image of Jack Tar as merely a swaggering profane or marginal figure As Blum demonstrates seamen s narratives propose a method for aligning labor and contemplation that has broader applications for the study of American literature and history

**Romantic Revisions in Novels from the Americas** Lauren Rule Maxwell, 2013 Returning to British Romantic poetry allows the novels to extend the Romantic poetics of landscape that traditionally considered the British subject s relation to place By recasting Romantic poetics in the Americas these novels show how negotiations of identity and power are defined by the legacies of British imperialism illustrating that these nations their peoples and their works of art are truly postcolonial While many postcolonial scholars and critics have dismissed the idea that Romantic poetry can be used to critique colonialism Maxwell suggests that on the contrary it has provided contemporary writers across the Americas with a means of charting the literary and cultural legacies of British imperialism in the New World The poems of the British Romantics offer postcolonial writers particularly

rich material Maxwell argues because they characterize British influence at the height of the British empire      *The Vast and Terrible Drama* Eric Carl Link, 2016-10-18 A broad treatment of the cultural social political and literary underpinnings of an entire period and movement in American letters *The Vast and Terrible Drama* is a critical study of the context in which authors such as Oliver Wendell Holmes Stephen Crane Frank Norris Theodore Dreiser and Jack London created their most significant work In 1896 Frank Norris wrote Terrible things must happen to the characters of the naturalistic tale They must be twisted from the ordinary and flung into the throes of a vast and terrible drama There could be no teacup tragedies here This volume broadens our understanding of literary naturalism as a response to these and other aesthetic concerns of the 19th century Themes addressed include the traditionally close connection between French naturalism and American literary naturalism relationships between the movement and the romance tradition in American literature as well as with utopian fictions of the 19th century narrative strategies employed by the key writers the dominant naturalist theme of determinism and textual readings that provide broad examples of the role of the reader By examining these and other aspects of American literary naturalism Link counters a century of criticism that has perhaps viewed literary naturalism too narrowly as a subset of realism bound by the conventions of realistic narration      **American romanticism** Charles Brockden Brown, Washington Irving, James Fenimore Cooper, Edgar Allan Poe, William Gilmore Simms, Nathaniel Hawthorne, Herman Melville, 1969

*Romantic Postmodernism in American Fiction* Eberhard Alsen, 2023-12-21 Intended for teachers and students of American Literature this book is the first comprehensive analysis of romantic tendencies in postmodernist American fiction The book challenges the opinion expressed in the *Columbia History of the American Novel* 1991 and propagated by many influential scholars that the mainstream of postmodernist fiction is represented by the disjunctive and nihilistic work of such writers as Kathy Acker Donald Barthelme and Robert Coover Professor Alsen disagrees He contends that this kind of fiction is not read and taught much outside an isolated but powerful circle in the academic community It is the two part thesis of Professor Alsen's book that the mainstream of postmodernist fiction consists of the widely read work of the Nobel Prize laureates Saul Bellow and Toni Morrison and other similar writers and that this mainstream fiction is essentially romantic To support his argument Professor Alsen analyzes representative novels by Saul Bellow J D Salinger Norman Mailer Flannery O'Connor John Updike Kurt Vonnegut Philip Roth Thomas Pynchon Toni Morrison the later John Barth Alice Walker William Kennedy and Paul Auster Professor Alsen demonstrates that the traits which distinguish the fiction of the romantic postmodernists from the fiction of their disjunctive and nihilist colleagues include a vision of life that is a form of philosophical idealism an organic view of art modes of storytelling that are reminiscent of the nineteenth century romance and such themes as the nature of sin or evil the negative effects of technology on the soul and the quest for transcendence

*Secondary Heroines in Nineteenth-Century British and American Novels* Jennifer Camden, 2016-04-01 Taking up works by Samuel Richardson James Fenimore Cooper Sir Walter Scott and Catharine Maria Sedgwick among others Jennifer B

Camden examines the role of female characters who while embodying the qualities associated with heroines fail to achieve this status in the story. These secondary heroines often the friend or sister of the primary heroine typically disappear from the action of the novel as the courtship plot progresses only to return near the conclusion of the action with renewed demands on the reader's attention. Accounting for this persistent pattern Camden suggests reveals the cultural work performed by these unusual figures in the early history of the novel. Because she is often a far more vivid character than the heroine of the marriage plot the secondary heroine inevitably engages the reader's interest in her plight. That the narrative apparently seeks to suppress her creates tension and points to the secondary heroine as a site of contested identity who represents an ideology of womanhood and nationhood at odds with the national ideals represented by the primary heroine whom the reader is asked to embrace. In showing how the anxiety produced by these ideals is displaced onto the secondary heroine Camden's study represents an important intervention into the ways in which early novels use character to further ideologies of race, class, sex, and gender.
