Halfpenny, 1986 Guide to identifying mammals in North America through tracking and using this information in understanding their behavior Coyote Catherine Reid, 2005-11-09 A beautifully written tribute to this tenacious and much misunderstood creature of the wild Bill McKibben When Catherine Reid returned to the Berkshires to live after decades away she became fascinated by another recent arrival the eastern coyote This species which shares some lineage with the wolf exhibits remarkable adaptability and awe inspiring survival skills In fact coyotes have been spotted in nearly every habitable area available including urban streets New York's Central Park and suburban backyards Settling into an old farmhouse with her partner Reid felt compelled to learn more about this outlaw animal Her beautifully grounded memoir interweaves personal and natural history to comment on one of the most dramatic wildlife stories of our time With great appreciation for this scrappy outsider and the ecological concerns its presence brings to light Reid suggests that we all need to forge a new relationship with this uncannily intelligent species in our midst More than a book about nature a narrative about home and family and about human attitudes toward the wild and unfamiliar The Boston Globe A captivating read worthy of joining the pantheon of literary ecological writing Booklist Enlightening a heartfelt often poetic case for coexistence between humans and the wild Publishers Weekly The Last Coyote Jack Olsen, 2020-06-17 It is the extermination of the coyote a shrewd wily solitary scavenger that serves as the central theme of Jack Olsen's ragingly indignant beautifully written and deeply moving book perhaps the most gripping and important work of its kind Poisoned hunted a bounty placed on their heads their pelts nailed to fence posts the coyotes symbolize the heartless and brutal way in which man has made the west his own as if nature had no place Jack Olsen describes how in the vast stretches of the America West the wildlife is being systematically exterminated for the profit of ranchers and stockmen with the cooperation of government agencies Hardest hit of all the animals are the great predators wildcats wolves bears mountain lions coyotes all now on the verge of extinction By decimating those species which seem to
