Crack In America Demon Drugs And Social Justice:

Crack In America Craig Reinerman, Harry G. Levine, 1997-09 A team of veteran drug researchers in medicine law and the social sciences provides the most comprehensive penetrating and original analysis of the crack cocaine problem in America to date Helps readers understand why the United States has the most repressive expensive yet least effective drug policy in the Western world *Drugs in America* Ansley Hamid, 1998 This basic analysis of the drug problem in America describes the historical and present use of mood altering drugs the economics of drug trafficking theories of addiction and the resulting crime violence and community deterioration In addition the author focuses on the effects of legalizing drugs and the role of law enforcement This is an ideal text for any course discussing drug use and abuse **Illegal Markets, Violence, and Inequality** Jean Daudelin, José Luiz Ratton, 2018-03-21 This book challenges the quasi consensus that Latin American countries dominate global homicide rankings mainly due to the illegal nature of drug production and trafficking Building on US scholarship that looks at the role of social exclusion and discriminatory policing in drug violence the authors of this volume show that the association between illegality and violence cannot be divorced from the inequality that prevails in those countries This book looks in detail at the functioning of drug markets in Recife the largest metropolitan area in Brazil s North East and over the last 25 years the heart of the country s most violent metropolitan area Building on extensive interviews and field work the authors map out the city s drug markets and explore the reasons why some of those markets are violent and others are not The analysis focuses on the micromechanics of each market looking at consumption patterns and at the workings of retail sales and distribution Such a systematic micro level comparative analysis of the workings of Latin American drug markets is simply not available elsewhere in current literature These findings point to significant gaps in current understandings of the link between illegal markets and violence and they illuminate the need to factor in the way in which those markets are nested in exclusionary social contexts **Inventing the Modern American Family** Isabel Heinemann, 2012-05-14 Die USA durchliefen im 20 Jahrhundert einen enormen sozialen Wandel im Zuge dessen auch Familienwerte und Geschlechternormen neu ausgehandelt wurden Die Autorinnen und Autoren analysieren die damit einhergehende Veränderung von Weiblichkeits und Männlichkeitskonzepten sowie von Mutter und Vaterrollen Am Beispiel von Immigration Jugendkriminalität Wohlfahrtspolitik Reproduktion und Medien liefern die Beiträge ein anschauliches Bild von der Bedeutung der Familie als nationaler Kerneinheit **Community Penalties** Anthony E. Bottoms, Loraine Gelsthorpe, Sue Rex, 2001 Community penalties are court ordered punishments falling between imprisonment and fines and involve some contact by a criminal justice agency This work looks at the current debate surrounding the efficacy of community penalties **Contemporary Drug Policy** Henry H. Brownstein, 2013 This book explores the major debates and controversies in the area of drug policy offering critical philosophical and theoretical perspectives and presents an alternative approach to policy and practice grounded in critical criminological theories Rainbow Vice Ted Leggett, 2002

The growing drug culture in the new South Africa is tightly linked to the world of commercial sex and in conflict with a profoundly Christian population Here Ted Leggett shows how varied the drug scene is **Cocaine Trafficking in Latin America** Sayaka Fukumi,2016-05-23 The post Cold War world has seen the emergence of new kinds of security threats Whilst traditionally security threats were perceived of in terms of military threats against a state non traditional security threats are those that pose a threat to various internal competencies of the state and its identity both home and abroad The European Union and the United States have identified Latin American cocaine trafficking as a security threat but their policy responses to it have differed This book examines the ways in which the EU and the US have conceptualized this threat Furthermore it explores the impact of cocaine trafficking on four state functions economic political public order and diplomatic in order to explain why it has become securitized Appealing to a variety of university courses this book is especially relevant to security studies and European and US policy analysis as well as criminology and sociology **Policing Pain** Kevin Revier,2025-11-11 How the medicalization of addiction during the U S opioid crisis has driven mass incarceration and mass policing in rural and deindustrialized communities The nationwide opioid public health emergency has led many advocates and public officials to call for drug policy reforms that reject traditional law and order approaches In Policing Pain Kevin Revier approaches the opioid epidemic from an abolitionist framework that seeks to treat people who use opioids not as so called criminals but as people in need of health care Based on two years of ethnographic research in Upstate New York a region highly impacted by overdoses job loss and deindustrialization Revier shows that incorporation of treatment within the criminal justice system has ultimately expanded the scope of the drug war turning individuals into treatable carceral subjects who are both medicalized and criminalized He argues that the incorporation of medical rhetoric and treatment within the criminal legal system maintains a carceral approach in rural and low income areas facing high rates of opioid overdose and economic disinvestment further entrenching the carceral state in the lives of people who use drugs Ultimately Policing Pain explores alternative strategies to promote harm reduction from an abolitionist ethic of care that advocates for people who use drugs while seeking to minimize criminal justice involvement in drug related issues The Politics of Injustice Katherine Beckett,Theodore Sasson,2004 The U S crime rate has dropped steadily for more than a decade yet the rate of incarceration continues to skyrocket Today more than 2 million Americans are locked in prisons and jails with devastating consequences for poor families and communities overcrowded institutions and overburdened taxpayers How did the U S become the world s leader in incarceration Why have the numbers of women juveniles and people of color increased especially rapidly among the imprisoned The Politics of Injustice Crime and Punishment in America Second Edition is the first book to make widely accessible the new research on crime as a political and cultural issue Katherine Beckett and Theodore Sasson provide readers with a robust analysis of the roles of crime politics media imagery and citizen activism in the making of criminal justice policy in the age of mass incarceration Features of this text Critical Approach Debunks myths about crime

crisis Her interviews with gang members neighborhood residents business leaders police officers and gang intervention workers reveal the complexity of contemporary American urban conflict The Truce highlights the differences in interpretations among combatants witnesses and law enforcement agents and others whose actions often had unintended consequences Drawing on her experience living in multicultural Los Angeles and on the latest scholarship in a wide variety of disciplines Umemoto provides much needed guidance for policymakers and concerned members of the public faced with violence in an ever changing urban landscape

DARE to Say No Max Felker-Kantor, 2024-02-14 With its signature DARE to keep kids off drugs slogan and iconic t shirts DARE Drug Abuse Resistance Education was the most popular drug education program of the 1980s and 1990s But behind the cultural phenomenon is the story of how DARE and other antidrug education programs brought the War on Drugs into schools and ensured that the velvet glove of antidrug education would be backed by the iron fist of rigorous policing and harsh sentencing Max Felker Kantor has assembled the first history of DARE which began in Los Angeles in 1983 as a joint venture between the police department and the unified school district By the mid 90s it was taught in 75 percent of school districts across the United States DARE received near universal praise from parents educators police officers and politicians and left an indelible stamp on many millennial memories But the program had more nefarious ends and Felker Kantor complicates simplistic narratives of the War on Drugs He shows how policing entered US schools and framed drug use as the result of personal responsibility moral failure and poor behavior deserving of punishment rather than something deeply rooted in state retrenchment the abandonment of social service provisions and structures of social and economic inequality

Death by Design Sanyu A. Mojola, 2025-11-04 Throughout its history Washington D C has experienced many of the nation s worst epidemics including maternal and infant mortality homicide heroin overdoses and HIV AIDS And these epidemics have disproportionately affected African Americans Why and how does such racial health inequality persist and get reproduced Starting from the city s founding in the late 1700s and tracing into the present and drawing from multiple sources including archival material life history interviews and census vital statistics and disease surveillance data this book illustrates how the city s physical social and policy design contributes to the production and reproduction of disproportionate death among African Americans Provided by publisher

Body/Embodiment Phillip Vannini, 2016-04-08 The body and experiences of embodiment have generated a rich and diverse sociological literature This volume articulates and illustrates one major approach to the sociology of the body symbolic interactionism an increasingly prevalent theoretical base of contemporary sociology derived from the pragmatism of writers such as John Dewey William James Charles Peirce Charles Cooley and George Herbert Mead The authors argue that from an interactionist perspective the body is much more than a tangible corporeal object it is a vessel of great significance

to the individual and society From this perspective body self and social interaction are intimately interrelated and constantly reconfigured The collection constitutes a unique anthology of empirical research on the body from health and illness to sexuality from beauty and imagery to bodily performance in sport and art and from mediated communication to plastic surgery The contributions are informed by innovative interactionist theory offering fresh insights into one of the fastest growing sub disciplines of sociology and cultural studies

The Politics of HBO's The Wire Shirin Deylami,Jonathan Havercroft,2014-12-17 This innovative new work suggests that The Wire reflects not simply a cultural take on contemporary America but a structural critique of the conditions of late modernity and global capitalism As such it is a visual text worth investigating and exploring for its nuanced examination of power difference and inequality Deylami Havercroft bring together nine essays addressing issues of interest to a range of academic fields in order to engage with this important cultural intervention that has transfixed audiences and sparked debate within the social scientific community While the TV show is primarily focused upon the urban politics of Baltimore the contributors to this volume read Baltimore as a global city That is they argue that the relations between race class power and violence that the series examines only make sense if we understand that inner city Baltimore is a node in a larger global network of violence and economic inequality The book is divided into three interrelated sections focusing on systemic and cultural violence the rise and decline of national and state formations and the dysfunctional and destructive forces of global capitalism Throughout the series the relation of the urban to the global is constantly being explored This innovative new volume explains clearly how The Wire portrays this interaction and what this representation can show social scientists interested in race neo liberal processes of globalization criminality gender violence and surveillance
