

as a rude awakening. The various aspects of the legislative process in Alabama are dealt with, item by item, carefully, painstakingly, systematically, and invariably with the same result. The situation is found to be substantially the same as it was forty, fifty, or even more years ago. It is not that the author sets out deliberately to labor this point; so far as the reader can observe, this was not the case. Yet this is the strongest single impression the study creates.

This impression of the backwardness of legislative institutions in this country, supported by specific evidence relating to Alabama, tends to confirm one's impressions of the legislatures of other states. If this judgment be accurate—and on the basis of accumulated evidence from many quarters, it appears to be—it is of very great significance. It means that, in a day when serious questions are being raised in many quarters as to whether democratic institutions are capable of adjusting themselves to meet present-day needs, the American legislatures have not been doing so. This is not to say that they cannot adjust themselves—simply that they have not done so.

It means further that there is placed upon those who believe that representative institutions can and should justify themselves in the light of current needs a tremendous burden of responsibility for education, both of the public and of the legislators themselves. This study demonstrates the existence of the need, which is present and urgent. Tomorrow could be too late. One can scarcely escape the paradox which the American people present. At intervals they give freely of their resources and even offer their lives in defense of democracy in far-off lands, but during the intervals between wars are too busy or too indifferent to worry about strengthening democracy—or even preserving it—at home.

Americans Betrayed; Politics and the Japanese Evacuation. BY MORTON GRODZINS. (Chicago: University of Chicago Press. 1949. Pp. xvii, 445. \$5.00.)

In spite of its title, *Americans Betrayed* is a dispassionate, scholarly study of the making of the wartime decision in early 1942 to evacuate the Japanese Americans from the West Coast. In examining the forces that influenced this decision, the procedures by which it was arrived at, and the agencies that helped make it, Professor Grodzins' essential purpose is to describe how a major public policy took shape. The actual administration of the evacuation program lies outside the scope of the book. In view of the scanty character of existing literature dealing with policy formation, the impressive way in which the author details the steps which led to the making of the evacuation policy, and the persuasive character of his conclusions concerning the wisdom of this policy, make his book a most valuable one.

The volume is organized in a precise manner. The six chapters of Part I supply a detailed account of the regional pressures for evacuation which took shape on the West Coast in January and February, 1942. The five chapters of Part II then describe the actual formation of public policy at the national level.

Senate. Committee on the Judiciary. Subcommittee on Administrative Practice and Procedure, 1984 *Japanese-American Civilian Prisoner Exchanges and Detention Camps, 1941-45* Bruce Elleman, 2006-04-18 The important and previously undocumented event in the history of the Second World War the negotiation of prisoner exchanges between the United States and Japan during 1941 to 1943 is examined here by Bruce Elleman Approximately 7000 American citizens had been arrested by the Japanese authorities while visiting Japan as tourists conducting business teaching English or carrying out missionary work The same amount of Japanese citizens living illegally in the United States had to be repatriated to secure the Americans release Challenging the conventional perceptions regarding the role and justification of the detention camp this insightful book addresses questions regarding the diplomatic agreement between Japan and the United States the Japanese American detention camps and the role of one of the most successful minority groups in the United States today the Japanese Americans **Japanese Pride, American Prejudice** Izumi Hirobe, 2001 Adding an important new dimension to the history of U S Japan relations this book reveals that an unofficial movement to promote good feeling between the United States and Japan in the 1920s and 1930s only narrowly failed to achieve its goal to modify the so called anti Japanese exclusion clause of the 1924 U S immigration law It is well known that this clause caused great indignation among the Japanese and scholars have long regarded it as a major contributing factor in the final collapse of U S Japan relations in 1941 Not generally known however is that beginning immediately after the enactment of the law private individuals sought to modify the exclusion clause in an effort to stabilize relations between the two countries The issue was considered by American and Japanese delegates at almost all subsequent U S Japan diplomatic negotiations including the 1930 London naval talks and the last minute attempts to prevent war in 1941 However neither the U S State Department nor the Japanese Foreign Office was able to take concrete measures to resolve the issue The State Department wanted to avoid appearing to meddle with Congressional prerogatives and the Foreign Office did not want to be seen as intruding in American domestic affairs This official reluctance to take action opened the way for major efforts in the private sector to modify the exclusion clause The book reveals how a number of citizens in the United States mainly clergy and business people persevered in their efforts despite the obstacles presented by anti Japanese feeling and the economic dislocations of the Depression One of the notable disclosures in the book is that this determined private push for improved relations continued even after the 1931 Manchurian Incident **Becoming American** Thomas J.
