predecessors St Mary's Hall and McTyeire School to its present form as a public school By bringing together three historical periods late imperial the Republic of China and the People's Republic of China and their respective political regimes into one project and tracing continuities and discontinuities in terms of education between the Nationalists and Communists the book argues that education in Chinese modern history affords another example of continuous revolution Dissertation Series Sinologie Vol 5 Subject Education Chinese Studies Asian Studies Gender Studies History Politics **Los Angeles Magazine**, 2003-09 Los Angeles magazine is a regional magazine of national stature Our combination of award winning feature writing investigative reporting service journalism and design covers the people lifestyle culture entertainment fashion art and architecture and news that define Southern California Started in the spring of 1961 Los Angeles magazine has been addressing the needs and interests of our region for 48 years The magazine continues to be the definitive resource for an affluent population that is intensely interested in a lifestyle that is uniquely Southern Californian The Scramble for the Teenage Dollar Katharine Rollwagen, 2025-05-15 Co-ed junior miss grad teenster From the late 1930s to the 1950s the teenager emerged as a distinct and ideal market segment The Scramble for the Teenage Dollar explores how consumption became an integral part of being a teenager This nascent consumer always a white middle class heterosexual high school student had purchasing power that demanded recognition At least that was the image fashioned by Canadian advertisers and retailers and especially the biggest department store of the time Eaton's Katharine Rollwagen dives into consumer magazines Eaton's archives and mail order catalogues to discover how the commercialized Canadian teenager was created Packed with insights about how retailers and advertisers attempted to shape the look bodies and behaviour of young Canadians this is an intriguing look at the power of corporate actors to influence popular understandings of growing up It also reveals the roots of the hyper consumerism common among young people today **Represented** Brenna Wynn Greer, 2019-07-12 In 1948 Moss Kendrix a former New Deal public relations officer founded a highly successful Washington D C based public relations firm the flagship client of which was the Coca Cola Company As the first black pitchman for Coca Cola Kendrix found his way into the rarefied world of white corporate America His personal phone book also included the names of countless black celebrities such as bandleader Duke Ellington singer actress Pearl Bailey and boxer Joe Louis with whom he had built relationships in the course of developing marketing campaigns for his numerous federal and corporate clients Kendrix along with Ebony publisher John H Johnson and Life photographer Gordon Parks recognized that in the image saturated world of postwar America media in all its forms held greater significance for defining American citizenship than ever before For these imagemakers the visual representation of African Americans as good citizens was good business In Represented Brenna Wynn Greer explores how black entrepreneurs produced magazines photographs and advertising that forged a close association between blackness and Americanness In particular they popularized conceptions of African Americans as enthusiastic consumers a status essential to postwar citizenship claims But their media creations were complicated subject to

marketplace dictates they often relied on gender class and family stereotypes Demand for such representations came not only from corporate and government clients to fuel mass consumerism and attract support for national efforts such as the fight against fascism but also from African Americans who sought depictions of blackness to counter racist ideas that undermined their rights and their national belonging as citizens The story of how black capitalists made the market work for racial progress on their way to making money reminds us that the path to civil rights involved commercial endeavors as well as social and political activism

**Republican Lens** Joan Judge,2015-07-21 The early Republican 1911 1921 Chinese public looked read and interacted in profoundly different ways from its late imperial predecessor While current scholarly has labeled the 1911 Revolution a virtual non event and the early Republic a political failure the micro historical view offered by the Chinese periodical press presents a much different perspective Reversing orthodox academic practice this book considers the realm of high politics as ephemeral and the institutions associations and practices of the reading and viewing public as the site of enduring and historical significance The book centers on a selection of extraordinary photographic portraits taken from the periodical Fun shibao one of the few journals to straddle the 1911 divide and remain in print through the early Republican period Provided by publisher

*Gender and Activism in a Little Magazine* Rachel Schreiber,2017-07-05 Interweaving nuanced discussions of politics visuality and gender Gender and Activism in a Little Magazine uncovers the complex ways that gender figures into the graphic satire created by artists for the New York City based socialist journal the Masses This exceptional magazine was published between 1911 and 1917 during an unusually radical decade in American history and featured cartoons drawn by artists of the Ashcan School and others addressing questions of politics gender labor and class Rather than viewing art from the Masses primarily in terms of its critical social stances or aesthetic choices however this study uses these images to open up new ways of understanding the complexity of early 20th century viewpoints By focusing on the activist images found in the Masses and studying their unique perspective on American modernity Rachel Schreiber also returns these often ignored images to their rightful place in the scholarship on American modernism This book demonstrates that the centrality of the Masses artists commitments to gender and class equality is itself a characterization of the importance of these issues for American moderns Despite their alarmingly regular reliance on gender stereotypes and regardless of any assessment of the efficacy of the artists activism the graphic satire of the Masses offers invaluable insights into the workings of gender and the role of images in activist practices at the beginning of the last century
