Clinical Issues with Interracial Couples Volker Thomas, Joseph L. Wetchler, Terri Karis, 2014-02-25 Go beyond cookie cutter therapy and interventions to provide culturally relevant therapy that works for your clients in interracial relationships With this book you ll explore an array of relational issues faced by various configurations of interracial couples Then you ll learn specific intervention strategies for treating these couples in therapy The first section presents research and theoretical chapters on issues faced by interracial couples who are heterosexual the second focuses on issues facing racially mixed gay and lesbian couples and the third provides you with specific interventions to use with couples in interracial relationships *Clinical Issues with Interracial Couples* Theories

and Research is an important addition to the collection of any therapist who counts an interracial couple among his or her clients. From the editors: Although interracial couples face challenges related to differences in their racial backgrounds, couple and family theories have had little to say about how to work with these differences. Not all couples are white, married, and heterosexual, and there is a growing understanding that clinical practices based on these assumptions may not be adequate when working with interracial couples. Recognizing the diversity of our clients, the intent of this book is to contribute to more respectful and inclusive clinical practices that can address the treatment issues we face in the first decade of the twenty-first century. The first section of this book examines challenges faced by heterosexual interracial couples, focusing on how black-white couples experience and respond to racism and how they negotiate the racial and ethnic differences they face in their relationships; the significance of race or lack of it in white women's relationships with black men; with suggestions on how to create a therapeutic space for discussing race without over-determining its significance; marriages where one partner is of Latino descent and the other of non-Latino or white descent; a pilot study of a rarely investigated population; approaches, interventions, and strategies to use when treating multicultural Muslim couples; Hawaii's unusual history of interracial ties and relationships; the common challenges that face interracial couples there; and therapeutic interventions that can benefit them. The second section of *Clinical Issues with Interracial Couples* looks at the issues faced by same-sex interracial couples. Here is a sample of what you will find: clinical considerations for working with interracial intercultural lesbian couples; pitfalls to avoid in therapy as well as suggestions for a conceptual approach for gay Latino men in cross-cultural relationships. The book's final section presents interventions for use with interracial couples. Here you will find: assessment techniques and interventions geared toward black-white couples; information on doing effective therapy with Latino-white couples; a case study of the therapeutic process as applied to an Asian American woman married to a white man; seven therapists' perspectives on working with interracial couples, focusing on the historical context of intermarriage; specific concerns and issues that interracial couples experience in their relationships; and the experiences of therapists working with this diverse and challenging client population.

The Search for Domestic Bliss Ian Dowbiggin, 2014-02-14 Why are Americans so bad at marriage It's certainly not for lack of trying By the early 21st century Americans were spending billions on marriage and family counseling seeking advice and guidance from some 50 000 experts And yet the divorce rate suggests that all of this therapeutic intervention isn't making couples happier or marriages more durable Quite the contrary Ian Dowbiggin tells us in this thought provoking book the caring industry is part of the problem Under the influence of therapeutic reformers marital and familial dynamics in this country have shifted from mores and commitment to love and companionship This movement toward a me marriage as the New York Times has termed it with its attendant soaring expectations and acute dissatisfactions is rooted as much in the twists and turns of 20th century history as it is in the realities in the hearts and minds of modern Americans Dowbiggin argues and his book reveals how effectively those changes have been encouraged and orchestrated by a small but resourceful group of social reformers with ties to eugenics birth control population control and sex education In *The Search for Domestic Bliss* Dowbiggin delves into the stories of the usual suspects in the founding of the therapeutic gospel exposing little known aspects of their influence and misunderstood features of their work Here we learn for instance that Betty Friedan did not after all discover the problem that knows no name the widespread unhappiness of women in mid century America and that like Friedan one of the pioneers of marriage counseling was an open admirer of Stalin's Russia The book also explores the long overlooked impact of sex researchers Alfred Kinsey and Masters and Johnson on the development of marriage and family counseling and considers the under appreciated contributions to the marriage counseling movement of social reformer and activist Emily Mudd Through these and other reform minded Americans Dowbiggin traces the concerted and deliberate way in which the old order of looking to family and community for guidance gave way to seeking guidance from marriage and family counseling professionals Such a transformation as this book makes clear has been a key part of a major revolution in the way Americans think about their inner selves and their relations with friends family and community members a revolution in which once deeply private concerns have been redefined as grave matters of public mental health *The Changing Face*
