system The CBRC has also achieved a high degree of compliance with the BCPs However several dimensions of credit risk including treatment of problem assets concentration risk and related party exposures have aspects in which they lag international best practices and standards Failure to resolve these issues may hamper the CBRC in its task of assessing the nature and scale of credit risk in the system and within individual institutions **Nigeria** International Monetary Fund. supervisor The second is the increasing importance of Mainland China in the current portfolios and prospects of the locally incorporated institutions and indeed in the choice of HKSAR as a platform for overseas institutions to establish relationships with Mainland China Economic Developments In India : Monthly Update, Volume -71 Analysis, Reports, Policy Documents Editors : Raj Kapila & Uma Kapila,2003 **Switzerland** International Monetary Fund. Monetary and Capital Markets Department,2014-09-03 This Detailed Assessment of Compliance on the Basel Core Principles for Effective Banking Supervision on Switzerland discusses that significant portions of guidance and legislation related to qualitative risk management and control standards are not as detailed or comprehensive as in many other major countries and need to be updated and selectively strengthened Supervisory risk assessments and guidance to auditors as the extended supervisory arm of the Swiss Financial Market Supervisory Authority FINMA need to be further materially improved beyond what is now envisioned Additional skilled resources within FINMA are necessary to meet these goals and to conduct more on site supervisory work The responsibilities and objectives of FINMA that emphasize protecting creditors investors and insured persons as well as ensuring proper functioning of the financial market should be clearly stated in legislation as pre eminent It is recommended to increase FINMA resources especially for on site inspection and risk expertise Clarify and limit the cases in which the Board can become involved in supervisory decisions and improve conflict code Saudi Arabia International Monetary Fund. Monetary and Capital Markets Department,2024-09-04 Much progress has been achieved in strengthening Saudi Arabia s banking regulatory and supervisory framework in recent years and additional enhancements are under preparation Recent updates to primary and secondary legislation include the Saudi Central Bank Law SCBL 2020 the Anti Money Laundering Law 2017 and regulations to address emerging risks such as financial fraud and cyber risks The authorities intend to use the new draft Banking Control Law BCL to further strengthen the framework Public consultation on the Bill ended in early 2023 and as the authorities consider the feedback received the findings of this assessment will prove useful in finalizing the Bill and further align the framework with the Basel Core Principles BCP
