American Woman 1996 97:

Shattering the Myths Judith Glazer-Raymo, 2002-10-14 Winner of the Outstanding Publication Award of the Post secondary Education Division of the American Educational Research Association In *Shattering the Myths* Judith Glazer Raymo uses a critical feminist perspective to examine women's progress in higher education since 1970 She contrasts the activism of the 1970s the passivity of the 1980s and the ambivalence and antipathy demonstrated toward feminism in the 1990s These waves of change she explains were brought about by external forces by generational differences among women and by intellectual and ideological struggles within the women's movement and the larger academic culture In tracing three decades of women's progress in the academy the author provides data from a variety of sources on women's rank salary employment status and education The book also draws on the experience of women faculty and administrators as they articulate and reflect on the social economic political and ideological contexts in which they work and the multiple influences on their professional and personal lives

Issues in the Psychology of Women Maryka Biaggio, Michel Hersen, 2007-05-08 Over the past 15 years I MB have taught a graduate level course in Psychology of Women to students in two different professional psychology programs Because my students were at the doctoral level and often had some familiarity with the psychology of women these courses focused on bringing a feminist analysis of psychology and integrating a feminist analysis into one's scholarly work and professional activities Although I used several fine psychology of women textbooks during this time I found none that was specifically designed for graduate students Thus I always augmented the textbook with journal articles on specific aspects of the topic and these focused articles have typically been well received by the students The students whom I have encountered in these courses have often expressed a wish for a textbook that is designed for their needs I think what they are asking for is one that could serve as a foundation for their scholarly analysis of psychology as well as a springboard for thoughtful application of a feminist perspective to the profession of psychology Therefore *Issues in the Psychology of Women* has been designed to serve as a textbook for advanced undergraduate or graduate courses including Psychology of Women or Feminist Analysis of Psychology This book is the collective work of authors with special expertise in their chapter topic

Pan American Women Megan Threlkeld, 2014-07-17 In the years following World War I women activists in the United States and Europe saw themselves as leaders of a globalizing movement to promote women's rights and international peace In hopes of advancing alliances U S internationalists such as Jane Addams Carrie Chapman Catt and Doris Stevens reached across the border to their colleagues in Mexico including educator Margarita Robles de Mendoza and feminist Hermila Galindo They established new organizations sponsored conferences and rallied for peaceful relations between the two countries But diplomatic tensions and the ongoing Mexican Revolution complicated their efforts In *Pan American Women* Megan Threlkeld chronicles the clash of political ideologies between U S and Mexican women during an era of war and revolution Promoting a human internationalism in the words of Addams U S

women overestimated the universal acceptance of their ideas They considered nationalism an ethos to be overcome while the revolutionary spirit of Mexico inspired female citizens there to embrace ideas and reforms that focused on their homeland Although U S women gradually became less imperialistic in their outlook and more sophisticated in their organizational efforts they could not overcome the deep divide between their own vision of international cooperation and Mexican women s nationalist aspirations Pan American Women exposes the tensions of imperialism revolutionary nationalism and internationalism that challenged women s efforts to build an inter American movement for peace and equality in the process demonstrating the importance of viewing women s political history through a wider geographic lens

Women at War Rosemarie Skaine, 2015-11-16 The Persian Gulf War changed the face of combat It brought women s military roles into the spotlight in large part via the mass media and showed that many women performed combat roles similar to those of men during the conflict The war was thus an impetus for changes in laws that had prevented women from serving in combat assignments In past centuries because it was not culturally acceptable for women to serve in combat surprising numbers joined secretly under assumed male names After defining exactly what is meant by war and combat this work presents

historical and present day views of the involvement of women in the military The impact of regulations on women in combat is analyzed as is the role of the American public in the controversy Female combat is put into context with sociological theory also discussed are readiness cohesion ability sexuality equal opportunity and family issues Social Inequality Charles E. Interpreting 2 Peter through African American Women's Moral Writings Shively T. J. Smith, 2023-03-15 Shively T J Smith reconsiders what is most distinct troubling and potentially thrilling about the often overlooked and dismissed book of 2 Peter Using the rhetorical strategies of nineteenth century African American women including Ida B Wells Jarena Lee Anna Julia Cooper and others Smith redefines the use of biblical citations the language of justice and righteousness and even the matter of pseudonymity in 2 Peter She approaches 2 Peter as an instance of Christian cultural rhetoric that forges a particular kind of community identity and behavior This pioneering study considers how 2 Peter cultivates the kind of human relations and attitudes that speak to the values of moral people seeking justice in the past as well as today **Love's Labor** Eva Feder Kittay, 2013-09-13 First Published in 1999 Routledge is an imprint of Taylor Francis an informa company *The China Mystique* Karen J. Women's Health Care

Carol S. Weisman,1998-04-24 Because women have different health needs than men they experience the health care system differently Women have higher morbidity experiencing more disease and disability throughout the life span At the same time because women live longer they are more susceptible to late on set disease such as osteoporosis and dementia Yet until recently the question of gender equity in U S health care has received little attention

Publishes in depth articles on labor subjects current labor statistics information about current labor contracts and book reviews *Deliver Me from Pain* Jacqueline H. Wolf,2012-04-01 Despite today s historically low maternal and infant mortality rates in the United States labor continues to evoke fear among American women Rather than embrace the natural childbirth methods promoted in the 1970s most women welcome epidural anesthesia and even Cesarean deliveries In *Deliver Me from Pain* Jacqueline H Wolf asks how a treatment such as obstetric anesthesia even when it historically posed serious risk to mothers and newborns paradoxically came to assuage women s anxiety about birth Each chapter begins with the story of a birth dramatically illustrating the unique practices of the era being examined *Deliver Me from Pain* covers the development and use of anesthesia from ether and chloroform in the mid nineteenth century to amnesiacs barbiturates narcotics opioids tranquilizers saddle blocks spinals and gas during the mid twentieth century to epidural anesthesia today Labor pain is not merely a physiological response but a phenomenon that mothers and physicians perceive through a historical social and cultural lens Wolf examines these influences and argues that medical and lay views of labor pain and the concomitant acceptance of obstetric anesthesia have had a ripple effect creating the conditions for acceptance of other often unnecessary and sometimes risky obstetric treatments forceps the chemical induction and augmentation of labor episiotomy electronic fetal monitoring and Cesarean

section As American women make decisions about anesthesia today Deliver Me from Pain offers them insight into how women made this choice in the past and why each generation of mothers has made dramatically different decisions
