Americas Second Crusade:

America's Second Crusade William Henry Chamberlin,1950 First paperback edition 1962

America's Second Crusade William Henry Chamberlin,1950 First paperback edition 1962

How Roosevelt Failed America in World War II Stewart Halsey Ross,2006-05-17 Reeling from the devastation of World War I many Americans vowed never again to become involved in European conflicts This stance was formalized in 1935 when Congress passed the first Neutrality Act which was not only designed to keep America out of foreign wars but also called for the president to declare an immediate embargo of arms and munitions to all belligerent countries As war loomed and eventually erupted in 1939 President Franklin D Roosevelt instituted several policies that aided the Allies and American neutrality was questionable many months before the attack on Pearl Harbor This work examines how Roosevelt navigated prewar neutrality to push the United States toward intervention on the side of the Allies in World War II and considers critically his wartime policy of unconditional surrender and his unprecedented acceptance of a fourth term It covers his prewar policies that sidestepped neutrality including covert submarine warfare air patrol of the North Atlantic the Lend Lease Act and coordination between the American and British navies and critiques his plans for rebuilding postwar Europe Thirteen appendices parallel prewar planning by Roosevelt and Woodrow Wilson and reproduce such key documents as the Atlantic Charter and the Potsdam Declaration

The Conservative Intellectual Movement in America Since 1945 George H. Nash,2023-03-28 First published in 1976 George H Nash s celebrated history of the postwar conservative intellectual movement has become the unquestioned standard in the field This new edition published in commemoration of the book s thirtieth anniversary includes a new preface and conclusion by the author and will continue to instruct anyone interested in how today s conservative movement was born

A Companion to World War II Thomas W. Zeiler,Daniel M. DuBois,2012-12-21 A Companion to World War II brings together a series of fresh academic perspectives on World War II exploring the many cultural social and political contexts of the war Essay topics range from American anti Semitism to the experiences of French African soldiers providing nearly 60 new contributions to the genre arranged across two comprehensive volumes A collection of original historiographic essays that include cutting edge research Analyzes the roles of neutral nations during the war Examines the war from the bottom up through the experiences of different social classes Covers the causes key battles and consequences of the war

The Oxford Encyclopedia of American Military and Diplomatic History Timothy J. Lynch,2013 Entries written by renowned diplomatic and military historians as well as key scholars in international relations Provides assessments and analyses of key episodes issues and actors in the military and diplomatic history of the United States Based on the award winning Oxford Companion to United States History Comprehensive collection of entries that span the founding of the U S to its present state Offers a wide range of perspectives to provide an encompassing context of the United States military and diplomatic legacies Expansive bibliographies and suggested readings for each article to aid in research The Oxford Encyclopedia of American

Military and Diplomatic History a two volume set will offer both assessment and analysis of the key episodes issues and actors in the military and diplomatic history of the United States At a time of war in which ongoing efforts to recalibrate American diplomacy are as imperative as they are perilous the Oxford Encyclopedia will present itself as the first recourse for scholars wishing to deepen their understanding of the crucial features of the historical and contemporary foreign policy landscape and its perennially martial components Entries will be written by the top diplomatic and military historians and key scholars of international relations from within the American academy supplemented as is appropriate for an encyclopedia of diplomacy with entries from foreign based academics in the United Kingdom and elsewhere The crucial importance of the subject is reflected in the popularity of university courses dedicated to diplomatic and military history and the enduring appeal of international relations IR as a political science discipline drawing on both The Oxford Encyclopedia will be a basic reference tool across both disciplines a potentially very significant market Readership University level undergraduate and graduate students in History

Hearings United States. Congress. House,1954

The Conservative Century Gregory L. Schneider,2009-11-16 This concise history focuses on the development of American conservatism in the twentieth century up to the present Gregory L Schneider traces the course of a once reactionary movement opposed to progressive reform and the New Deal and describes how it came to advance alternative policies and programs that revolutionized the shaping of domestic politics foreign policy and economic policy Along the way he profiles such influential thinkers as William F Buckley Frank Meyer Henry Regnery and Barry Goldwater He also details how the decline of liberalism after the 1960s helped conservatives gain political power and how their energized activism and organization culminated in the election of Ronald Reagan in 1980 Schneider also describes how the years since the Reagan Revolution have been decidedly mixed for American conservatives

A Companion to 20th-Century America Stephen J. Whitfield,2008-04-15 A Companion to 20th Century America is an authoritative survey of the most important topics and themes of twentieth century American history and historiography Contains 29 original essays by leading scholars each assessing the past and current state of American scholarship Includes thematic essays covering topics such as religion ethnicity conservatism foreign policy and the media as well as essays covering major time periods Identifies and discusses the most influential literature in the field and suggests new avenues of research as the century has drawn to a close

The Costs of War John Denson,2017-07-05 The greatest accomplishment of Western civilization is arguably the achievement of individual liberty through limits on the power of the state In the war torn twentieth century we rarely hear that one of the main costs of armed conflict is long term loss of liberty to winners and losers alike Beyond the obvious and direct costs of dead and wounded soldiers there is the lifetime struggle of veterans to live with their nightmares and their injuries the hidden economic costs of inflation debts and taxes and more generally the damages caused to our culture our morality and to civilization at large The new edition is now available in paperback with a number of new essays It represents a large scale collective effort to pierce the veils of myth and

propaganda to reveal the true costs of war above all the cost to liberty Central to this volume are the views of Ludwig von Mises on war and foreign policy Mises argued that war along with colonialism and imperialism is the greatest enemy of freedom and prosperity and that peace throughout the world cannot be achieved until the central governments of the major nations become limited in scope and power In the spirit of these theorems by Mises the contributors to this volume consider the costs of war generally and assess specific corrosive effects of major American wars since the Revolution The first section includes chapters on the theoretical and institutional dimensions of the relationship between war and society including conscription infringements on freedom the military as an engine of social change war and literature and the right of citizens to bear arms The second group includes reconsiderations of Lincoln and Churchill an analysis of the anti interventionist idea in American politics a discussion of the meaning of the just war an assessment of how World War I changed the course of Western civilization and finally two eyewitness accounts of the true horrors of actual combat by **The Marshall Plan** Michael Holm,2016-11-10 Between 1948 and 1951 the Marshall Plan delivered an unprecedented 12 3 billion in U S aid to help Western European countries recover from the destruction of the Second World War and forestall Communist influence in that region The Marshall Plan A New Deal for Europe examines the aid program its ideological origins and explores how ideas about an Americanized world order inspired and influenced the Marshall Plan s creation and execution The book provides a much needed re examination of the Plan enabling students to understand its immediate impact and its political social and cultural legacy Including essential primary documents this concise book will be a key resource for students of America s role in the world at mid century *Beyond "Holy Wars"* Christoffer H. Grundmann,2014-04-23 The 9 11 al Qaeda attacks on the U S in 2001 shocked the world not only because of their viciousness but also because of the disillusionment that holy wars are a phenomenon of the past Holy wars rather are a reality in today s world too threatening global peace like never before In this volume Christoffer Grundmann pleads for the cultivation of religious literacy and interregligious dialogue First he attempts to regain an adequate understanding of religion by showing the incompatibility of abstract concepts of religion with religions actually lived So Grundmann suggests perceiving religion as the lived relationship toward an Ultimate Given that interreligious dialogue is communication about diverse ways of relating to the Ultimate the religiously embedded primarily Jewish philosophy of encounter and dialogical thinking with its personalistic nature comes into focus here as uniquely suited for such communication Even though interreligious encounter implies risk Christians cannot but engage in it fearlessly says Grundmann because they trust that the risen Christ will reveal himself anew as the one he really is wherever and whenever Christians take part in dialogue with people of other faiths **The War Against Japan, 1941-1945** John J. Sbrega,2015-06-12 With over 5 200 entries this volume remains one of the most extensive annotated bibliographies on the USA s fight against Japan in the Second World War Including books articles and de classified documents up to the end of 1987 the book is organized into six categories Part 1 presents reference works including encyclopedias pictorial accounts

military histories East Asian histories hisotoriographies Part 2 covers diplomatic political aspects of the war against Japan Part 3 contains sources on the economic and legal aspects of the war against Japan Part 4 presents sources on the military aspects of the war embracing land air and sea forces Religious aspects of the war are covered in Part 5 and Part 6 deals with the social and cultural aspects including substantial sections on the treatment of Japanese minorities in the USA Hawaii Canada and Peru

American Conservatism Brian Farmer,2008-12-18 American Conservatism History Theory and Practice from Brian R Farmer is a history of conservatism in the United States that illuminates the odyssey of American conservatism beginning with the Pilgrims and Puritans of the early colonial period and proceeding through the Revolutionary era the Antebellum period the Age of Laissez Faire Post Depression Conservatism the Reagan Era and concluding with the ideologies and policies of the George W Bush Administration arguably the most ideologically driven conservative administration in American history Conservatism in general and the multiple facets of conservatism are defined and the political socialization process that produces and perpetuates political ideologies in general and conservatism in particular are presented to lay the groundwork for the rich history of American people policies and events that have surrounded those conservative ideologies that follows Farmer provides a tool for those interested in American Politics in general and American conservatism in particular with a tool that helps explain the historical development of American ideological conservatism both in a theoretical sense and in a policy sense and thus draws a connection between the American past and what must be considered an exceptional conservative American administration even by American standards under George W Bush Farmer illustrates that the basic ideological underpinnings that have driven the Bush administration that have generally been viewed by Europeans as exceptional have been present in American politics since its earliest colonial beginnings with the Puritans and been carried forward by the ideological descendants of the Puritans from that time through the present In essence the form of American conservative exceptionalism exhibited during the Bush administration was present in American politics from the very beginning and has continued through the present albeit in a more extreme form since the traditional ideological conservatives currently dominate all three branches of the American government and the terror attacks of 9 11 allowed them to garner popular support for their exceptional programs

Republic, Not an Empire Patrick J. Buchanan,2013-02-05 All but predicting the September 11 attack on the World Trade Center Buchanan examines and critiques America s recent foreign policy and argues for new policies that consider America s interests first

[The History of American Foreign Policy from 1895](#) Jerald A. Combs,2015-02-12 This important text offers a clear concise and affordable narrative and analytical history of American foreign policy since the Spanish American War The book narrates events and policies but goes further to emphasize the international setting and constraints within which American policy makers had to operate the domestic pressures on those policy makers and the ideologies preferences and personal idiosyncrasies of the leaders themselves

Great Wars and Great Leaders Ralph Raico,2010 **The Failure of America's Foreign Wars**

Richard M. Ebeling and Jacob G. Hornberger, 1996-01-01 Americans are now faced with competing visions of where we want our nation to go On the one hand we have the vision of America s Founders individual liberty private property and limited government in which there is no welfare Social Security income taxation Medicare Medicaid regulations subsidies and the like Equally important no foreign wars On the other hand we have the vision of the 20th and 21st century public officials ever increasing taxation regulations and political plunder And of course body bags and caskets as part of their attempt to remake the world into one gigantic welfare state The stakes are too high for any American to ignore For with foreign wars not only do we have taxation and regulation we also have the specter of funerals and wheelchairs for husbands fathers sons wives mothers and daughters It is time for the American people to recognize that our ancestors were right and that public officials were wrong It is time to recapture the principles of our Founders It is time to lead the world out of the welfare state darkness into which it has plunged during most of our lifetime The Failure of America s Foreign Wars strips away the truth obscuring nostalgia for America s foreign adventures and shows the perverse and bloody consequences of these conflicts

An Undercurrent of Suspicion George Sirgiovanni, The one period that most students of anti Communism have ignored is the years of the Second World War when the United States and the Soviet Union briefly stood together as allies against Nazi Germany During this period criticizing the Soviet Union and the Communist party abruptly went out of fashion But even then there were Americans who chose to be unfashionable These leaders and opinion makers are the subject of Sirgiovanni s An Undercurrent of Suspicion This book demonstrates that the undercurrent of suspicion against the Soviet Union and communism in general was considerably stronger under World War II than many Americans realize or recall Many long time anti communists refuse to go along with the quasi official moratorium on criticizing America s Soviet ally and although the war granted the Communist Party of the United States an unaccustomed degree of legitimacy this was by no means universally conceded either The resilience of such attitudes n what surely were the most auspicious years of the U S Soviet relations contributes to our understanding of why a far more virulent and widespread Cold War mentality of mistrust and hostility burst forth so soon after the Allied victory Many issues that contributed to the Cold War had been raised during the alliance such as the political and territorial makeup of Eastern Europe Those who assumed that the U S S R could never be trusted to act in a spirit of justice and compassion included conservative politicians anti communist labor leaders right wing newsmen Catholics and Protestant fundamentalists and American Socialists all of whom Sirigiovanni discusses at length These individuals also insisted that the domestic Communist movement despite its patriotic wartime line remained in the service of today s ally but tomorrow s probably adversary Joseph Stalin s U S S R An Undercurrent of Suspicion will of considerable interest to anyone interested in communism ad anti communism American politics and the history of ideas especially as they relate to political issues The general reader will the book provides a new dimension to the war years and in so doing helps explain the deep background of the Cold War

When Presidents Lie Eric Alterman, 2005-10 Assesses the impact of

governmental and presidential lies on American culture revealing how such lies become ever more complex and how such deception creates problems far more serious than those lied about in the beginning
