Country To National Australian Rural Parties:

Rural protest groups and populist political parties Dirk Strijker, Gerrit Voerman, Ida Terluin, 2023-08-07 Some agricultural or rural protest groups in the Western world evolved into political parties often of a populist nature whereas others did not. This book is the first to explore under which conditions this happens and to what extent current populist parties have agricultural or rural ties and related agendas. Well known authors with a background in rural studies or in political sciences describe and analyse the situation in a number of Western countries: the United Kingdom, France, Poland, Austria, the Netherlands, Australia, Finland. The contributions in this book show that the accessibility and responsiveness of the political system and the institutionalized agrarian interest groups as well as the existing political landscape are influencing the decisions of rural protest groups to found a political party. However, nowadays the chances of these parties being successful are small due to the declining share of the agricultural sector within European societies. Although there will always be grounds for agrarian protest, it seems safe to say that the heyday of agrarian populism is over.

Australia's Doomed-Race Protective Myth Grant Rodwell, 2024-12-27 Periodically in Australian society racial chasms emerge portraying the great divide between Indigenous and non-Indigenous Australians, exposing the sustained influence of the doomed race protective myth and its residue. This book exposes that a long and powerful influence on Australian society, economy, culture, and history has been the doomed race protective myth. While most nations harbour protective myths of one form or another, often endorsed by Australian

governments at all levels and steeped in a cruel racism and inter alia a quest for pastoral lands Australia's doomed race protective myth has asserted an undue influence on First Nations people This book argues the doomed race protective myth warped the vision of power elites politicians and bureaucrats For centuries sustained by representations in official and public history schools churches and a whole host of public institutions the doomed race protective myth has been voiced by almost every facet of non Indigenous Australian society with pastoral Australia particularly benefiting This book opens fresh vistas to the continuing racism in Australian society through an examination of the long politicised doomed race protective myth which was foisted on First Nations people and with vested interests in pastoral Australia Key events in Australia's race relations history such as the 2023 First Nations Voice to Parliament Referendum have new light shed on them Transnational themes relevant to Indigenous history have been examined People with an interest in non Indigenous Indigenous affairs academics politicians and bureaucrats and students will enjoy this book

Federalism and Second Chambers Wilfried Swenden, 2004 The theory of comparative federalism asserts that federations require a second chamber for the representation of regional interests in central law making Yet there has been little systematic analysis of the contribution of second chambers in parliamentary federations to this task The main purpose of this book is to demonstrate to what extent the two strongest parliamentary second chambers the Australian Senate and the German Bundesrat are linked to the federal structures in which they are embedded The study analyzes the contribution of the members of these second chambers in advancing interests that are linked to the regional constituents whom they represent or to the collective fiscal or administrative interests of a regional government with whom they are associated The analysis underscores the largely executive character of intergovernmental relations in parliamentary federations a feature that corresponds with the composition of the German Bundesrat but not of the Australian Senate In the concluding chapter some preliminary observations are made as to whether our findings also generate interesting insights for the larger group of parliamentary second chambers in federal or quasi federal states such as the Belgian Spanish and Canadian Senates the UK House of Lords and the Indian Rajya Sabha

Tracking Rural Change Francesca Merlan, David Raftery, 2009-04-01 A key intensifying change affecting rural areas in the last few decades has been a decline in the proportion of national populations whose principal livelihood is farming The corresponding redistribution of population has typically resulted in a net population loss to rural areas and diversification of rural activity The corporatization and technological modification of food production has prompted new policy challenges and has bound rural and urban populations together in new relationships articulated in moral discourses of custodianship food safety and sustainability Contributors to this volume came together in the attempt to stimulate collective insight into trends of rural change in Australia New Zealand and Europe The first two countries have been characterised by avowedly neoliberal rural policy with considerable departures from it in practice Europe on the other hand by a mix of policy measures which attempt to integrate land management and sustainability diversification and

maintenance of a competitive farming sector within an overarching policy framework more overtly though only partially oriented towards sustaining rural society Aiming to build on research relating to the character of rural transitions this volume offers substantive and critical contributions to the understanding of the sources of unpredictability instability and continuity that underpin rural transition The papers explore changes and continuities in policy the governance of rural spaces technological developments relating to rural areas and populations and social forms of subjectivation and participation in increasingly diverse rural settings *Australian Citizenship* Brian Galligan, Winsome Roberts, 2004 Australians have much to celebrate in the hundred years of their citizenship but also a good deal to be ashamed of The authors argue that good citizenship depends on moral citizens able to discern between what is worthy of respect and pride and what is shameful in national life Galligan and Roberts from Uni of Melbourne **APAIS 1999: Australian public affairs information service**, *'Now is the Psychological Moment'* Stephen Wilks, 2020-10-12 Earle Christmas Grafton Page 1880 1961 surgeon Country Party leader treasurer and prime minister was perhaps the most extraordinary visionary to hold high public office in twentieth century Australia Over decades he made determined efforts to seize the psychological moment and thereby realise his vision of a decentralised regionalised and rationally ordered nation Page s unique dreaming of a very different Australia encompassed new states hydroelectricity economic planning cooperative federalism and rural universities His story casts light on the wider place in history of visions of national development He was Australia s most important advocate of developmentalism the important yet little studied stream of thought that assumes that governments can lead the nation to realise its economic potential His audacious synthesis of ideas delineated and stretched the Australian political imagination Page s rich career confirms that Australia has long inspired popular ideals of national development but also suggests that their practical implementation was increasingly challenged during the twentieth century Effervescent intelligent and somewhat eccentric Page was one of Australia s great optimists Few Australian leaders who stood for so much have since been so neglected *Agricultural and Resource Policy* David Godden, 2006-05-29 Agricultural and Resource Policy develops a framework for analysis and investigates the issues that affect the sector internally and in interactions with the rest of the economy **Australian Politics in the Twenty-First Century** Stewart Jackson, Joff Lelliott, Shannon Brincat, Josephine Bourne, Nick Economou, 2022-09-02 Australian Politics in the Twenty First Century is an invaluable introduction to the Australian political system *Global Heating and the Australian Far Right* Imogen Richards, Gearóid Brinn, Callum Jones, 2023-12-01 Global Heating and the Australian Far Right examines the environmental politics of far right actors and movements in Australia exploring their broader political context and responses to climate change The book traces the development of far right pseudo environmentalism and territorial politics from colonial genocide and Australian nationalism to extreme right political violence Through a critical analysis of news and social media it reveals how denialist and resignatory attitudes towards climate change operate alongside extreme right accelerationism in a wider Australian

political context characterised by reactionary fossil fuel politics and neoliberal New Right climate change agendas The authors scrutinise the manipulation of environmental politics by contemporary Australian far and extreme right actors in cross national online media They also assess the political ideological context of the contemporary far right addressing intergovernmental approaches to security threats connected to the far right and climate change and the emergence of radical environmentalist traditions in New Catastrophism literature The conclusion synthesises key insights analysing the mainstreaming of ethnonationalist and authoritarian responses to global heating and potential future trajectories of far right movements exploiting the climate crisis It also emphasises the necessity for radical political alternatives to counter the far right s exploitation of climate change This book will be of interest to researchers of climate change the far right neoliberal capitalism extremism and Australian politics

Franklin,Thomas Mackie,Henry Valen,2024-10-31 Until the last quarter of the 20th Century Western party systems appeared to be frozen and stability was generally taken to be the central characteristic of individual level party choice But during the 1970s and 1980s in a spasm of change that appeared to occur in all countries this ceased to be true Voters in Western countries suddenly demonstrated an unexpected and increasing unpredictability in their choices between parties often to the extent of voting for parties that are quite new to the political scene Understanding these fundamental changes became a pressing concern for political scientists and commentators alike and a matter of extensive controversy and debate In the

middle 1980s an international team of leading scholars set out to explore the reasons for these shifts in voting patterns in sixteen western countries all those of the then European Community except for Luxembourg and Portugal together with Australia Canada New Zealand Norway Sweden and the United States In this book they report their findings regarding the connections between social divisions and party choice and the manner in which these links had changed since the mid 1960s The authors based their country studies on a common research design By doing so they were able to focus on the characteristics that the sixteen countries had in common so as to evaluate the extent to which the changes had a common source This is a longitudinal study extending over nearly a generation of changes in voting behaviour that is as fully cross national as it was possible to produce at the time Its findings enabled the authors to break away from conventional explanations for electoral change to arrive at conclusions of far reaching importance The passage of time has not dated this book and in this edition the original text is augmented by a new Preface that describes the ways in which the book s findings retain their relevance for contemporary scholarship and by an Epilogue in which the main analyses reported in the book are brought up to date to the middle 2000s

Political Parties in Transition? Minority Governments in Comparative Perspective Bonnie N Field, Shane Martin, 2022-09-29 Approximately one third of parliamentary democracies are or are typically ruled by a minority government a situation where the party or parties represented at cabinet do not between them hold a majority of seats in the national legislature Minority governments are particularly interesting in parliamentary systems where the government is politically responsible to parliament can be removed by it and needs majority support in the parliament to legislate The chapters in this volume explore and analyse the formation functioning and performance of minority governments what we term the why how and how well The volume begins with overviews of the concept of and puzzles surrounding minority governments in parliamentary systems and establishes the current terms of the debate In the thirteen chapters that follow leading country experts present in depth case studies that provide rich contextualized analyses of minority governments in different settings The final chapter draws broader comparative based conclusions from the country studies that push the literature forward and outline directions for future research on minority governments
