Coups Africa And The Barrack Revolts:

Coups--Africa and the Barrack Revolts Ebenezer Babatope, 1981 Between 1952 and 1981 there were no less than thirty one coups or military takeovers in Africa thirty of which took place between 1963 and 1981 Babatope's historical narrative describes inter alia the coups in Nigeria Ghana Zaire Upper Volta Sierra Leone Togo Benin Central African Republic Mali Congo Brazzaville Uganda Mauritania Ethiopia Liberia and Niger Drawing parallels between the various examples he explores their causes rooted predominantly in history and foreign influence tribal wrangling for power and corruption and the exploitation of illiteracy He shows that eighteen of the coups were against civilian power and thirteen against soldiers in power of which only three could rightly be considered revolutionary Egypt Libya and Ethiopia He argues that every military regime has been an unmitigated disaster and that only democracy modelled on the kind of African socialism developed by Nyerere can bring about real improvement Obafemi Awolowo has written the foreword to the book

Kalu, George Klay Kieh Jr., 2021-11-04 Democratization and Military Coups in Africa Post 1990 Political Conflicts studies the seemingly endless cycle of coups that have occurred in Africa since the Free Officers Coup of 1952 in Egypt Unfortunately after more than three decades of the third wave of democratization that began in the 1990's military coups remain a firm figure on the African political landscape Although the Organization of African Unity OAU and its successor the African Union AU have developed and implemented anti coup norms they have not deterred coup makers Contributors to this volume analyze the major fault lines in the body politics of African states that have created the conditions for coup making and offer suggestions for ending the cycle of coups Using countries such as Burkina Faso Cote d'Ivoire Egypt Mauritania Sierra Leone and Sudan as case studies each chapter studies the causes effects and evolution of military coups in Africa in order to show that eliminating military coups will require identifying and addressing the root causes of the coup in each affected state

The Ghana Revolution, from Nkrumah to Jerry Rawlings Ebenezer Babatope, 1982 This book was published in the immediate aftermath of Jerry Rawlings 1981 coup and proclamation of the Ghana Revolution in January 1982 The author gives an account of the history of the socialist African revolution in Ghana from Nkrumah to Rawlings He argued that Rawlings represented a continuity of the socialist African revolution which drove Nkrumah and other revolutionary leaders to commit the resources and future of Ghana to overcome the imperial powers He puts the case for the continuing need for a unified self reliant socialist state and considers the high hopes for Rawlings revolution and socialist ideology with which he concurs including his potential to

inspire other African revolutions provide the strong African leadership required for greater African economic independence and an African presence in international relations The book represents a historical view of Rawlings role at a particular point in time *Revolution, Revolt and Reform in North Africa* Ricardo Laremont,2013-07-31 Providing an account of the recent revolutions or reform movements that constituted part of the Arab Spring this book focuses on these transformative processes in a North African context Whilst the longer term outcomes of the Arab Spring revolts are not entirely clear the revolutionary or reform processes in North Africa are further along than the events taking place in Levant or the Arabian Peninsula elections having now been held in the post revolutionary post revolt states Understanding and examining North African events has become critical as the countries in question are part of Mare Nostrum events in North Africa inevitably have effects in Europe Using examples from Tunisia Egypt Libya Morocco and Algeria *Revolution Revolt and Reform in North Africa* provides an insider scholar s account of these recent revolutions or reform movements One of the first attempts at undertaking an analysis of possible transitions to democracy in the region this book is a valuable resource for students and researchers with an interest in the Middle East Political Science or contemporary affairs in general **Philosophy and**

Logic for Everybody William Amam,2017-08-24 *Philosophy and Logic for Everybody* Solution to your Problem seeks to introduce the university students and the general readers to the double barreled discourse on Philosophy and Logic It shows how philosophy and logic have corrected some of the errors of the human mind over the ages Specifically it is designed to expose in meticulous detail the solutions given by great philosophers and thinkers to some of the fundamental problems that worry the mind of everybody that has reached the age of reason and responsibility Some of these solutions have become the foundation of today s knowledge including our science and technology Among other things it examined the diverse schools of philosophy and morality as well as fallacies as the errors of the human mind **Political Armies** Kees Koonings,Dirk Kruijt,2002-05 Does the withdrawal of armies from direct rule in most countries herald an end to their role as actors in domestic politics Has political intervention by the military been superseded This comparative examination of the politicized armed forces looks at the consequences of military rule for nation building and economic development the effects of the passing of the Cold War and the rise of globalization on the political role of the military the role of political armies in the consolidation of civil politics and democratic governance the lessons for policy makers in global governance and post conflict reconstruction The contributors build on successive theories about the role of the military in politics and look to the future The most threatening scenario may be a proliferation of armed actors and the rise of privatized forces of law and order

Revolution and Democracy in Ghana Jeffrey Haynes,2022-12-30 This book analyses Flight Lieutenant Jerry John Rawlings plans for radical democratisation in Ghana involving ordinary people directly in the country s political and economic decision making processes Rawlings came to power in Ghana in late 1981 determined to restructure the characteristics of Ghana s political and economic systems Despite Rawlings aim to bring ordinary Ghanaians into the decision

making process his regime was still heavily dependent on the support of the military and attempts at direct democracy ultimately ended in failure Outside analysts have viewed his plans as one of Africa s most draconian economic reform programmes The book traces this turbulent period of Ghana s history showing Rawlings development from a fiery revolutionary to a democracy supporting politician adept at winning elections It investigates how despite frequent coup attempts and the loss of most of its original civilian support base the regime was able to remain in power overseeing a halt to economic decline and a return to growth Building on over thirty years of research including contemporaneous interviews conducted by the author during Ghana s revolutionary period this book will be of interest to researchers of African history and politics

Selected Library Acquisitions University of Illinois at Urbana-Champaign,1981 **The African Communist** ,1988 **National Union Catalog** ,1982 Includes entries for maps and atlases ***Soldiers in Revolt*** Maggie Dwyer,2018-02-01 *Soldiers in Revolt* examines the understudied phenomenon of military mutinies in Africa Through interviews with former mutineers in Sierra Leone Burkina Faso and The Gambia the book provides a unique and intimate perspective on those who take the risky decision to revolt This view from the lower ranks is key to comprehending the internal struggles that can threaten a military s ability to function effectively Maggie Dwyer s detailed accounts of specific revolts are complemented by an original dataset of West African mutinies covering more than fifty years allowing for the identification of trends Her book shows the complex ways mutineers often formulate and interpret their grievances against a backdrop of domestic and global politics Just as mutineers have been influenced by the political landscape so too have they shaped it Mutinies have challenged political and military leaders spurred social unrest led to civilian casualties threatened peacekeeping efforts and in extreme cases resulted in international interventions *Soldiers in Revolt* offers a better understanding of West African mutinies and mutinies in general valuable not only for military studies but for anyone interested in the complex dynamics of African states ***Africa's Quiet Revolution Observed from Nigeri*** Dominic Okereke,2012-07 This book prescribes rapid revolution in principal sectors of this African economy through radical paradigm changes And the resultant comprehensive transformation will guarantee significantly higher productivities and double digit annual economic growth Included in this paradigm shift is the joint reindustrialization of the African economy and the US ailing industries via a new Strategic trans Atlantic Alliance modeled on the balanced Euro US cooperation after World War II But it first takes readers through a thorough evaluation of the familiar subject corruption which haunts Nigeria the principal economy in the continent The fundamental difference with other texts on the subject is that this book identifies the most debilitating variant of that corruption That variant causes massive capital flight from a post colonial soft economy that is neither capitalist nor socialist The Nigerian corruption thrives on the native Philosophy of Commission hardened by intractable tribalism that coagulated and ossified with the imports substitution pattern preferred by European firms since independence The book then proceeds to earn its priced revolutionary credential by inventing very novel scientific methods

that will skillfully turn this insidious source of structural rigidity and arrested development into a force for economic growth. A new apex political leadership culture is recommended and to be fortified with a unifying lingua franca. An inter ethnic marriage melting pot is advised for intensified nigerianization of Nigerian youths at birth. Spiritual diversity is envisaged to significantly diminish religious intolerance and sectarian violence. Modern bureaucracy and inward looking tourism are reformulated to reduce effervescent insecurity and minimize capital flight. The resultant economic stability will enlarge domestic foreign investment inflow and will reverse the current dis industrialization and massive job loss and the conditions of under full employment. Technological Functionalism, Economic pan Africanism and the Alternative Policy of Inputs Substitution are among the several brand new blueprints that this book offers for the extensive transformation of Africa's economy into the robust emerging economy that will rival its counterparts in India and China in the immediate future.
