Country Practice Scenes From The Veterinary Life:

A Country Practice Douglas Whynott, 2004-11-24 Chuck Shaw is a vanishing breed an old style veterinarian with a quarter of a century of experience who runs a mixed practice in rural New Hampshire treating everything from house cats to milk cows Week after demanding week he and his associate horse expert Roger Osinchuk make house calls and farm calls and spend sleepless nights on call to see to the well being of patients whose only common denominator is an inability to speak But the practice is booming and Chuck decides to take on a third associate Erika Bruner fresh out of veterinary school Whynott follows these three practitioners into the world of contemporary veterinary medicine as a witness to memorable encounters and daily dilemmas He watches as they play gynecologist to cows and horses obstetrician to calves and colts podiatrist to creatures whose feet are life and death to them He captures the struggle to learn a difficult craft on the job describes the confluence of skill and intuition that is the essence of diagnosis and depicts the ongoing effort to balance the needs and desires of animals and owners without compromising his creed *A Country Practice* is a vivid portrait of the rapidly changing face of an ancient profession True Stories Norman Sims, Medill School of Journalism, 2007 Journalism in the twentieth century was marked by the rise of literary journalism Sims traces more than a century of its history examining the cultural connections competing journalistic schools of thought and innovative writers that have given literary journalism its power Seminal examples of the genre provide ample context and background for the study of this style of journalism **The Sugar Season** Douglas Whynott, 2014-03-04 A year in the life of one New England family as they work to preserve an ancient lucrative and threatened agricultural art the sweetest harvest maple syrup How has one of America's oldest agricultural crafts evolved from a quaint enterprise with sugar parties and the delicacy sugar on snow to a modern industry At a sugarhouse owned by maple syrup entrepreneur Bruce Bascom 80 000 gallons of sap are processed daily during winter's end In *The Sugar Season* Douglas Whynott follows Bascom through one tumultuous season taking us deep into the sugarbush where sunlight and sap are intimately related and the sound of the taps gives the woods a rhythm and a ring Along the way he reveals the inner workings of the multimillion dollar maple sugar industry Make no mistake it's big business complete with a Maple Hall of Fame a black market a major syrup heist monitored by Homeland Security a Canadian organization called The Federation and a Global Strategic Reserve that's comparable to OPEC fitting since a barrel of maple syrup is worth more than a barrel of oil Whynott brings us to sugarhouses where we learn the myriad subtle flavors of syrup and how it's assigned a grade He examines the unusual biology of the maple tree that makes syrup possible and explores the maples and the industry's chances for survival highlighting a hot button issue how global warming is threatening our food supply Experts predict that by the end of this century maple syrup production in the United States may suffer a drastic decline As buckets and wooden spouts give way to vacuum pumps and tubing we see that even the best technology can't overcome warm nights in the middle of a season and that only determined men like Bascom can continue to make a sweet life off of rugged land
