Burroughs is one of the twentieth century s most visible controversial and baffling literary figures In the first comprehensive study of the writer Timothy S Murphy places Burroughs in the company of the most significant intellectual minds of our time In doing so he gives us an immensely readable and convincing account of a man whose achievements continue to have a major influence on American art and culture Murphy draws on the work of such philosophers as Gilles Deleuze F lix Guattari Theodor Adorno and Jean Paul Sartre and also investigates the historical contexts from which Burroughs s writings arose From the paranoid isolationism of the Cold War through the countercultural activism of the sixties to the resurgence of

corporate and state control in the eighties Burroughs's novels films and music hold a mirror to the American psyche Murphy coins the term amodernism as a way to describe Burroughs's contested relationship to the canon while acknowledging the writer's explicit desire for a destruction of such systems of classification Despite the popular mythology that surrounds Burroughs his work has been largely excluded from the academy of American letters Finally here is a book that presents a solid portrait of a major artistic innovator a writer who combines aesthetics and politics and who can perform as anthropologist social gad or media icon all with consummate skill

Postmodern Belief Amy Hungerford, 2010-07-01 How can intense religious beliefs coexist with pluralism in America today Examining the role of the religious imagination in contemporary religious practice and in some of the best known works of American literature from the past fifty years Postmodern Belief shows how belief for its own sake a belief absent of doctrine has become an answer to pluralism in a secular age Amy Hungerford reveals how imaginative literature and religious practices together allow novelists poets and critics to express the formal elements of language in transcendent terms conferring upon words a religious value independent of meaning Hungerford explores the work of major American writers including Allen Ginsberg Don DeLillo Cormac McCarthy Toni Morrison and Marilynne Robinson and links their unique visions to the religious worlds they touch She illustrates how Ginsberg's chant infused 1960s poetry echoes the tongue speaking of Charismatic Christians how DeLillo reimagines the novel and the Latin Mass why McCarthy's prose imitates the Bible and why Morrison's fiction needs the supernatural Uncovering how literature and religion conceive of a world where religious belief can escape confrontations with other worldviews Hungerford corrects recent efforts to discard the importance of belief in understanding religious life and argues that belief in belief itself can transform secular reading

and writing into a religious act Honoring the ways in which people talk about and practice religion Postmodern Belief highlights the claims of the religious imagination in twentieth century American culture
