United States Department of State* ,2000 **HRM, Artificial Intelligence and the Future of Work** Olatunji

David Adekoya, Chima Mordi, Hakeem Adeniyi Ajonbadi, 2024-08-22 The rise of artificial intelligence is having a profound impact on human resource management as AI is being used to automate a wide range of HR tasks and functions from recruiting and onboarding to performance management and compensation. However, the impact of AI on HRM is not evenly distributed. Due to a variety of factors, the Global South is lagging behind the Global North in terms of AI adoption, creating a widening disparity in the effectiveness and efficiency of HR operations. This edited book explores HRM, artificial intelligence, and the future of work in the Global South. It addresses key elements of how technology is transforming the workplace and people management, including HR automation, robotisation, big data analytics, smart systems, virtualisation, AI, machine learning, and the Internet of Things. The chapters offer a collection of cases from various Global South countries, draw on various types of research (empirical, review, papers, conceptual, and theoretical), and incorporate contextual issues such as technology, politics, culture, ethics, and economics. Despite the relatively slow adoption of AI in the Global South compared to developed nations, its potential impact on the future of work remains significant, particularly in shaping the role of HR as a bridge between technology and human resources. This book will be a valuable resource for scholars, students, and policymakers interested in the future of work in the Global South, as it brings together critical insights from scholars and practitioners from the region, providing a much-needed perspective on this important issue.

SOE in The Netherlands An Official History, 2024-10-30 Until 1943, there was little effective resistance to the German occupation of The Netherlands. Though numerous small opposition groups had formed immediately after the German invasion in 1940, there was no concerted movement or overarching organization. Gradually, though, as the Germans introduced harsher measures against certain groups, opposition grew, particularly in the urban areas. These met with very limited success due to poor security, which was to plague the Dutch resistance movement in general. As is made clear in this official account, individuals were often members of more than one resistance group at the same time. This inevitably meant that when one cell was compromised, others quickly met the same fate. Nevertheless, in 1941, the Netherlands or N Section of the Special Operations Executive, under Major Seymour Bingham, started sending trained agents to The Netherlands. These operatives were dropped by parachute or infiltrated into the country from France or Belgium. Unfortunately, poor discipline continued to hamper the resistance movement. Preparation was poor, security was lax, and codewords were forgotten or ignored. As a result, fifty-four of N Section's agents were captured by the Germans; fifty of these were subsequently executed. Despite its egregious failings, SOE's N Section could count on some successes. Its agents were able to coordinate the various groups and help maintain communications with the UK. They also undertook valuable weapons training and gave instruction on demolition techniques. The people the agents assisted in active resistance were usually ordinary Dutch citizens, often working in respectable jobs under the very noses of the Germans, their only precaution being the adoption of a false name while operating undercover. The SOE agents themselves had to adopt the cover occupations of those professions which would not be subjected to

conscription such as teachers medical personnel or police Usually they would take the identity of brave individuals who had volunteered to have their information duplicated In addition the agents would be thoroughly briefed on their adopted personas so that they could provide convincing accounts of their movements if stopped and interrogated This official account of the development and activities of SOE s Dutch Section was written by a Staff Officer prior to SOE being disbanded in 1946 It was based on information reports and documents provided by those involved in the campaign It details how SOE agents were recruited and trained in the UK and gives information on safe houses contact addresses secret telephone exchanges training premises and methods of communications in The Netherlands and externally to London In essence it provides all the apparatus and procedures used in the establishment of the underground movement which sought to obstruct and oppose the Germans at every turn Occupational Outlook Handbook 2008-2009 (Clothbound) , The Elgar Companion to Regulating Platform Work Kurt Vandaele,Silvia Rainone,2025-03-12 Multidisciplinary in scope The Elgar Companion to Regulating Platform Work comprehensively analyses the dynamics and trends of the app based food delivery sector in the platform economy Adopting a comparative approach it examines the regulatory developments in the field at EU level and beyond Work Your Way Around the World Susan Griffith,2017-08-01 Travelling the world is something everyone should do But a trip of a lifetime does come at a cost and if you don t want to wait years saving then Work your Way Around the World is the book for you For summer jobs volunteering or jobs abroad Work Your Way Around the World is the number one guide for the self funded world traveller providing all the information you need to successfully find work abroad Choose from hundreds of potential job opportunities from the everyday to the utterly extraordinary from busking in Paris to marine conservation work in Madagascar Also includes all the essential practical advice you need to safely travel the globe such as work visas medical information and permits Find inside Hundreds of job opportunities across the globe Brand new chapter offering vital advice on taking a gap year Insightful case studies from travellers who have been there and done it Advice for applying and securing jobs abroad Culture and lifestyle information by country Essential guidance on safe areas to travel and which places to avoid Packed with hundreds of irresistible opportunities abroad Work Your Way Around the World is the globetrotter s essential handbook offering all you need to know to help plan your trip and successfully fund your way around the world Colleen Dewhurst Tom Viola,Colleen Dewhurst,2002-04-29 When brilliant actress Colleen Dewhurst died of cancer in 1991 she left behind the almost completed draft of this warm and funny autobiography Finished after her death by longtime friend Tom Viola this buoyant portrait sparkles with anecdotes about many great names in entertainment and is filled with the passion and humor which marked Dewhurst s vital life of photos *Business in Society* Mark Erickson,Carol Stephenson,Harriet Bradley,Steve Williams,2009-06-22 What s the point of studying business from a social perspective How can sociology aid my understanding of the big issues facing businesses today Can thinking sociologically really equip me better for a career in business This text provides an indispensable introduction to business and organizations from a social
