Rogers, 1996 In the second volume of the acclaimed Gas Food Lodging trilogy authors John Jakle Keith Sculle and Jefferson Rogers take an informative entertaining and comprehensive look at the history of the motel From the introduction of roadside tent camps and motor cabins in the 1910s to the wonderfully kitschy motels of the 1950s that line older roads and today s comfortable but anonymous chains that lure drivers off the interstate Americans and their cars have found places to stay on their travels Motels were more than just places to sleep however They were the places where many Americans saw their first color television used their first coffee maker and walked on their first shag carpet Illustrated with more than 230 photographs postcards maps and drawings The Motel in America details the development of the motel as a commercial enterprise its imaginative architectural expressions and its evolution within the place product packaging concept along America s highways As an integral part of America s landscape and culture the motel finally receives the in depth attention it deserves      **See America First** Marguerite Shaffer, 2013-08-06 In See America First Marguerite Shaffer chronicles the birth of modern American tourism between 1880 and 1940 linking tourism to the simultaneous growth of national transportation systems print media a national market and a middle class with money and time to spend on leisure Focusing on the See America First slogan and idea employed at different times by railroads guidebook publishers Western boosters and Good Roads advocates she describes both the modern marketing strategies used to promote tourism and the messages of patriotism and loyalty embedded in the tourist experience She shows how tourists as consumers participated in the search for a national identity that could assuage their anxieties about American society and culture Generously illustrated with images from advertisements guidebooks and travelogues See America First demonstrates that the promotion of tourist landscapes and the consumption of tourist experiences were central to the development of an American identity      The Mythic West in Twentieth-century America Robert G. **Reading California** Stephanie Barron, Sheri Bernstein, Ilene Susan Fort, 2000 This collection of essays written by a stellar cast of art historians and scholars looks closely at the forces that shaped fine art and material culture in California Illustrations      The American Roadside in Émigré Literature, Film, and Photography Elsa Court, 2020-01-06 The American Roadside in migr Literature Film and Photography 1955 1985 traces the origin of a postmodern iconography of mobile consumption equating roadside America with an authentic experience of the United States through the postwar road narrative a narrative which Elsa Court argues has been shaped by and through white male migr narratives of the American road in both literature and visual culture While stressing that these narratives are limited in their understanding of the processes of exclusion and unequal flux in experiences of modern automobility the book works through four case studies in

the American works of European born authors Vladimir Nabokov Robert Frank Alfred Hitchcock and Wim Wenders to unveil an early phenomenology of the postwar American highway one that anticipates the works of late twentieth century spatial theorists Jean Baudrillard Michel Foucault and Marc Aug and sketches a postmodern aesthetic of western mobility and consumption that has become synonymous with contemporary America     **A Companion to Popular Culture** Gary Burns,2016-03-08 A Companion to Popular Culture is a landmark survey of contemporary research in popular culture studies that offers a comprehensive and engaging introduction to the field Includes over two dozen essays covering the spectrum of popular culture studies from food to folklore and from TV to technology Features contributions from established and up and coming scholars from a range of disciplines Offers a detailed history of the study of popular culture Balances new perspectives on the politics of culture with in depth analysis of topics at the forefront of popular culture studies     **The Automobile and American Life, 2d ed.** John Heitmann,2018-08-03 Now revised and updated this book tells the story of how the automobile transformed American life and how automotive design and technology have changed over time It details cars inception as a mechanical curiosity and later a plaything for the wealthy racing and the promotion of the industry Henry Ford and the advent of mass production market competition during the 1920s the development of roads and accompanying highway culture the effects of the Great Depression and World War II the automotive Golden Age of the 1950s oil crises and the turbulent 1970s the decline and then resurgence of the Big Three and how American car culture has been represented in film music and literature Updated notes and a select bibliography serve as valuable resources to those interested in automotive history     **Driven Wild** Paul S. Sutter,2009-11-23 In its infancy the movement to protect wilderness areas in the United States was motivated less by perceived threats from industrial and agricultural activities than by concern over the impacts of automobile owners seeking recreational opportunities in wild areas Countless commercial and government purveyors vigorously promoted the mystique of travel to breathtakingly scenic places and roads and highways were built to facilitate such travel By the early 1930s New Deal public works programs brought these trends to a startling crescendo The dilemma faced by stewards of the nation s public lands was how to protect the wild qualities of those places while accommodating and often encouraging automobile based tourism By 1935 the founders of the Wilderness Society had become convinced of the impossibility of doing both In Driven Wild Paul Sutter traces the intellectual and cultural roots of the modern wilderness movement from about 1910 through the 1930s with tightly drawn portraits of four Wilderness Society founders Aldo Leopold Robert Sterling Yard Benton MacKaye and Bob Marshall Each man brought a different background and perspective to the advocacy for wilderness preservation yet each was spurred by a fear of what growing numbers of automobiles aggressive road building and the meteoric increase in Americans turning to nature for their leisure would do to the country s wild places As Sutter discovered the founders of the Wilderness Society were driven wild pushed by a rapidly changing country to construct a new preservationist ideal Sutter demonstrates that the birth of the movement to protect

wilderness areas reflected a growing belief among an important group of conservationists that the modern forces of capitalism industrialism urbanism and mass consumer culture were gradually eroding not just the ecology of North America but crucial American values as well For them wilderness stood for something deeply sacred that was in danger of being lost so that the movement to protect it was about saving not just wild nature but ourselves as well Unravelling Civilisation Hagen Schulz-Forberg,2005 This volume is a collection of contributions about the history and practice of travel and travel writing from a variety of academic disciplines including anthropology history linguistics and literary criticism It brings together scholars from over ten different countries and reflects on what travel is and how travel writings function It traces the history of travel and travel writing and the notion or idea of a European civilisation that permeates performances and perceptions The notion of Europe appears as a set of quality standards as well as guidelines for experiences against which civilisations are measured This set of standards and guidelines however is far from stable It is a floating foundation carrying different versions of Europe throughout time The authors tackle the problem from different angles travels from Europe across the seven oceans transported the idea of European civilisation just as travels to Europe or within Europe The volume explores the different meanings attached to the term Europe and civilisation throughout history and shows how different political or cultural contexts affect the notion of what Europe is or should be *Down & Out, on the Road* Kenneth L. **Are We There Yet?** Susan Sessions Rugh, 2008-06-12 When TV celebrity Dinah Shore sang See the USA in your Chevrolet 1950s America took her to heart Every summer parents piled the kids in the back seat threw the luggage in the trunk and took to the open highway Chronicling this innately American ritual Susan Rugh presents a cultural history of the American middle class family vacation from 1945 to 1973 tracing its evolution from the establishment of this summer tradition to its decline The first in depth look at post World War II family travel Rugh's study recounts how postwar prosperity and mass consumption abetted by paid vacation leave car ownership and the new interstate highway system forged the ritual of the family road trip and how that ritual became entwined with what it meant to be an American With each car a safe haven from the Cold War vacations became a means of strengthening family bonds and educating children in parental values national heritage and citizenship Rugh's history looks closely at specific types of trips from adventures in the Wild West to camping vacations in national parks to summers at Catskill resorts It also highlights changing patterns of family life such as the relationship between work and play the increase in the number of working women and the generation gap of the sixties Distinctively Rugh also plumbs NAACP archives and travel guides marketed specifically to blacks to examine the racial boundaries of road trips in light of segregated public accommodations that forced many black families to sleep in cars a humiliation that helped spark the civil rights struggle In addition she explains how the experience of family camping predisposed baby boomers toward a strong environmental consciousness Until the 1970s recession ended three decades of prosperity and the traditional nuclear family began to

splinter these family vacations were securely woven into the fabric of American life. Rugh's book allows readers to relive those wondrous wanderings across the American landscape and to better understand how they helped define an essential aspect of American culture. Notwithstanding the rueful memories of discomforts and squabbles in a crowded car, those were magical times for many of the nation's families.

**Missouri Railroads** Don L. Hofsommer, Carlos Arnaldo Schwantes, 2025-08-05 Missouri Railroads A Modern Crossroads 1921-2023 delves into the rich history of Missouri's railroads during their second century. From the roaring 1920s when opulent Limited passenger trains crisscrossed the state to the tumultuous times of the Great Depression and World War II, this book captures the essence of an era. As the postwar years unfolded, Missouri's railroads faced realignments and challenges. The mid-twentieth century witnessed shifts in routes, technologies, and passenger preferences. Against this backdrop, the book explores how the railroads adapted in the face of uncertainty. Stunning historical images, over 100 in color, breathe life into this transformative period and bring the story to the present day. Missouri Railroads goes beyond the history of a single state and its railroads to illustrate Missouri's vital role in shaping American railroading. These railroad companies mirrored national trends, yet each twist and turn carries a distinct local flavor. Authors Don L. Hofsommer and Carlos A. Schwantes weave a captivating narrative that celebrates Missouri's contribution to the broader American story.
