Fleischer, Many of America s presidents were racists and pursued racist policies The racial views and policies of each American president are examined in this ebook George Washington for instance owned slaves Harry Truman made racist comments about Blacks and Jews and how he hated the Chinese and Japanese Abraham Lincoln claimed not to like slavery but he was a racist who wanted Blacks out of America He did not emancipate Blacks from slavery Nixon said bad things about Blacks Mexicans and Jews and believed that abortion was necessary when a Black and White couple had a baby Benjamin Harrison was responsible for the Wounded Knee Massacre of the native Indians Chester Arthur signed the Chinese Exclusion Act of 1822 in a bid to limit the arrival of Chinese labor and Donald Trump also has a long history of racism

American Presidents, Religion, and Israel Paul Merkley,2004-07-30 Shortly after the end of the Second World War President Harry S Truman declared his support for the creation and maintenance of the modern state of Israel basing that support on religious and theological grounds This is the first book to explore the connection between the religious backgrounds and beliefs of U S presidents in relation to their policies toward Israel From Truman to Ford U S presidents relied in part on their religious and moral commitments to support their policies and views toward Israel Beginning with Carter however presidents have abandoned the role of champions of Israel to become champion of the Peace Process stressing peace and a secular approach that rises above the religious and theological fray And yet even in the context of this attempted fair mindedness U S presidents reveal their personal religious and moral beliefs in their responses to the issue of Israel Today George W Bush one of the most vocally religious presidents seems poised to take up the tradition once again of relying on his religious convictions to justify his positions toward the Arab Israeli conflict Here Merkley argues that while

faith alone does not determine action or that it even has a controlling influence religious belief does play a role in the policies that U S presidents and the nation adopt toward Israel When Truman declared I am Cyrus he was emphatically grounding his support of the modern state of Israel in his belief in the Bible Referring to the Persian king who allowed the Jews to return to Israel and to build the Second Temple Truman revealed his religious commitments and supported his policies on biblical grounds Bringing to the fore neglected evidence of the role of religious belief in policies toward Israel Merkley explores an overlooked aspect of presidential decision making suggesting that religion while not the only factor is at least among the influences that determine a president s view of the Arab Israeli conflict From Truman to Ford policies often reflected the Evangelical traditions that dictated unyielding support of Israel but with Carter s commitment to the peace process above all else the trend turned toward moral absolutes and more general religious beliefs that could sustain arguments for a negotiated peace George W Bush thus far however has clearly demonstrated his personal religious beliefs and may in the end reclaim the mantle of Cyrus

The American Presidents in 100 Facts Jem Duducu, 2016-10-15 Introduces us to the famous the infamous the unknown and the occasionally unfortunate men who have led a country from its early years as a colony fighting for independence through to it becoming the most powerful nation in the world *A Compilation of the Messages and Papers of the Presidents, 1789-1897: 1881-1889* United States. History of the United States of America, Under the Constitution James Schouler, 1894 *Hail to the Chief* Robert Dallek, 1996-09-26 An analysis of the history of the U S presidency details the lives of each president and looks at why some have become national heroes while others have faded into historical obscurity revealing five qualities that successful presidents have typically brought to the Oval Office Tour *Mid-America* , 1954 *Our War Too* Margaret Paton-Walsh, 2002 In the late 1930s a number of American women especially those allied with various peace and isolationist groups protested against the nation s entry into World War II While their story is fairly well known Margaret Paton Walsh reveals a far less familiar story of women who fervently felt that American intervention was absolutely necessary Paton Walsh recounts how the United States became involved in the war but does so through the eyes of American women who faced it as a necessary evil Covering the period between 1935 and 1941 she examines how these women functioned as political actors even though they were excluded from positions of power through activism in women s organizations informal women s networks and even male dominated lobbying groups In the Great Debate over whether America should enter the war some women favored aid to the Allies not because they hoped for war but because they hoped aid would forestall more direct U S involvement but also because they believed war was preferable to a Nazi victory Paton Walsh shows that this activism involved some of the most prominent women of their day Elizabeth Cutter Morrow whose son in law Charles Lindbergh was an isolationist spokesman supported the revision of the Neutrality Acts to allow the sale of arms to the Allies and expressed

her support in a national radio broadcast Soon other women joined this debate Esther Brunauer of the AAUW journalist Dorothy Thompson and organizations like the League of Women Voters and National Women's Trade Union League broke from the pacifist tradition to advocate American aid for the Allied cause Focusing on the conflict in Europe Paton Walsh shows how these women grasped the implications of the Lend Lease program for America's entry into the war but supported it nevertheless By late 1941 the Women's Division of the Fight for Freedom Committee had been established no longer merely advocating aid to Britain to keep American boys out of battle this organization supported direct American involvement in the war as a means of stopping Nazi oppression While most historians have focused on women's pacifism Paton Walsh connects women more directly to world events and shows how those interventionists reformulated maternalist ideas to justify and explain their beliefs Our War Too is a story of American women trying to reconcile the irreconcilable to preserve both their principles and their peace It expands our understanding of women as political actors and thinkers about foreign policy as it sheds new light on American public opinion over the build up to the war
