Canons by Consensus Joseph Csicsila, 2004-08-17 Canons by Consensus is first systematic analysis of American literature textbooks used by college instructors in the last century

Digital Literary Redlining Amy E. Earhart, 2025-06-24 Though canon concerns seem to be a relic of 1990s academia we are once again at a historical moment when there is resistance to teaching texts by writers of color and texts that deal with race ethnicity and gender At the same time algorithmic bias scholars are locating systemic bias encoded into systems from policing software to housing software Bringing these divergent areas together Amy E Earhart examines how technological and institutional infrastructures construct and deconstruct race ethnicity and gender identities Focusing on two central infrastructures the database a commonly used technological infrastructure in the digital humanities and the anthology a scholarly and pedagogical infrastructure Earhart considers how such seemingly naturalized infrastructures impact the representation and modeling of identity The book draws upon the building and use of DALA a collection of almost 100 years of generalist American and African American literature anthologies constructed to investigate questions of identity and representation in literary anthologies and by extension the larger literary canon The resulting examination and its rigorous discussion of how identities are created and recreated within Black literary histories has important implications for contemporary cultural and political debates about canon formation literary scholarship and the bias embedded in technological infrastructures

Multiethnic Literature and Canon Debates Mary Jo Bona, Irma Maini, 2012-02-16 This groundbreaking collection reinvigorates the debate over the inclusion of multiethnic literature in the American literary canon While multiethnic literature has earned a place in the curriculum on many large campuses it is still a controversial topic at many others as recent campus and corporate revivals of The Great Books attest Many still perceive multiethnic literature as being governed by ideological and political issues perpetuating a false distinction between highbrow

literary texts and multiethnic works Through historical overviews and textual analyses the contributors not only argue for the aesthetic validity of multiethnic literature but also examine the innovative ways in which multiethnic literature is taught and critiqued The following questions are also addressed Who and what determines literary value What role do scholars students the reading public book awards and or publishers play in affirming literary value Taken together these essays underscore the necessity for maintaining vibrant conversations about the place of multiethnic literature both inside and outside the academy

The Ethics and Poetics of Alterity in Asian American Poetry Xiaojing Zhou, 2006-05 Poetry by Asian American writers has had a significant impact on the landscape of contemporary American poetry and a book length critical treatment of Asian American poetry is long overdue In this groundbreaking book Xiaojing Zhou demonstrates how many Asian American poets transform the conventional I of lyric poetry based on the traditional Western concept of the self and the Cartesian I to enact a more ethical relationship between the I and its others Drawing on Emmanuel Levinas's idea of the ethics of alterity which argues that an ethical relation to the other is one that acknowledges the irreducibility of otherness Zhou offers a reconceptualization of both self and other Taking difference as a source of creativity and turning it into a form of resistance and a critical intervention Asian American poets engage with broader issues than the merely poetic They confront social injustice against the other and call critical attention to a concept of otherness which differs fundamentally from that underlying racism sexism and colonialism By locating the ethical and political questions of otherness in language discourse aesthetics and everyday encounters Asian American poets help advance critical studies in race gender and popular culture as well as in poetry The Ethics and Poetics of Alterity is not limited however to literary studies it is an invaluable response to the questions raised by increasingly globalized encounters across many kinds of boundaries The Poets Marilyn Chin Kimiko Hahn Myung Mi Kim Li Young Lee Timothy Liu David Mura and John Yau *Romantic Prose Fiction* Gerald Ernest Paul Gillespie, Manfred Engel, Bernard Dieterle, 2008 In this volume a team of three dozen international experts presents a fresh picture of literary prose fiction in the Romantic age seen from cross cultural and interdisciplinary perspectives The work treats the appearance of major themes in characteristically Romantic versions the power of Romantic discourse to reshape imaginative writing and a series of crucial reactions to the impact of Romanticism on cultural life down to the present both in Europe and in the New World Through its combination of chapters on thematic generic and discursive features Romantic Prose Fiction achieves a unique theoretical stance by considering the opinions of primary Romantics and their successors not as guiding truths by which to define the permanent meaning of Romanticism but as data of cultural history that shed important light on an evolving civilization SPECIAL OFFER 30% discount for a complete set order 5 vols The Romanticism series in the Comparative History of Literatures in European Languages is the result of a remarkable international collaboration The editorial team coordinated the efforts of over 100 experts from more than two dozen countries to produce five independently conceived yet interrelated volumes that show not only how Romanticism developed

and spread in its principal European homelands and throughout the New World but also the ways in which the affected literatures in reaction to Romanticism have redefined themselves on into Modernism A glance at the index of each volume quickly reveals the extraordinary richness of the series total contents Romantic Irony sets the broader experimental parameters of comparison by concentrating on the myriad expressions of irony as one of the major impulses in the Romantic philosophical and artistic revolution and by combining cross cultural and interdisciplinary studies with special attention also to literatures in less widely diffused language streams Romantic Drama traces creative innovations that deeply altered the understanding of genre at large fed popular imagination through vehicles like the opera and laid the foundations for a modernist theater of the absurd Romantic Poetry demonstrates deep patterns and a sharing of crucial themes of the revolutionary age which underlie the lyrical expression that flourished in so many languages and environments Nonfictional Romantic Prose assists us in coping with the vast array of writings from the personal and intimate sphere to modes of public discourse including Romanticism s own self commentary in theoretical statements on the arts society life the sciences and more Nor are the discursive dimensions of imaginative literature neglected in the closing volume Romantic Prose Fiction where the basic Romantic themes and story types the romance novel novella short story and other narrative forms are considered throughout Europe and the New World This enormous realm is seen not just in terms of Romantic theorizing but in the light of the impact of Romantic ideas and narration on later generations As an aid to readers the introduction to Romantic Prose Fiction explains the relationships among the volumes in the series and carries a listing of their tables of contents in an appendix No other series exists comparable to these volumes which treat the entirety of Romanticism as a cultural happening across the whole breadth of the Old and New Worlds and thus render a complex picture of European spiritual strivings in the late eighteenth and the nineteenth centuries a heritage still very close to our age

John Calvin's American Legacy Thomas Davis, 2010-03-29 Though his influence on American society has often been forgotten or misunderstood John Calvin played a formative role in the traditions of almost every sector of American life This wide ranging study comprising twelve essays shows for the first time the extraordinary extent to which Calvinist thoughts and practices are woven into the fabric of American society theology and letters from the colonial period to the twenty first century John Calvin s *American Legacy* examines the economics of the Colonial period Calvin s effect on American identity and the evidence for Calvin s influence on American democracy The book next addresses Calvin s critical role in American theology inspecting the relationship between Jonathan Edwards s and Calvin s church practices the diverse views on the Calvinist theological tradition in the nineteenth century the ways in which Calvin was understood in the historiography of Williston Walker and Perry Miller and Calvin s influence on twentieth century theologies Finally the book explores Calvinism s influence on American literature examining the work of such writers as Samson Occom Harriet Beecher Stowe Max Weber Mark Twain John Updike and Marilynne Robinson This important book is the first to introduces readers to the breadth and

The Demeter-Persephone Myth as Writing Ritual in the Lives of Literary Women Jana Rivers Norton, 2017-01-06 This volume explores the life stories of Elizabeth Bishop Virginia Woolf Alice James and Edith Wharton whose individuation process mirrored Demeter Persephone's mythic journey from abduction and rage to purposeful reconciliation These authors often courted humiliation and consequent exile by voicing what others did not want to acknowledge yet each took restorative action to discover and preserve emotional and mental wellbeing Writing during the 19th and early 20th centuries when an association between female authors and physical ailments neurasthenia hysteria and other nervous complaints by the medical paternity reflected how society in general understood mental illness as well as the narrative perceptions of women Bishop Woolf James and Wharton claimed personal autonomy by speaking truth about sorrow and suffering in their lives Despite restrictions and limiting gender norms each author continuously recast painful experiences of loss abuse and mental illness as fodder for the imagination to forge lasting literary careers The book emphasizes the therapeutic value of narrative disclosure and its ability to yield a deeper understanding of the impact of childhood trauma and adversity on women writers and how their creative response shaped modern culture As such it contextualizes trauma as lived experience for each writer along with current research on early loss and mourning childhood abuse and family systems theory in order to appreciate more fully how writing as ritual may help transform mental and emotional debility

Counter-Revolution of the Word (Volume 1 of 2) (EasyRead Large Bold Edition) , *Annual Bibliography of English Language and Literature* , **The Hospitable Canon** Virgil Nemoianu, Robert Royal, 1991-01-01 The papers in this book respond to the public debate over literary canons in the United States and elsewhere by placing the political ideological aspects of the conflict inside perspectives derived from comparative literature Canons are seen by most of the contributors as based on democratic and communal intentions or choices inevitable filtered through and colored by historical experiences and social biases An examination of the canonical process over many centuries reveals both the impressive durability of its elements and the amazing flexibility of its outlines The careful individual analyses as well as the thought provoking general contributions in this volume agree that the democracy of play is one of the strongest bonds uniting the human race Canons or canons the contributors argue are based on it and reflect the intimate interdependence of cultural and intellectual matters with the workings of society as a whole Contributors Charles Altieri Lilian R Furst Michael G Cooke Robert Royal Roger Shattuck Rosa E M D Penna Glen M Johnson Yves Chevrel Raymond A Prier Peter Walker Christopher Clausen Virgil Nemoianu

Resources in Education , 1996 **African Cinema: Manifesto and Practice for Cultural Decolonization** Michael T. Martin, 2023-08-08 Challenging established views and assumptions about traditions and practices of filmmaking in the African diaspora this three volume set offers readers a researched critique on black film Volume One of this landmark series on African cinema draws together foundational scholarship on its history and evolution Beginning with the ideological project

of colonial film to legitimize the economic exploitation and cultural hegemony of the African continent during imperial rule to its counter historical formation and theorization It comprises essays by film scholars and filmmakers alike among them Roy Armes Med Hondo F rid Boughedir Haile Gerima Oliver Barlet Teshome Gabriel and David Murphy including three distinct dossiers a timeline of key dates in the history of African cinema a comprehensive chronicle and account of the contributions by African women in cinema and a homage and overview of Ousmane Semb ne the Father of African cinema American Book Publishing Record ,1998 **Research in Education** ,1974 **The Historical Novel in Nineteenth-Century Europe** Brian Hamnett,2011-11-24 Even at the height of its popularity in the early nineteenth century the historical novel faced criticism at many levels After its predominance in the 1810s and 1820s writers and historians shunned it as a travesty of their respective disciplines Even so the historical novel has frequently attracted a wide ranging public right up to the present day Brian Hamnett examines key novels by authors including Scott Balzac Manzoni Dickens Eliot Flaubert Fontane Gald s and Tolstoy revealing the contradictions inherent in this form of fiction and exposing the challenges writers faced in attempting to represent a reality that linked past and present He argues that the historical novel in the nineteenth century was a common European phenomenon with considerable interconnection of themes and periods Accordingly the book ranges from the British Isles and France through the Germanic territories Italy and Spain to the Russian Empire identifying the different objectives and phases of the historical novel Although historical novels did appear in the two previous centuries the form came to maturity in the nineteenth century a consequence of the developing nature of history as a discipline distinct from literature and philosophy and the increasing primacy of the novel for writers and the reading public Yet the frontiers between history and literature remained blurred and the two disciplines continued to influence one another as each sought a faithful representation of human experience Reader's Guide to Literature in English Mark Hawkins-Dady,2012-12-06 Reader s Guide Literature in English provides expert guidance to and critical analysis of the vast number of books available within the subject of English literature from Anglo Saxon times to the current American British and Commonwealth scene It is designed to help students teachers and librarians choose the most appropriate books for research and study **The Poetry of American Women from 1632 to 1945** Emily Stipes Watts,2014-09-10 American women have created an especially vigorous and innovative poetry beginning in 1632 when Anne Bradstreet set aside her needle and picked up her poet s pen The topics of American women poets have been various their images their own and their modes of expression original Emily Stipes Watts does not imply that the work of American men and that of American women are two different kinds of poetry although they have been treated as such in the past It is her aim rather to delineate and define the poetic tradition of women as crucial to the understanding of American poetry as a whole By 1850 American women of all colors religions and social classes were writing and publishing poetry Within the critical category of female poetry developed from 1800 to 1850 these women experimented boldly and prepared the way for the achievement of such women as Emily

Dickinson in the second half of the nineteenth century Indeed at times for example from 1860 through 1910 it was women who were at the outer edge of prosodic experimentation and innovation in American poetry Moving chronologically Professor Watts broadly characterizes the state of American poetry for each period citing the dominant male poets she then focuses on women contemporaries singling out and analyzing their best work This volume not only brings to light several important women poets but also represents the discovery of a tradition of women writers This is a unique and invaluable contribution to the history of American literature
