Gabrielle Roy is one of the best known figures of Québec literature yet she spent much of the first thirty years of her life studying working and living in English For Roy as a member of Manitoba s francophone minority bilingualism was a necessary strategy for survival and success How did this bilingual and bicultural background help shape her work as a writer in French The implications of her linguistic and cultural identity are explored in chapters looking at education language translation and the representation of Canada s other minorities from the immigrants in Western Canada to the Inuit of Ungava What emerges is a new reading of Roy s work Drawing on archival material postcolonial theory and translation studies *Between Languages and Cultures* explores the traces and effects of Roy s intimate knowledge of English language and culture challenging and augmenting the established view that her work is distinctly French Canadian or Québécois
