Statistics, Second Edition Matthew B. Robinson, Renee G. Scherlen, 2014-01-01 Revised and updated edition that analyses how the Office of National Drug Control Policy employs statistics to misleadingly claim the War on Drugs is a success First published in 2007 *Lies Damned Lies and Drug War Statistics* critically analyzed claims made by the Office of National Drug Control Policy ONDCP the White House agency of accountability in the nation's drug war since 1989 as found in the six editions of the annual National Drug Control Strategy between 2000 and 2005 In this revised and updated second edition of

their critically acclaimed work Matthew B Robinson and Renee G Scherlen examine seven more recent editions 2006 2012 to once again determine if ONDCP accurately and honestly presents information or intentionally distorts evidence to justify continuing the drug war They uncover the many ways in which ONDCP manipulates statistics and visually presents that information to the public Their analysis demonstrates a drug war that consistently fails to reduce drug use drug fatalities or illnesses associated with drug use fails to provide treatment for drug dependent users and drives up the prices of drugs They conclude with policy recommendations for reforming ONDCP s use of statistics as well as how the nation fights the war on drugs Praise for the First Edition Lies Damned Lies and Drug War Statistics is surprisingly easy to read and Robinson and Scherlen have done a huge favor not only to critics of current drug policy by compiling this damning critique of ONDCP claims but also to anyone interested in how data is compiled presented and misused by bureaucrats attempting to guard their domains It should be required reading for members of Congress Drug War Chronicle Book Review The authors have performed a valuable service to our democracy with their meticulous analysis of the White House ONDCP public statements and reports They have pulled the sheet off what appears to be an official policy of deception using clever and sometimes clumsy attempts at statistical manipulation This document at last gives us a map of the truth Mike Gray author of Drug Crazy How We Got into This Mess and How We Can Get Out Robinson and Scherlen make a valuable contribution to documenting how ONDCP fails to live up to basic standards of accountability and consistency Ethan Nadelmann Executive Director Drug Policy Alliance *Junk Mail* Will Self, 2012-09-11 Everything that makes Will Self s fiction so arresting and original is in evidence here in this collection of his best articles book reviews and interviews from the Observer the Guardian the Independent the Evening Standard and many more Whether describing penis operations narcotics or merely pondering the nature of slacking these pieces are as witty and acerbic as one would expect from one of our foremost contemporary satirists

Drugs and Violence United States. Congress. Senate. Committee on Governmental Affairs. Permanent Subcommittee on Investigations,1990 *Masocriticism* Paul Mann,1999-01-01 These essays on literary theory philosophy and cultural criticism describe in their form and content the end of criticism even while performing the endlessness of that endgame In a sense the book deconstructs all forms of critique and criticism including deconstruction and including its own self That the book is so painfully aware of the futility of its own enterprise even while pursuing it relentlessly and with such critical rigor is what makes this a book of masocriticism as well as about masocriticism

The Plaid Avenger's World Plaid Avenger,Klaus Shmidheiser,2008 In the Plaid Avenger s world we will strip off the shallow window dressing in which you have been trained to see the world donned we will lay it bare to see what is really happening around the planet We do this in order to gain enough insight about the current state of the world to truly understand the how and why and where things are happening right now In this world no single government or press dictates our views no single political party shapes our opinion no single religion or ethnicity tints our not so rose colored glasses We will see the world in plaid a mystical weaving of facts figures cultures and viewpoints from every corner of the planet culminating into the fabric that is today p 2 *Theory and the Novel* Jeffrey Williams,1998-12-03 Narrative features such as frames digressions or authorial intrusions have traditionally been viewed as distractions from or anomalies in the narrative proper In Theory and the Novel Jeffrey Williams exposes these elements as more than simple disruptions analysing them as registers of narrative reflexivity that is moments that represent and advertise the functioning of narrative itself Williams argues that narrative encodes and advertises its own functioning and modal form He takes a range of novels from the English canon Tristram Shandy Joseph Andrews The Turn of the Screw Wuthering Heights Lord Jim and Heart of Darkness are amongst the novels examined and shows how narrative technique is never beyond or outside plot He poses a series of theoretical questions such as about reflexivity imitation and fictionality to offer a striking and original contribution to readings of the English novel as well as to discussions of theory in general **Synthetic Panics** Philip Jenkins,1999-07

America has a long history of drug panics in which countless social problems have been blamed on the devastating effects of some harmful substance. In the last forty years such panics have often focused on synthetic or designer drugs like methamphetamine, PCP, Ecstasy, methcathinone, and rave drugs like ketamine and GHB. Fear of these substances has provided critical justification for the continuing war on drugs. *Synthetic Panics* traces the history of these anti-drug movements, demonstrating that designer chemicals inspire so much fear not because they are uniquely dangerous but because they bring into focus deeply rooted public concerns about social and cultural upheaval. Jenkins highlights the role of the mass media in spreading anti-drug hysteria and shows how proponents of the war on drugs use synthetic panics to scapegoat society's others and exacerbate racial, class, and intergenerational conflict. *Breaking Up (at) Totality* Debra Diane Davis, 2000

Rhetoric and composition theory has shown a renewed interest in sophistic countertraditions as seen in the work of such postphilosophers as Jacques Derrida, Michel Foucault, and Hélène Cixous, and of such rhetoricians as Susan Jarratt and Steven Mailloux. As Diane Davis traces today's theoretical interest to those countertraditions, she also sets her sights beyond them. Davis takes a third sophistic approach, one that focuses on the play of language that perpetually disrupts the either/or binary construction of dialectic. She concentrates on the nonsequential third excess that overflows language's dichotomies. In this work, laughter operates as a trope for disruption or breaking up, which is from Davis's perspective a joyfully destructive shattering of our confining conceptual frameworks.

Reading Ronell Diane Davis, 2010-10-01 Avital Ronell has won worldwide acclaim for her work across literature and philosophy, psychoanalysis and popular culture, political theory and feminism, art and rhetoric, drugs and deconstruction. In works such as *The Test Drive*, *Stupidity*, *Crack Wars*, and *The Telephone Book*, she has perpetually raised new and powerful questions about how we think, what thinking does, and how we fool ourselves about the troubled space between thought and action. In this collection, some of today's most distinguished and innovative thinkers turn their attention to Ronell's teaching, writing, and provocations, observing how Ronell reads and what comes from reading her. By reading Ronell and reading Ronell, reading contributors examine the ethico-political implications of her radical dislocations and carefully explicate, extend, and explore the paraconcepts addressed in her works.
