A History of Affirmative Action, 1619-2000 Philip F. Rubio, 2009-09-18 A readable history that puts the current debates in historical context **The Harvard Guide to African-American History** Evelyn Brooks Higginbotham, 2001 This massive guide sponsored by the W E B Du Bois Institute for Afro American Research at Harvard University and compiled by renowned experts offers a compendium of information and interpretation on over 500 years of black experience in America

Sutton E. Griggs and the Struggle Against White Supremacy Finnie D. Coleman, 2007 Sutton E Griggs 1872 1933 was a significant African American social reformer pastor and prolific writer His successful first novel *Imperium in Imperio* 1899 addressed in a forceful way the plight of Black Americans in post Reconstruction America Using Griggs s life story as a platform Sutton E Griggs and the Struggle against White Supremacy explores how conservative pragmatism shaped the dynamics of race relations and racial politics during the late nineteenth and early twentieth centuries More precisely the book examines the various intellectual tactics that Griggs developed to combat white supremacy Author Finnie D Coleman shows that Griggs was a pivotal shaper of a racial uplift philosophy that bore little relationship to more melioristic attempts at racial reconciliation Coleman explores how Griggs s family particularly his father influenced his political ideology Coleman examines why and how Griggs toyed with militant and at times violent fictional responses to white supremacy when his background and temperament were profoundly conservative and peaceful Ultimately Griggs yielded to his father s brand of pragmatic conservatism but not before he produced a number of works of fiction and nonfiction that pushed the boundaries of what were acceptable reactions to the racial status quo of his day The author addresses other questions about Griggs s work How did his fiction capture the generational differences between African Americans born in antebellum America and those who came of age at the end of the Gilded Age Which rhetorical conventions proved effective against the ever obdurate Jim Crow Why have critical assessments of his works varied so greatly over the years Most important when compared with other writings of his day why have his texts been so thoroughly marginalized This new volume adds to our understanding of Griggs s literary career and his role as one of the most widely read and selflessly dedicated intellectual leaders of his day

Romance and Rights Alex Lubin, 2009-07 A study of the tensions between the private and public realms of interracial relationships **The Fight for Interracial Marriage Rights in Antebellum Massachusetts** Amber D. Moulton, 2015-04-06 Though Massachusetts banned slavery in 1780 prior to the Civil War a law prohibiting marriage between whites and blacks reinforced the state s racial caste system Amber Moulton recreates an unlikely collaboration of reformers who sought to rectify what they saw as an indefensible injustice leading to the legalization of interracial marriage

Race and Racism in Nineteenth-Century Art Naurice Frank Woods Jr., 2021-06-28 Painters Robert Duncanson ca 1821 1872 and Edward Bannister 1828 1901 and sculptor Mary Edmonia Lewis ca 1844 1907 each became accomplished African American artists But as emerging art makers of color during the antebellum period they experienced numerous incidents of

racism that severely hampered their pursuits of a profession that many in the mainstream considered the highest form of social cultivation. Despite barriers imposed upon them due to their racial inheritance, these artists shared a common cause in demanding acceptance alongside their white contemporaries as capable painters and sculptors on local, regional, and international levels. Author Naurice Frank Woods Jr. provides an in-depth examination of the strategies deployed by Duncanson, Bannister, and Lewis that enabled them not only to overcome prevailing race and gender inequality but also to achieve a measure of success that eventually placed them in the top rank of nineteenth-century American art. Unfortunately, the racism that hampered these three artists throughout their careers ultimately denied them their rightful place as significant contributors to the development of American art. Dominant art historians and art critics excluded them in their accounts of the period. In this volume, Woods restores their artistic legacies and redeems their memories, introducing these significant artists to rightful new audiences.

United States History James Warren Oberly, 1995 [Interracialism](#) Werner Sollors, 2000-10-19. Interracialism or marriage between members of different races has formed, torn apart, defined, and divided our nation since its earliest history. This collection explores the primary texts of interracialism as a means of addressing core issues in our racial identity. Ranging from Hannah Arendt to George Schuyler and from *Pace v. Alabama* to *Loving v. Virginia*, it provides extraordinary resources for faculty and students in English, American, and Ethnic Studies, as well as for general readers interested in race relations. By bringing together a selection of historically significant documents and of the best essays and scholarship on the subject of miscegenation, *Interracialism* demonstrates that notions of race can be fruitfully approached from the vantage point of the denial of interracialism that typically informs racial ideologies.

The Persistence of Whiteness Daniel Bernardi, 2007-09-12. *The Persistence of Whiteness* investigates the representation and narration of race in contemporary Hollywood cinema. Ideologies of class, ethnicity, gender, nation, and sexuality are central concerns, as are the growth of the business of filmmaking. Focusing on representations of Black, Asian, Jewish, Latino, and Native Americans, this collection also shows how whiteness is a fact everywhere in contemporary Hollywood cinema, crossing audiences, authors, genres, studios, and styles. Bringing together essays from respected film scholars, the collection covers a wide range of important films, including *Guess Who's Coming to Dinner*, *The Color Purple*, *Star Wars*, and *The Lord of the Rings*. Essays also consider genres from the western to blaxploitation and new black cinema, provocative filmmakers such as Melvin Van Peebles and Steven Spielberg, and stars including Whoopi Goldberg and Jennifer Lopez. Daniel Bernardi provides an in-depth introduction, comprehensive bibliography, and a helpful glossary of terms, thus providing students with an accessible and topical collection on race and ethnicity in contemporary cinema.

[Mixed Race Literature](#) Jonathan Brennan, 2002. This collection presents the first scholarly attempt to map the rapidly emerging field of mixed race literature, defined as texts written by authors who represent multiple cultural and literary traditions. It also situates these literatures in relation to contemporary fields of literary inquiry.

Gender and Race in Antebellum Popular Culture Sarah N.

Roth,2014-07-21 In the decades leading to the Civil War popular conceptions of African American men shifted dramatically The savage slave featured in 1830s novels and stories gave way by the 1850s to the less threatening humble black martyr This radical reshaping of black masculinity in American culture occurred at the same time that the reading and writing of popular narratives were emerging as largely feminine enterprises In a society where women wielded little official power white female authors exalted white femininity using narrative forms such as autobiographies novels short stories visual images and plays by stressing differences that made white women appear superior to male slaves This book argues that white women as creators and consumers of popular culture media played a pivotal role in the demasculinization of black men during the antebellum period and consequently had a vital impact on the political landscape of antebellum and Civil War era America through their powerful influence on popular culture **Between Science and Fiction** Hanjo Berressem,Michael

Bucher,Uwe Schwagmeier,2012 The idea that the Earth is hollow has inspired both the world of science and the world of fiction As a scientific concept this notion has informed the works of Edmond Halley and Leonhard Euler As a literary conceit it can be found in the works of Dante and E A Poe in novels by Jules Verne Arno Schmidt Thomas Pynchon and Mark Z Danielewski and in comics films and computer games This collection addresses both the scientific and the aesthetic aspects of the Hollow Earth with essays that range from medieval literature to afrofuturism Series n 1 work science medium Vol 5

Henry Ossawa Tanner Naurice Frank Woods, Jr.,2017-07-06 This book examines the life and work of artist Henry Ossawa Tanner He was one of the most celebrated American artists of his era yet largely because of his race he quickly vanished from recorded accounts of the period in which he worked This book helps restore his legacy *To Live and Die*

Kathleen Diffley,2004-05-24 An anthology of Civil War stories from nineteenth century magazines **Prospects for the Study of American Literature** Richard Kopley,1997-08 What can there possibly be left to say about This common litany resonant both in and outside of academia reflects a growing sense that the number of subjects and authors appropriate for literary study is rapidly becoming exhausted Take heart admonishes Richard Kopley in this dynamic new anthology for this is decidedly not the case While generations of literary study have unquestionably covered much ground in analyzing canonical writers many aspects of even the most well known authors both their lives and their work remain underexamined Among the authors discussed are T S Eliot Ralph Waldo Emerson William Faulkner Harriet Beecher Stowe Walt Whitman Ernest Hemingway Richard Wright Edith Wharton Nathaniel Hawthorne Zora Neale Hurston Henry James Willa Cather Herman Melville Edgar Allan Poe Henry David Thoreau and Mark Twain **Race and Nation in the Age of Emancipations**

Whitney Nell Stewart,John Garrison Marks,2018-04-15 Over the long nineteenth century African descended peoples used the uncertainties and possibilities of emancipation to stake claims to freedom equality and citizenship In the process people of color transformed the contours of communities nations and the Atlantic World Although emancipation was an Atlantic event it has been studied most often in geographically isolated ways The justification for such local investigations rests in the

notion that imperial and national contexts are essential to understanding slaving regimes Just as the experience of slavery differed throughout the Atlantic World so too did the experience of emancipation as enslaved people s paths to freedom varied depending on time and place With the essays in this volume historians contend that emancipation was not something that simply happened to enslaved peoples but rather something in which they actively participated By viewing local experiences through an Atlantic framework the contributors reveal how emancipation was both a shared experience across national lines and one shaped by the particularities of a specific nation Their examination uncovers in detail the various techniques employed by people of African descent across the Atlantic World allowing a broader picture of their paths to freedom Contributors Ikuko Asaka Caree A Banton Celso Thomas Castilho Gad Heuman Martha S Jones Philip Kaisary John Garrison Marks Paul J Polgar James E Sanders Julie Saville Matthew Spooner Whitney Nell Stewart and Andrew N Wegmann

FROZEN IN TIME: An Early Carte de Visite Album from New Bedford, Massachusetts Susan Snow Lukesh,2021-08-10 In

Frozen in Time Susan Snow Lukesh takes a mid nineteenth century photo album from New Bedford Massachusetts created against an almost unmentioned backdrop of the Civil War and moves the people seemingly frozen in time backwards and forwards offering details of daily living marrying working and dying of both the individuals whose portraits are included as well as their kin and colleagues The details of daily living of the marrying working and dying of the neighbors and kin in the photo album from New Bedford demonstrate the personal side of the development of this famous whaling capital through its transition to a strong mill economy These details also show how the financial and intellectual capital of the city fueled development throughout the United States This album with its very small cast of neighbors and kin thus unfolds to offer a glimpse of the rich panorama of nineteenth century New Bedford The biographical sketches of the onstage and offstage players combined with the histories presented of New Bedford of nineteenth century social media and of the album itself reveal a snapshot of New Bedford s citizens New Bedford s history and industries and importantly New Bedford s part in the Civil War Frozen in Time presents local history in the broader context of the United States and can be seen as well as an example of *petite histoire* an account of particular households and neighborhoods reminding readers of the continuing importance of both family and neighborhoods real or virtual The discussion of nineteenth century social media also shows those in the twenty first century that Facebook can be seen as old social media on a new platform The photographs from the time of the Civil War underscore the arc of photography from its first use capturing images of war to its present use to record violence perpetuated on and perpetuated by police and others at home and around the world Lukesh was entrusted with the family album that is the basis for Frozen in Time and used her experience in research artifact interpretation and writing to develop the narrative of the book She hopes readers will take away the importance and value of both family and history as well as the part of the family in history

Jean Toomer and the Terrors of American History Charles Scruggs, Lee VanDemarr, 2016-11-11 Jean Toomer's *Cane* was the first major text of the Harlem Renaissance and the first important modernist text by an African American writer. It powerfully depicts the terror in the history of American race relations: a public world of lynchings, race riots, and Jim Crow; and a private world of internalized conflict over identity and race which mirrored struggles in the culture at large. Toomer's own life reflected that internal conflict, and he has been an ambiguous figure in literary history: an author who wrote a text that had a tremendous impact on African American authors but who eventually tried to distance himself from *Cane* and from his identification as a black writer. In *Jean Toomer and the Terrors of American History*, Charles Scruggs and Lee VanDemarr examine original sources: Toomer's rediscovered early writings on politics and race; his extensive correspondence with Waldo Frank; and unpublished portions of his autobiographies to show how the cultural wars of the 1920s influenced the shaping of Toomer's book and his subsequent efforts to escape the racial definitions of American society. That those definitions remain crucial for American society even today is one reason Toomer's work continues to fascinate and to influence contemporary writers and readers.

States of Inquiry Oz Frankel, 2006-07-21 In the mid-nineteenth century, American and British governments marched with great fanfare into the marketplace of knowledge and publishing. British royal commissions of inquiry, inspectorates, and parliamentary committees conducted famous social inquiries into child labor, poverty, housing, and factories. The American federal government studied Indian tribes, explored the West, and investigated the condition of the South during and after the Civil War. Performing printing and then circulating these studies, government established an economy of exchange with its diverse constituencies. In this medium, which Frankel terms print statism, not only tangible objects such as reports and books but knowledge itself changed hands. As participants, citizens assumed the standing of informants and readers. Even as policy investigations and official reportage became a distinctive feature of the modern governing process, buttressing the claim of the state to represent its populace, government discovered an unintended consequence: it could exercise only limited control over the process of inquiry, the behavior of its emissaries as investigators or authors, and the fate of official reports once issued and widely circulated. This study contributes to current debates over knowledge, print culture, and the growth of the state, as well as the nature and history of the public sphere. It interweaves innovative theoretical discussions into meticulous historical analysis.
