Coup Attempt In Washington:

An Uncertain Ally David L. Phillips, 2017-05-23 Under the rule of Recep Tayyip Erdogan Turkey has descended into a dictatorship promotes the Islamist agenda abuses human rights limits freedom of expression in the press and wages war against the Kurds While Turkey has historically been important geopolitically it has become an outlier in Europe and an uncertain ally of the United States *An Uncertain Ally* is a straightforward indictment of Erdogan Drawing on inside sources in his Justice and Development Party AKP and the police the book reveals corruption and money laundering schemes that benefitted Erdogan his cronies and family members Erdogan has polarized Turkish society and created conditions that led to the coup attempt of July 2016 He has also deepened divisions by accusing Fethullah Gulen an Islamic teacher in Pennsylvania of establishing a parallel state and masterminding the coup attempt Erdogan has seized on the failed coup to justify a witch hunt arresting thousands and ordering the wholesale dismissal of alleged coup sympathizers Rather than foster reconciliation he pursued vendettas and turned Turkey into a gulag *An Uncertain Ally* exposes Turkey s ties to jihadists in Syria and the Islamic State questioning its suitability as a NATO member Under Erdogan Turkey faces a dark future that poses a danger to the region and internationally [AF Press Clips](#) ,1991 [AF Press Clips](#) United States Department of State. Bureau of African Affairs,1979 *Rebooting a Nation* Joel Burke,2025-04-03 How did a small post Soviet state become a digital and e government powerhouse producing world leading tech companies and pioneering policies for remote residency Three decades after gaining independence from the Soviet Union Estonia is a nation transformed Today the country is known worldwide as a startup hub boasting billion dollar companies including Wise Veriff and Bolt but even more impressive are Tallinn s pioneering efforts in e government With 99 per cent of government services digitalised and accessible online citizens can vote via computer or file their taxes online in minutes and Estonia s use of artificial intelligence to enhance and automate its offering to citizens long predates ChatGPT Drawing on his experience as a former official for the Republic of Estonia Joel Burke offers unique insight into the country s rapid rise as a tech and e government powerhouse since the turn of the century From the founding of Skype to the future of the e state he unveils the tactics and stories behind Estonia s spectacular journey after years of Soviet occupation and mismanagement to global tech leadership For those hoping to learn from Estonia s incredible journey Burke offers insights into the government s use of AI its creation of a digital society and its cultivation of a culture driving public sector creativity and innovation *Rebooting a Nation* is an informative and entertaining masterclass in Estonia s modern history [AF Press Clips](#) ,1986 **On the Fall of the Roman Republic** Strunk,2022-01-11 *On the Republic* juxtaposes the fall of the Roman Republic with the contemporary political landscape of the United States a republic in disarray violence and corruption thwarting the will of the people military misadventures abroad and rampant economic inequality diminishing a shared sense of the common good **Congressional Record** United States. Congress,1995 **Predestination and Free Will** Omer Atilla Ergi,2025-07-01 The concepts of predestination and

free will have been and continue to be two of the most difficult problems of classical and contemporary theology and philosophy. The debate on the perplexing coexistence of predestination and free will has been the focal point of discourse among theologians and philosophers since antiquity. The deliberations on determinism also played an important role in the formation of Islamic theology as the creedal statements of Islamic doctrines define belief in predestination as one of the essential articles of creed while asserting that human agents possess some form of will defined as *irada al juz iyya* the minor will in the Arabic lexicon. Evidently the creed of mainstream Islam necessitates that the two concepts are reconciled or at least a conceivable argument is provided to support the notion that predestination could indeed coexist with free will. Arguments for coexistence constructed on scriptural revelation and Prophetic tradition were proposed by various Muslim theologians from the formative period to contemporary times during which several theological schools emerged due to a number of significant differences in views. This book is primarily based on an examination and analysis of the theological arguments proposed by mainstream Islamic theologians and Fethullah G len a contemporary Muslim scholar and his theoretical framework on the reconciliation of predestination and free will. The methodology of this project includes comparative and detailed analysis of arguments put forward by formative classical and contemporary Islamic scholars and examination of arguments proposed by Western theologians and philosophers with an objective to establish the similarities and differences in the theoretical frameworks of scholars from different schools traditions and faiths. The main argument of this book is based on the theological premises proposed by Fethullah G len and mainstream Sunni theologians that support the coexistence of predestination and free will.

Insight Turkey 2019/04 ,2019-12-01 After the dismemberment of the Ottoman State even though it lost a huge territory Turkey chose not to pursue an irredentist foreign policy and although it was a continuation of the Ottoman State it did not want to maintain the Ottoman heritage. Instead the Republic of Turkey preferred to follow a pro status quo and a comprehensive Westernist foreign policy orientation. When the Soviet Union threatened Turkey in the wake of the Second World War Turkey needed to officially be part of the Western world. Therefore it had to accept the subordination to the liberal Western world and a dependent relationship with the United States due to the requirements of the bipolar world system. In spite of the vertical nature of this relationship both sides benefitted from this strong and sustainable alliance relationship. On the one hand the Western alliance provided security against the Soviet threat military and economic support and political advantages to Turkey. On the other hand the Western countries gained a great deal from Turkey who served as the most important NATO ally in the southeastern European front and hosted military air bases against threats coming from the east. Even after the collapse of the Soviet Union and the end of the Cold War Turkey continued to be a strategic ally of the West. However after the changes in the global balance of power the weakening of the American leadership and the more assertive and competitive foreign policies of other global powers such as Russia and China Turkey has decided to search for greater autonomy in its region. Furthermore the Western states policies especially those of

the U S have forced Turkey to follow a more independent foreign policy in order to be able to counter the increasing political instability in its regions More specifically the Western countries have preferred to collaborate with some anti Turkish regional actors that threaten Turkey s national security Especially after the Western support for the Fetullah Terrorist Organization FET and the Syrian branch of PKK YPG PYD both of which are considered as terrorist organizations by Turkey the credibility of the Western countries has decreased dramatically in Turkey leaving no other possible choice than questing for a more autonomous foreign policy Thus Turkey has begun to take necessary measures to search for a new and high level status in the international system Among others Turkey has diversified its foreign economic relations and increased its material capacity To this end Turkey has begun to develop an Ankara centered foreign policy and to oppose any developments that are detrimental to its national security Turkey is still determined to maintain its alliance with the Western countries but demands to revise the relationship which became anachronic in the light of developments at a regional and global level In its search for alternative partners and an independent foreign policy Turkey has improved its relations with Russia the main alternative challenger and balancer against the Western American hegemony For instance when the Turkish offer to buy Patriots was rejected by the U S government Ankara reached a deal with Russia to buy S 400 missile defense systems For many years now Turkey has been asking for a comprehensive reformation in the international system and for a more inclusive approach in which multilateral international platforms such as the United Nations play a bigger role Furthermore since the July 15 2016 coup attempt the power of the Turkish Armed Forces TSK was consolidated Three successful operations Operation Euphrates Shield Operation Olive Branch and Operation Peace Spring were undertaken in northern and northeastern Syria and as a result Turkey has strengthened its position in the Syrian conflict and prevented the projections of other actors involved in the crisis thus indicating that it is a game changer in the region Moreover Turkey has recently initiated the Operation Claw in Northern Iraq against the PKK and has sent two drilling ships Fatih and Yavuz and one seismic ship Barbaros to the Eastern Mediterranean In short when forced Turkey will be able to take unilateral measures to find solutions for the crises it may face in the future Notwithstanding these developments in principle Turkey never questioned its longtime relations with the West However despite its membership of Western regional organizations like NATO relationship with the Council of Europe and its EU membership process the Western perception of Turkey has been extremely negative and Western countries continue to take measures against Ankara Fearing a loss control over Turkey the Western powers have been trying to prevent Turkey s quest for autonomy and punish any step taken in this regard Furthermore they have attempted to create an anti Turkish regional bloc to contain Turkey s regional effectiveness i e the most recent rapprochement between Israel Saudi Arabia the UAE and Egypt Lastly Western countries consistently support anti Turkish forces in the region including terrorist groups It should also be noted that at a time of multi dimensional and multi layered global threats and challenges there is a high level of interdependency between Turkey and its NATO allies

European defense still starts from Turkey especially when it comes to international terrorism and international migration. Therefore it is very difficult to initiate a paradigm shift in Turkish West relations. The only way for both sides to overcome the conflictual issues is to accept the new realities and to redefine the alliance relations. On the one hand the Western countries should accept the new role that Turkey is determined to play in its regions and take the Turkish security concerns into attention. On the other hand Turkey needs to continue its contributions to the NATO operations and to challenge the threats emanating from the Middle East since Ankara cannot confront the regional threats by itself. This new issue of Insight Turkey showcases the emergence of Turkey as a regional power in the changing international system and aims to guide readers through the assortment of obstacles within Turkey's foreign policy and how Turkey's new diplomacy has navigated the nation to a whole new international arena. Turkey in a volatile region has plumbed the depths of autonomy in its foreign policy for the last decade and this has resulted in trouble with Turkey's strategic and NATO ally the United States. Ali Balç's commentary elucidates the quest of Turkey's autonomy in the Middle East where the collaboration with Russia and Iran consolidates its quest. Considering Turkey's partnership with different actors for more autonomy, Balç elaborates that the interests of Turkey and the U.S. are clashing in a region where Turkey is a subordinate actor. The Syrian civil war has been a cardinal phenomenon having defined Turkey's relationships with its NATO ally the U.S. and its neighbor and successor of the Soviet Union, Russia. William Hale canonically expounds how the U.S. has condoned Turkey's security concerns thereby allowing Turkey to work with Russia in order to ward off the eminent threats emerging from Syria such as ISIS and YPG/PKK. Furthermore, this commentary suggests the tense relationship between Turkey and the U.S. not be taken at face value. As mentioned early, Turkey has been asking for a comprehensive reformation in the international system. The famous motto 'The world is bigger than five' made famous by Turkish President Recep Tayyip Erdoğan highlights the increasing need to reform the international system in favor of justice and fair representation for all members of the UN. The lack of social, economic or humanitarian elements practiced within global governance continues to divide nations between the center and periphery. Berdal Aral delves deeper into the meaning of this motto and how domestically this idea emerged with the AK Party's use of morality in governance and connecting more international ties to poorer countries in Asia and Africa. President Erdoğan envisages a more just multipolar world against the damage being done from the privileged few on the Security Council by reintroducing necessary reforms advocating for peace over power. The relationship between Russia and Turkey has been steadily improving since the fall of the Soviet Union. As cooperation continues to increase, a few hard internal and external challenges have tested whether the relationship between these two great powers can persevere over differing interests. The military/strategic threats these countries face is the main driving force maneuvering these two nations' relationships. The greatest of these came in 2015 with the downing of the Russian SU-24 bomber aircraft over its violations of Turkish airspace; this example alone caused geopolitical escalations that were crucial to resolve diplomatically. Resolution has been found with

partnership in Syria and over arms trade as Turkey sees Russia as a path of diversification away from the West In this regard ener Akt rk explores the various challenges endured and the reaction Russia had to the various threats Turkey has faced in recent years The Eastern Mediterranean has remained one of the main focus areas of international attention due to the abundant amount of gas reserves around the Levant and island of Cyprus Lately Turkey has made sure to show its presence in the region at a time when energy security here has been an increasing issue as global actors compete over resources in the area Mehmet Efe Biresselioglu discusses Turkey s position in the contested energy rich region as it continues to secure its interests in North Cyprus and diversify its own energy As Turkey maximizes its energy potential the reactions from surrounding states and the EU has hindered any sense of fair resolution to all regional parties The unresolved dispute over Cyprus and respect for territorial sovereignty continues to be an ongoing dilemma that can see constructive progress made if Turkey is seen as a strategic partner and not a part of the problem The Turkish Lira suffered one of its most severe economic shocks in 2018 sending waves of uncertainty of Turkey s economic potential worldwide Among speculation as to what factors inhibit economic shocks on the Turkish market Nurullah G r Mevl t Tatl yer and erif Dilek address the view that geopolitical issues and slowed down reform measures are the main culprits to the depreciation With the decline of the currency against the dollar the Turkish government swiftly set to decrease the inflation rate and instill real sector reforms with a developmentalist approach to remedy the situation Turkey continues to develop financial alternatives with reducing reliance on imports and growing in the export market learning to safeguard against economic shocks has been a testing ground for the Turkish economy in recent years Murat lg l introduces the importance of personal diplomacy and how it is an effective tool in the modern world thus making it no surprise that it has increased in practice within Turkey lg l contends that personal diplomacy explains Turkey s foreign policy better as it is most effective in crisis periods when there is dominant leadership and when the political leader is confident about his her ability to shape policies all of which are applicable in Turkey Turkish judiciary faced its biggest crisis on the night of July 15 2016 during the coup attempt organized by FET members who wanted to bring down the democratically elected government They however did not succeed owing to the sturdy resistance of prosecutors and judges who were determined to uphold the rule of law against the coup plotters A prominent lawyer H seyin Ayd n clarifies how the Turkish judiciary has even handedly conducted the prosecution process since the night of July 15 Convulsed by unrest Iran has returned to the center of the world s attention Farhad Rezaei explores Iran s aim towards increasing their militarization as a means of survival even at the cost of destabilizing its regional neighbors and international discomfort Dividing Iran s military doctrine between ideological political and military technological Iran propagates its own notion as an Islamic protectorate and compensates for its military shortcomings like its relatively weak air force by bolstering its ballistic sector To measure Iran s military technology by taking inventory of Iran s military weaponry shows that they are at a disadvantage in the international realm Therefore they frequently resort to asymmetrical warfare with the use of proxy

groups and cyberwarfare where they have found limited success While Iran is likely to continue to develop its weaponry it is disadvantaged by richer neighbors partnered with America economic sanctions and the fact that its intentions on growth are seen more as a threat than domestic development The last piece of this issue brings attention to the Kashmir Crisis a simmering conflict which has long been glossed over by many countries and international organizations yet it has to be addressed due to the human rights violations in the region The Public Safety Act which is a preventive detention law and required to comply with the international law is used as a political tool to realize the objectives of authorities rather than its advocated primary aim of detaining people Mohmad Aabit Bhat sheds a light on the covert intentions of the law which has been enforced in the disputed territory of Jammu and Kashmir with a discursive approach These past years have been a challenging test for Turkish diplomacy as fluctuating relationships and conflicting interests have been at the foreground whether it s in the warzone of Syria or on the international stage at the UN Insight Turkey s last issue for 2019 Turkey s New Foreign Policy A Quest for Autonomy analyses how Turkey with great stamina has proven that it is a strong cooperative player and balancer between the polarities of the world as a voice for the oppressed and a pillar of strength among the dominant forces in the world **Congressional Record Index** ,1970 Includes history of bills and resolutions 1989

Quarterly Review of Military Literature ,1979 **Professional Journal of the United States Army** ,1979 *The MENA Region: A Great Power Competition* AA.VV.,2019-10-25 The volume deals with competition among regional and external players for the redistribution of power and international status in the Middle East and North Africa with a focus on Russia s renewed role and the implications for US interests Over the last few years a crisis of legitimacy has beset the liberal international order In this context the configuration of regional orders has come into question as in the extreme case of the current collapse in the Middle East The idea of a Russian resurgence in the Middle East set against a perceived American withdrawal has captured the attention of policymakers and scholars alike warranting further examination This volume a joint publication by ISPI and the Atlantic Council gathers analysis on Washington s and Moscow s policy choices in the MENA region and develops case studies of the two powers engagement in the countries beset by major crises **Free Trade and Social Conflict in Colombia, Peru and Venezuela** René De La Pedraja,2016-08-26 Foreign capital and free trade policies have provoked fierce conflicts in South America in recent years People in Colombia and Peru engaged in often violent clashes to defend their livelihoods against the encroachments of the free market and the impositions of Wall Street Farmers organized to save their lands from foreign mining corporations and cities fought to save their water from contamination Native Americans blocked highways to preserve ancestral lands while students paralyzed universities and called for reforms to higher education The shift toward socialism in Venezuela led by President Hugo Chavez was bitterly opposed by privileged groups Governments tried to quell the turmoil through repression political maneuvering and propaganda This book provides

a dramatic account of the struggles

Turkey-West Relations Oya Dursun-Özkanca, 2019-11-28 This timely book fills an important gap in the literature of international relations providing a thorough up to date empirically supported and theoretically grounded analysis of how and why Turkish foreign policy has changed in recent years vis vis the West Presenting one of the first balancing studies that employs elite interviews as data Turkey West Relations develops a framework of intra alliance opposition classifying the tools of statecraft into three categories boundary testing boundary challenging and boundary breaking Six case studies are examined regarding Turkish foreign policy over the past nine years exploring an array of topics including Turkey s foreign policy in relation to various nations and organizations the refugee crisis defense procurement energy policies and more Dursun zkanca demonstrates how international regional issue specific and domestic factors may serve to explain Turkey s increasing boundary breaking behavior This book is crucial for anyone who seeks to understand the recent growing rifts between Turkey and the US the EU and NATO

"Uncool and Incorrect" in Chile Stephen M. Streeter, 2023-02-21 The military coup that toppled Chilean President Salvador Allende in 1973 led to one of the most repressive military dictatorships in Latin American history Although the coup s full origin remains one of the great mysteries of the Cold War most assume that powers in Washington were largely to blame given the long history of U S interventionism in Latin America These assumptions were only strengthened by ongoing suspicions about the Nixon administration s role in a failed campaign to prevent Allende s inauguration in 1970 Providing a comprehensive account of the Nixon administration s efforts to undermine and unseat Allende the book relies heavily on newly declassified records addressing several crucial questions regarding U S involvement The author explores several counterfactual scenarios to highlight important turning points and crucial decisions which contributed to the failure of Chilean democracy
