Courtier And Commoner In Ancient China Selection From The History Of The Former Han:

Courtier and Commoner in Ancient China Gu Ban, 1974 Pan Ku's celebrated and influential History of the Former Han has been a model for dynastic history since its appearance in the first century A.D. Burton Watson has translated ten chapters from the biography section including the lives of imperial princes, generals, officials, and some lesser figures. **Courtier and Commoner in Ancient China**, 1974

Selected Poems of Du Fu, 2003-03-17 Du Fu 712-777 has been called China's greatest poet and some call him the greatest non-epic, non-dramatic poet whose writings survive in any language. Du Fu excelled in a great variety of poetic forms showing a richness of language ranging from elegant to colloquial, from allusive to direct. His impressive breadth of subject matter includes intimate personal detail as well as a great deal of historical information which earned him the epithet poet-historian. Some 1,400 of Du Fu's poems survive today, his fame resting on about one hundred that have been widely admired over the centuries. Preeminent translator Burton Watson has selected 127 poems including those for which Du Fu is best remembered and lesser-known works. Early Modern Japanese Literature Haruo Shirane, 2008 This abridged edition of Haruo Shirane's popular anthology *Early Modern Japanese Literature* retains the essential texts that have made the original volume such a valuable resource. The book introduces English-speaking readers to prose-fiction genres including *dangibon*, *kibyoshi*, satiric picture books, *sharebon*, books of wit and fashion, *yomihon*, *kokkeibon*, books of humor, *gokan*, bound books, and *ninjobon*, books of romance and sentiment. It also features poetic genres such as *waka*, *haiku*, *senryu*, and *kyoka*, and plays ranging from Chikamatsu's puppet plays to nineteenth-century *kabuki*. Readers will continue to benefit from the anthology's selection of significant essays, treatises, literary criticism, folk stories, and other noncanonical works, as well as the numerous prints that accompanied these works. They will also find Shirane's introductions and critical commentary which guide the reader through the allusive and often elliptical nature of these incredible selections. *Iron and Steel in Ancient China* Donald B. Wagner, 2021-12-06 This book is a study of the production and use of iron and steel in China up to the second century B.C. and simultaneously a methodological study of the reconciliation of archaeological and written sources in Chinese cultural history. An introductory chapter describes and discusses the available sources and their use, gives a brief outline of early Chinese archaeology and history, and develops certain important themes, especially the interaction of North and South in early China. Further chapters consider the invention of iron in a barbarian culture of southeast China, its spread to the area of Chinese culture, and the development of a large-scale iron industry in the third century B.C. The technology of iron production in early China is considered in two chapters on the microstructures of wrought and cast iron artifacts. **The Book of Swindles** Yingyu Zhang, 2017-09-05 This is an age of deception. Con men ply the roadways. Bogus alchemists pretend to turn one piece of silver into three. Devious nuns entice young women into adultery. Sorcerers use charmed talismans for mind control and murder. A pair of dubious monks extorts money from a powerful official and then spends it on whoring. A rich student tries to bribe the chief examiner.
