American Studies Essays On Theory And Method:

American Studies Robert Merideth, 1968 **Projecting American Studies** Frank Kelleter, 2018 How do theories methods and scholarly practices shape major research projects currently underway in American Studies In twenty original essays the contributors to *Projecting American Studies* interrogate their ongoing work in various interdisciplinary contexts shedding light on contemporary Americanist practices styles and publics Page 4 of cover **Projecting American Studies** Frank Kelleter, Alexander Starre, 2018 How do theories methods and scholarly practices shape major research projects currently underway in American Studies In twenty original essays the contributors to *Projecting American Studies* interrogate their ongoing work in various interdisciplinary contexts shedding light on contemporary Americanist practices styles and publics In keeping with the original meaning of the French term *essai* each contribution is a try an attempt an experiment Several chapters employ a personal tone others distill their arguments into condensed prose some use non linear formats All contributors openly reflect on the future of American Studies in its interchange with Literary Cultural and Media Studies as well as with History and Political Science Going beyond the rhetoric of turns and paradigm shifts *Projecting American Studies* aims to replace perennial appeals to do things differently with sustainable ideas for how to do things better

American Studies in Dialogue Matthias Oppermann, 2010-10-04 Seit seiner Entstehung in den 1930er Jahren hat sich das Fach American Studies in den USA radikal verändert Als Motor dieses Prozesses galt bislang die wissenschaftliche Forschung Matthias Oppermann beleuchtet nun erstmals die Rolle der Lehre und zeigt dass das Fach von Beginn an durch Kurse und Lehrpläne nicht nur didaktisch sondern auch theoretisch kontinuierlich neu konstituiert wurde Mit dieser Neubewertung liefert er ein revidiertes Verständnis der American Studies als interdisziplinäre Kulturwissenschaft im Spannungsfeld unterschiedlicher Theorien Methoden und Forschungsgegenstände **Locating American Studies** Lucy Maddox, 1999 This collection of 17 essays first printed in *American Quarterly* the journal of the American Studies Association To mark the Association's 50th anniversary in 1998 the editor has brought together works by a group of scholars which she believes provide a window into the history and evolution of the practice of American studies Each essay originally published between 1950 and 1996 is accompanied by a commentary in which a scholar from a related field provides critical information for understanding the continuing importance of the work to the American Studies field Contributors include Gene Wise Henry Nash Smith Barbara Welter Alexander Saxton and Kevin Mumford *American Studies. Essays on Theory and Method. Edited by Robert Merideth* Robert Dean MERIDETH, 1968 *Frontiers of Historical Imagination* Kerwin Lee Klein, 2023-11-15 The American frontier a potent symbol since Europeans first stepped ashore on North America serves as the touchstone for Kerwin Klein's analysis of the narrating of history Klein explores the traditions through which historians philosophers anthropologists and literary critics have understood the story of America's origin and the way those understandings have shaped and been shaped by changing conceptions of history The American West was once the frontier

space where migrating Europe collided with Native America where the historical civilizations of the Old World met the nonhistorical wilds of the New. It was not only the cultural combat zone where American democracy was forged but also the ragged edge of History itself where historical and nonhistorical defied and defined each other. Klein maintains that the idea of a collision between people with and without history still dominates public memory. But the collision he believes resounds even more powerfully in the historical imagination which creates conflicts between narration and knowledge and carries them into the language used to describe the American frontier. In Klein's words: We remain obscurely entangled in philosophies of history we no longer profess and the very idea of America balances on history's shifting frontiers. The American frontier a potent symbol since Europeans first stepped ashore on North America serves as the touchstone for Kerwin Klein's analysis of the narrating of history. Klein explores the traditions through which historians, philosophers, anthropologists, and geographers have constructed the American frontier. *Metropolitan Research* Jens Martin Gurr, Rolf Parr, Dennis Hardt, 2022-09-01. Metropolitan research requires multidisciplinary perspectives in order to do justice to the complexities of metropolitan regions. This volume provides a scholarly and accessible overview of key methods and approaches in metropolitan research from a uniquely broad range of disciplines including architectural history, art history, heritage conservation, literary and cultural studies, spatial planning and planning theory, geoinformatics, urban sociology, economic geography, operations research, technology studies, transport planning, aquatic ecosystems research, and urban epidemiology. It is this scope of disciplinary and increasingly also interdisciplinary approaches that allows metropolitan research to address recent societal challenges of urban life such as mobility, health, diversity, or sustainability.

Making America Luther S. Luedtke, 1992. In this richly interdisciplinary work, twenty-eight of the nation's leading critics and scholars offer a comprehensive exploration of American society and culture. Each outstanding in his or her own field, the contributors address America from a diversity of perspectives. *International Educational and Cultural Exchange*, 1975. *American Studies in Scandinavia*, 1980. **The Novel as Network** Tim Lanzendörfer, Corinna Norrick-Rühl, 2020-09-23. *The Novel as Network: Forms, Ideas, Commodities* engages with the contemporary Anglophone novel and its derivatives and by products such as graphic novels, comics, podcasts, and Quality TV. This collection investigates the meaning of the novel in the larger system of contemporary media production and post-print culture, viewing the novel through the lens of actor-network theory as a node in the novel network. Chapters underscore the deep interconnection between all the aspects of the novel: between the novel as a literary form, as an idea, and as a commodity. Bringing together experts from American, British, and Postcolonial Studies as well as Book Publishing and Media Studies, this collection offers a new vantage point to view the novel in its multifaceted expressions today. **Video Games and Spatiality in American Studies** Dietmar Meinel, 2022-02-21. While video games have blossomed into the foremost expression of contemporary popular culture over the past decades, their critical study occupies a fringe position in American Studies. In its engagement with video games, this book contributes to their study but with a thematic focus on a particularly important subject matter in American Studies: spatiality. The volume
