Couples Of Mixed Hiv Status Clinical Issues And Interventions:

Couples of Mixed HIV Status R Dennis Shelby, Nancy L Beckerman, 2012-12-06 Examine the unique emotional challenges and issues that face couples of mixed HIV status today Previous books on this subject mostly written in the days when HIV AIDS was considered a fatal rather than a chronic disease focused on end of life issues However Couples of Mixed HIV Status Clinical Issues and Interventions addresses the unique emotional challenges facing today s couples of mixed HIV status and provides a conceptual framework for assessment and intervention The book offers examples of how to apply emotionally focused couple therapy to help them work through issues including disclosure the fear of HIV transmission shifts in emotional intimacy family planning betrayal mistrust and uncertainty This unique work its knowledge base and the interventions you ll find inside are applicable to any practitioner who provides couple and family therapy as well as any practitioner who counsels around issues of chronic illness Couples of Mixed HIV Status provides therapists with a range of theoretical approaches to help mixed HIV status couples deal with their issues and concerns It includes applications of couple therapy approaches that have proved to be particularly effective as well as case studies that demonstrate how different relationship variables may affect therapy The book presents the findings of a research study involving 44 mixed HIV status couples in the Northeast and is generously illustrated with tables that make complex research results easy to access and understand Topics covered in Couples of Mixed HIV Status include various approaches to couples therapy the historical context of HIV AIDS HIV transmission family planning and HIV AIDS emotionally focused couple therapy disclosure issues attachment theory and much more Couples of Mixed HIV Status Clinical Issues and Interventions is a valuable resource for therapists and other mental health counselors working with today s couples of mixed HIV status as well as for students of counseling and health related services Readers who may be in a mixed HIV status relationship or those who are friends and family members of couples living with HIV will also find this book helpful *Couples of Mixed HIV Status* Nancy L.

Beckerman, 2005 Previous books on this subject mostly written in the days when HIV AIDS was considered a fatal rather than a chronic disease focused on end of life issues This volume however addresses the unique emotional challenges facing couples of mixed HIV status today It provides examples of how to apply emotionally focused couple therapy to help them work through issues including disclosure the fear of HIV transmission shifts in emotional intimacy family planning betrayal mistrust and uncertainty The book is generously illustrated with tables that make complex research results easy to access and understand

HIV, Substance Abuse, and Communication Disorders in Children R. Dennis Shelby, Robert M. Screen, 2013-01-11 Make sure every child gets a chance to be heard HIV Substance Abuse and Communication Disorders in Children examines the language problems of young children from special populations Essential as a textbook for graduate and upper level undergraduate studies and as a reference resource this unique book presents up to date research and compelling case studies that illustrate how prenatal exposure to drugs alcohol and HIV can affect a child in utero and

continue to handicap its development after birth Each chapter includes discussion threads and review questions to promote critical thinking and clinical problem solving skills in the classroom HIV Substance Abuse and Communication Disorders in Children looks at the negative impact a mother's lifestyle practices can have on her developing child with a nod toward the significant prevalence of HIV and substance abuse in today's society Some estimates place the number of infants born after prenatal exposure to illicit drugs as three quarters of a million every year When alcohol is added the figure rises to more than 1 million This powerful book focuses specifically on the serious consequences of alcohol marijuana cocaine and crack cocaine abuse including poor language development and speech delays limited vocabulary the inability to make their needs known poor articulation the inability to follow commands limited expressive language skills and the inability to understand the real meaning of words and generalize them And of the nearly 5 000 children in the United States living with AIDS almost all will struggle with speech production and communication disorders as the disease affects their brain spinal cord and central nervous system HIV Substance Abuse and Communication Disorders in Children examines the effect of drugs on the brain pregnancy and drug use trends common drugs of abuse Kosakoff's syndrome fetal alcohol syndrome FAS among Native Americans and African Americans neurologic sequelae speech and language intervention rehabilitation considerations treatment and family counseling and much more HIV Substance Abuse and Communication Disorders in Children is essential for graduate and undergraduate students working with language disorders in special populations

Psychosocial Impact of Lupus N. L. Beckerman, Charles Auerbach, 2014-10-14 With Lupus affecting more than 1.5 million Americans predominantly women of childbearing age there are many complex psychosocial challenges for the health care provider the patient and the family This book provides a comprehensive overview of the psychosocial impact of Lupus as a range of health care providers in the field explain the medical sociocultural and psychological frameworks particularly critical for a better understanding of this perplexing autoimmune disease With original qualitative and quantitative research and rich case studies and examples from both care providers and patients this book provides essential information about diagnosis treatment mental health issues and cultural competency issues relevant to all that live with Lupus or provide care to those living with it This book was originally published as a special issue of Social Work in Health Care

Lesbian Women and Sexual Health R. Dennis Shelby, Kathleen Dolan, 2014-07-16 Interviewer Where did you find out how to have safe lesbian sex Val I found out in jail Why do so many lesbian women engage in sexual behavior that puts their health even their lives at risk Many know they're at risk yet somehow feel safe enough to behave as if there is no reason to practice safe sex Lesbian Women and Sexual Health The Social Construction of Risk and Susceptibility examines how lesbian women perceive their level of risk for HIV and other sexually transmitted infections STIs It describes how their perceptions of risk and susceptibility are shaped by factors such as sexual identity cultural themes and community knowledge and how those perceptions impact on the very real HIV STI risks that lesbian women face The genesis of Lesbian Women and Sexual Health

The Social Construction of Risk and Susceptibility lies in Kathleen Dolan's exploratory study of this under researched area in which 162 structured interviews and 70 in depth interviews were conducted with women who self identify as lesbians What these women have to say will inform educate and probably surprise you Tables and figures make complex data easy to access and understand Lesbian women construct and label their identities and actions in complex ways that may lead to risky behavior In the words of the women surveyed and in Dr Dolan's insightful commentary this book explores the ways in which lesbian women construct their perceptions of risk and susceptibility to seek answers to questions that include Do many lesbian women see themselves to an extent as immune to HIV contraction How does their self constructed sense of risk and susceptibility lead to making dangerous choices Why in spite of their professed willingness to engage in protective actions do many lesbians not actually do so Why do many lesbian women and some of the health care professionals who serve them feel that pap smears are not necessary for women who have sex only with other women and what are the consequences of this opinion What is the relationship between drug alcohol use and risky sexual behaviors in lesbian women Lesbian Women and Sexual Health The Social Construction of Risk and Susceptibility is an important resource for women's lesbian health advocates health care professionals and courses in gay women's medical studies It addresses gaps in the existing research to enhance our understanding of the physical and mental health status of lesbian women of risk factors and protective actions regarding HIV and STIs and of the conditions for which protective actions actually reduce risk Use it to update your knowledge of this under studied area at the intersection of physical emotional and sexual health

Behind the Eight Ball
Tanya Telfair Sharpe, 2012-12-06 Inner city black women open their hearts to share the pain of crack addiction and its consequences Behind the Eight Ball Sex for Crack Cocaine Exchange and Poor Black Women documents an American tragedy that highlights the widening gap between social and economic classes In their own words poor black women nameless faceless and marginalized by poverty share the details of their lives before and after crack cocaine invaded their communities each recalling the circumstances of her introduction to the drug and her first experience using sex to support her addiction These candid interviews expose the socioeconomic changes in inner city neighborhoods that created the perfect conditions for a crack stronghold the crack cocaine economy's impact on the lives of inner city residents and the social and familial consequences of crack addiction among poor black women Behind the Eight Ball Sex for Crack Cocaine Exchange and Poor Black Women places crack addiction crack related prostitution and its consequences STDs HIV and pregnancy into the context of the larger social issues of inner city poverty race gender and class This unique book reveals the sex for crack barter system as evidence of a long term social exclusion and systemic racism that has worked to destroy the self image of poor black American women The women interviewed reflect this negative image exchanging sex for crack on a regular basis to support their addictions at the risk and reality of unplanned pregnancies The baby I am carrying now I don't know who the father is There are a few men that I had sex with around the time I got pregnant that day But which one it is I

don't know who Behind the Eight Ball Sex for Crack Cocaine Exchange and Poor Black Women examines why poor black women addicted to crack are disproportionately at risk for sexually transmitted diseases including HIV and unplanned pregnancies how the social and economic characteristics of poor black communities support crack distribution and consumption how crack use and the exchange of sex for crack damages struggling black families why the care of many children is entrusted to child welfare agencies how and why women are marginalized in the crack culture Behind the Eight Ball Sex for Crack Cocaine Exchange and Poor Black Women is an insightful and enlightening look at the motivations behind the decision to risk illness injury disease death and pregnancy to support addiction

Psychiatric Aspects of HIV/AIDS

Francisco Fernandez, Pedro Ruiz, 2006 This comprehensive text focuses on psychiatric issues associated with HIV/AIDS and provides clinicians with a basic understanding of epidemiology virology transmission and medical treatments inclusive of occupational exposures Psychosocial spiritual and sociocultural aspects of HIV/AIDS are covered describing implications of HIV/AIDS across minority groups The treatment section allows clinicians to organize an effective psychiatric treatment plan for all mental disorders associated with HIV/AIDS Issues of adherence prevention and public well being are emphasized throughout The management of medical problems such as delirium dementia and pain management in special HIV/AIDS patients with co-morbid substance abuse as well as end of life care is also included
