Country Houses Postcards:

Country Houses. PostcardBook. Barbara Stoeltie, René Stoeltie, 2000-10 **American Holiday Postcards, 1905-1915**

Daniel Gifford, 2013-09-05 In the early 20th century postcards were one of the most important and popular expressions of holiday sentiment in American culture Millions of such postcards circulated among networks of community and kin as part of a larger American postcard craze However their uses and meanings were far from universal This book argues that holiday postcards circulated primarily among rural and small town Northern white women with Anglo Saxon and Germanic heritages Through analysis of a broad range of sources Daniel Gifford recreates the history of postcards to account for these specific audiences and reconsiders the postcard phenomenon as an image based conversation among exclusive groups of Americans A variety of narratives are thus revealed the debates generated by the Country Life Movement the empowering manifestations of the New Woman the civic privileges of whiteness and the role of emerging technologies From Santa Claus to Easter bunnies flag waving turkeys to gun toting cupids holiday postcards at first seem to be amusing expressions of a halcyon past Yet with knowledge of audience and historical conflicts this book demonstrates how the postcard images reveal deep divides at the height of the Progressive Era **Middlesbrough: The Postcard Collection** Tosh Warwick, 2025-06-15

A fascinating portrait of Middlesbrough presented through a remarkable collection of historical postcards **Lake Geneva in Vintage Postcards** Carolyn Hope Smeltzer, Martha Kiefer Cucco, 2005-05-18 An overview of Lake Geneva s rich history Lake Geneva was originally called Kishwauketoe by the Oneota tribe a name meaning clear or sparkling water Carved out by a glacier this same crystal water has attracted residents and tourists for centuries and continues to be a retreat for many in every season Through a collection of vivid vintage postcards authors Carolyn Hope Smeltzer and Martha Kiefer Cucco provide an inside look of Lake Geneva s past rendered in views of mansions cottages and camps and in images of recreation the surrounding towns and of course Lake Geneva itself **Postcards in the Library** Norman D Stevens, 2014-01-09

Postcards individually and collectively contain a great deal of information that can be of real value to students and researchers Postcards in the Library gives compelling reasons why libraries should take a far more active and serious interest in establishing and maintaining postcard collections and in encouraging the use of these collections It explains the nature and accessibility of existing postcard collections techniques for acquiring arranging preserving and handling collections and ways to make researchers and patrons aware of these collections Postcards in the Library asserts that in most cases existing postcard collections are a vastly underutilized scholarly resource Editor Norman D Stevens urges librarians to help change this since postcards as items for mass consumption and often with no apparent conscious literary or social purpose are a true reflection of the society in which they were produced Stevens claims that messages written on postcards may also reveal a great deal about individual and or societal attitudes and ideas Chapters in Postcards in the Library are written by librarians who manage postcard collections postcard collectors and researchers Some of the authors have

undertaken major research projects that demonstrate the ways in which postcards can be used in research and that have begun to establish a standard methodology for the analysis of postcards They write about major postcard collections including the Institute of Deltiology and the Curt Teich Postcard Archives the use of postcards for scholarly research postcard conservation and preservation arrangement and organization and importance and value Postcards in the Library describes the postcard collections in a variety of libraries of different kinds and sizes and indicates very real ways in which the effective use of postcard collections can result in and contribute to substantive scholarly publications It also offers advice and suggestions on the myriad issues that libraries face in handling these ephemeral fragments of popular culture Special collections librarians postcard collectors postcard dealers and historical societies will find the information in Postcards in the Library refreshing and practical Libraries with established postcard collections or those thinking about developing postcard collections will use it as a valuable planning tool and start to finish guide **Kisses on a Postcard** Terence

Diplomatic and Consular Reports. Annual Series Great Britain. Foreign Office,1899 **Northwold Manor Reborn** Warwick Rodwell,2024-08-15 Presents a fascinating superbly illustrated account by one of the UK s leading architectural historians of the history dereliction and restoration of a complex originally Tudor manor house Northwold Manor is a multi period listed building grade II about which almost nothing was known Uninhabited since 1955 it had fallen into a state of extreme dereliction and was beyond economic repair when the author purchased the property in 2014 He and his wife Diane Gibbs embarked on a major restoration that ran for nine years The restoration was carried out as a quasi archaeological operation revealing that the building complex had Tudor origins followed by the construction of a Stuart house with Georgian improvements and a new entertaining suite added in 1814 The Manor with its fine drawing room ballroom and orangery was the grandest house in Northwold and research into the families that occupied it revealed unexpected connections to the French Bourbon Court From the 17th to the 20th century the Carters were the principal owners and a local branch of the family included Howard Carter discoverer of Tutankhamen s tomb This account begins with a topographical study of Northwold and its three medieval manors followed by an exploration of the decline of the Carter family in the late 19th century That triggered the break up of the Northwold Estate in 1919 Passing through several ownerships the Manor was earmarked for demolition in 1961 reprieved it became a furniture store in the 1970s and every room was solidly packed As

the roofs failed and water poured in ceilings and floors collapsed carrying with them the stacks of rotting furniture By the late 1990s walls and gables were collapsing too and the local authority attempted to intervene A long struggle to save the Manor ensued finally ending with compulsory purchase in 2013 Although manor houses occur in most English parishes they have received surprisingly little archaeological study Every year hundreds are restored or altered but rarely accompanied by detailed recording or scholarly research and popular television programs reveal the shameful level of destruction that takes place in the name of restoration This is a book like no other the holistic approach to the rehabilitation of Northwold s derelict manor house involving history archaeology architecture and genealogy demonstrates how much can be learned about a building that had never before been studied The project has received several awards

The Catskills in Vintage

Postcards Irwin Richman,1999 From the 1890s through the 1920s the postcard was an extraordinarily popular means of communication Many of the postcards produced during this golden age and even some from later years can today be considered works of art Postcard photographers traveled the length and breadth of the nation snapping photographs of busy street scenes documenting local landmarks and assembling crowds of local children only too happy to pose for a picture These images printed as postcards and sold in general stores and five and dimes across the country survive as telling reminders of an important era in America s history This fascinating new history of the Catskills of New York showcases more than two hundred of the best most evocative vintage postcards available

Taming the Land: the Lost Postcard Photographs of the Texas High Plains John Miller Morris, 2009 A postcard craze gripped the nation from 1905 to 1920 as the rise of outdoor photography coincided with a wave of settlement and prosperity in Texas Hundreds of people took up cameras and photographers of note chose some of their best work for duplication as photo postcards sold for a nickel and mailed for a penny to distant friends and relatives These postcards which now enjoy another kind of craze in the collecting world left what author John Miller Morris calls a significant visual legacy of the history and social geography of Texas For more than a decade Morris has been finding and studying the photographers and methodically gathering their postcards In Taming the Land he shares those finds with readers introducing each photographer and
