Blending Families Trevor Crow Mullineaux, Maryann Karinch, 2016-05-26 Blending Families responds to the need for a book that explores step parenting by starting with the marriage as the central relationship in a new blended family unit Just as you are better able to help your child in an airplane emergency if you put your oxygen mask on first you are better able to blend two families if you take care of the marriage first Starting with a discussion of attachment styles the authors explore how those styles translate into the new family unit when trying to forge a new marriage while parenting tween and teen children in a family unit that is new to them as well They provide parenting guidance premised on the fact that parenting occurs within a context and in this case a context that is unfamiliar territory for everyone involved Using true stories throughout they explore the variety of challenges that may arise such as sibling rivalry puberty dating emotional and intellectual differences and preferential treatment and offer suggestions for overcoming obstacles to fully blending By focusing the light on the marriage as the most important source of stability the authors encourage readers to develop a style of parenting that works for everyone and brings a sense of unity and strength to the household

The Courage to Learn Marcia Eames-Sheavly, Paul Michalec, Catherine M. Wehlburg, 2023-07-03 It takes courage to engage in the kind of deep transformational learning that so many people need in their lives and this book is designed to help find and nurture that courage in learners including those that are engaged in facilitating the courageous learning of others Inspired by Parker Palmer s classic book The Courage to Teach the authors have carefully examined the learning side of the teaching and learning relationship and this book shares the resulting wealth of knowledge and experience with readers This book is informed by Palmer s observation that the conversations in teaching can be organized around four questions what how why and who In this book the authors center learning instead of teaching as they ask What is the content of learning How do we learn Why is it necessary what motivates us And who is the self that learns The authors have engaged in conversation with adult learners across the lifespan representing different ages social economic levels and approaches to learning Drawing on these discussions their own experiences and the scholarly literature they weave a

tapestry with threads of learning and teaching story and analysis that serve as warp and weft The authors pay tribute to the learner's journey in the fullness of the process and name the distinct forms of courage that learning takes In the concluding chapter the authors explore the implications for educational practice and offer guidance for any educator wishing to bring a Courage to Learn conversation to their community

The Ancient Mythologies of Peru and Mexico Henry Romano, Almost exhaustive proof of the wholly indigenous nature of the American religions is offered by the existence of the ruins of the large centers of culture and civilization which are found scattered through Yucatan and Peru These civilizations preceded those of the Aztecs and Incas by a very considerable period how long it is impossible in the present state of our knowledge of the subject to say Those huge buried cities the Nineveh's and Thebes of the West have left not even a name and of the peoples who dwelt in them we are almost wholly ignorant That they were of a race cognate with the Aztecs and Toltecs appears probable when we consider the similarity of design which their architecture bears to the later ruins of the Aztec structure Nevertheless there is equally strong evidence to the contrary At what epoch in the history of the world these cities were erected it would at present be idle to speculate The recent discovery of a buried city in the Panhandle region of Texas may throw some light upon this question and indeed upon the dark places of American arch ology as a whole In the case of the buried cities of Uxmal and Palenq e great antiquity is generally agreed upon Indeed one writer on the subject goes so far as to place their foundation at the beginning of the second Glacial Epoch
