Voyage to the Land of Blue Mists Peter Bishop, 2023-03-31 Nobody ever suspected that a secret lay hidden in the picture that Zivilia had inherited from her mother That it had been painted in the land of Blue Mists a strange hermit kingdom that lay on the other side of the world had been long forgotten Besides Zivilia knew nothing of the country's blood splattered history or the disruption caused by the League of Ausburg and their traders in the brief period when they were there many years ago Thus learning her painting held clues as to where to find a lost relict came as a total surprise to her People in the know seemed to think that it was buried somewhere in that mysterious island archipelago There was astonishment that her religious order should decide to commission her to locate and then retrieve it The task could have easily be given to another deemed to be more suitable How then was she to travel there with her flying fox animal companion Fluffy Had one of the Divines known that she would need one day to make the voyage there The answer surely must be Yes Why else would she have made friends with the crew of the small trading ship The Dark Sun years ago Like many things the long journey to solve the mystery and recover the relict wasn't that straight forward But then life never is Is it *The Arthurian Name Dictionary* Christopher W. Bruce, 1999 A comprehensive encyclopedia of characters places objects and themes found in the legends of King Arthur and the Knights of the Round table Draws from all significant source between Gildas De Excidio Britanniae written about 540 AD and Tennyson's 19th century Idylls of the King including versions from throughout Europe The entries range from a short identifying sentence to nearly ten pages for the king himself Each is referenced to a source which are presented in a endtable showing author and title date form and language description keywords from the entries and recent editions a vital bit of information such references usually neglect The cross referencing is fairly good often done as a full entry identifying a name as a variant of another so the lack of an index is not a problem Distributed in the US by Taylor and Francis Annotation copyrighted by Book News Inc Portland OR **The New Monthly Magazine and Humorist**, 1869

Cousins by the Dozens Ivanoel Gibbins,1976 *The Complete Le Morte d'Arthur* Sir Thomas Malory,2016-12-22 The tales of the legendary King Arthur and his round table of noble knights The rise of King Arthur is often forgotten in our real world as we seek real world facts about where the legend came from The original text does not worry about factual answers instead relying on the imagination and the fairy tale personalities of the Lady of the Lake Merlin Lancelot and all the rest of the noble characters that arise in these stories
