history of defining Aboriginality in Australia and the experience of being Aboriginal have both impacted on the production of Aboriginal writing today These twin themes are the major focus of the book The pioneering roles of Aboriginal writers who have gone before and created a space has allowed for the growth of an Indigenous publishing industry Indeed a literary and publishing culture have developed also because of the increasing desire and need for an authentic Indigenous voice in Australian literature Although funding and other mechanisms are in place and possibilities afforded Indigenous writers have improved opportunities are still limited leading to some authors choosing to self publish
