Court and Politics in Papal Rome, 1492-1700 Gianvittorio Signorotto, Maria Antonietta Visceglia, 2002-03-21 This 2002 book attempts to overcome the traditional historiographical approach to the role of the early modern papacy by focusing on the actual mechanisms of power in the papal court The period covered extends from the Renaissance to the aftermath of the peace of Westphalia in 1648 after which the papacy was reduced to a mainly spiritual role Based on research in Italian and other European archives the book concentrates on the factions at the Roman court and in the college of cardinals The sacred college came under great international pressure during the election of a new pope and consequently such figures as foreign ambassadors and foreign cardinals are examined as well as political liaisons and social contacts at court Finally the book includes an analysis of the ambiguous nature of Roman ceremonial which was both religious and secular a reflection of the power struggle both in Rome and in Europe Court and Politics in Papal Rome, 1492-1700 Gianvittorio Signorotto, Maria Antonietta Visceglia, 2011 Niccolò Ridolfi and the Cardinal's Court Lucinda Byatt, 2022-08-29 Niccol Ridolfi 1501 50 was a Florentine cardinal nephew and cousin to the Medici popes Leo X and Clement VII and he owed his status and wealth to their patronage He remained actively engaged in Florentine politics above all during the years of crisis that saw the Florentine state change from republic to duchy A widely respected patron and scholar throughout his life his sudden death during the conclave of 1549 50 led to allegations of poison that an autopsy appears to confirm This book examines Cardinal Ridolfi and his court in order to understand the extent to which cardinalate courts played a key part in Rome's resurgence and acted as hubs of knowledge located on the fault lines of politics and reform in church and state hospitable spaces that can be analysed in the context of entanglements in Florentine and Roman cultural and political patronage and intersections between the princely court and a more professional and complex knowledge and practice of household management in the consumer and service economy of early modern Rome Based on an array of archival sources and on three treatises whose authors were closely linked to Ridolfi s court this monograph explores these multidisciplinary intersections to allow the more traditional fields of church and political history to be approached from different angles Niccol Ridolfi and the Cardinal's Court will appeal to all those interested in the organisation of these elite establishments and their place in sixteenth century Roman society the life and patronage of Niccol Ridolfi in the context of the Florentine exiles who desired a return to republicanism and the history of the Roman Catholic Church A Companion to the Early Modern Cardinal Mary Hollingsworth, Miles Pattenden, Arnold Witte, 2019-12-30 A Companion to the Early Modern Cardinal is the first comprehensive overview of its subject in English or any language Cardinals are best known as the pope s electors but in the centuries from 1400 to 1800 they were so much more pastors inquisitors diplomats bureaucrats statesmen saints entrepreneurs and investors patrons of the arts of music literature and science Thirty five essays explain their social background positions and roles in Rome and beyond and what they meant for wider society This volume shows

the impact which those men who took up the purple had in their respective fields and how their tenure of office shaped the entangled histories of Rome and the Catholic Church from a European and global perspective The Culture and Politics of Regime Change in Italy, c.1494-c.1559 Alexander Lee, Brian Jeffrey Maxson, 2022-09-30 This volume offers the first comprehensive survey of regime change in Italy in the period c 1494 c 1559 Far from being a purely modern phenomenon regime change was a common feature of life in Renaissance Italy no more so than during the Italian Wars 1494 1559 During those turbulent years governments rose and fell with dizzying regularity Some changes of regime were peaceful others were more violent But whenever a new reggimento took power old social tensions were laid bare and new challenges emerged any of which could easily threaten its survival This provoked a variety of responses both from newly established regimes and from their opponents Constitutional reforms were proposed and enacted civic rituals were developed works of art were commissioned literary works were penned and occasionally aspects of material culture were pressed into service as well Comparative in approach and broad in scope it offers a provocative new view of the diverse political culture and economic factors which ensured the survival or demise of regimes not only in major polities like Florence Rome and Venice but also in less well studied regions like Savoy This book will appeal to researchers and students alike interested in cultural political and military history The Vacant See in Early Modern Rome John M. Hunt, 2016-03-11 In The Vacant See in Early Modern Rome John M Hunt offers a social history of the papal interregnum from 1559 to 1655 The study concentrates on the Roman people s relationship with their sacred ruler Using criminal sources from the Archivio di Stato di Roma and Vatican sources Hunt emphasizes the violent and tumultuous nature of the lapse in papal authority that followed the pope s death The vacant see was a time in which Romans of modest social backgrounds claimed unprecedented power From personal acts of revenge to collective protests staged at the Capitol Hill and citywide discussions of the papal election the vacant see provided Romans with a unique opportunity for political involvement in an age of omnipresent hierarchy **Dynasty and Piety** Luc Duerloo, 2016-04-29 The youngest son of Emperor Maximilian II and nephew of Philip II of Spain Archduke Albert 1559 1621 was originally destined for the church However dynastic imperatives decided otherwise and in 1598 upon his marriage to Philip's daughter the Infanta Isabella Clara Eugenia he found himself ruler of the Habsburg Netherlands one of the most dynamic yet politically unstable territories in early modern Europe Through an investigation of Albert's reign this book offers a new and fuller understanding of international events of the time and the Habsburg role in them Drawing on a wide range of archival and visual material the resulting study of Habsburg political culture demonstrates the large degree of autonomy enjoyed by the archducal regime which allowed Albert and his entourage to exert a decisive influence on several crucial events preparing the ground for the Anglo Spanish peace of 1604 by the immediate recognition of King James clearing the way for the Twelve Years Truce by conditionally accepting the independence of the United Provinces reasserting Habsburg influence in the Rhineland by the armed intervention of 1614 and devising the terms of the O ate Treaty of 1617 In doing so

the book shows how they sought to initiate a realistic policy of consolidation benefiting the Spanish Monarchy and the House of Habsburg Whilst previous work on the subject has tended to concentrate on either the relationship between Spain and the Netherlands or between Spain and the Empire this book offers a far deeper and much more nuanced insight in how the House of Habsburg functioned as a dynasty during these critical years of increasing religious tensions Based on extensive research in the archives left by the archducal regime and its diplomatic partners or rivals it bridges the gap between the reigns of Philip II and Philip IV and puts research into the period onto a fascinating new basis Aristocratic Power in the Spanish Monarchy Samuel Weber, 2023-03-06 In Italy the powerful Borromeo family of Milan have long been held up as a rare example of paternalist aristocrats who withstood the temptations of self enrichment so many of their peers succumbed to during the period of Spanish rule Aristocratic Power in the Spanish Monarchy the first major study of the family in the seventeenth century challenges this myth and explains how it came about Based on research in the previously inaccessible Borromeo private papers the volume details the Borromeo s increasing involvement with and dependence on the patronage of the kings of Spain At the center of the analysis are the ways in which one family sought to rationalize and conceal this controversial relationship in the face of popular opposition to their methods of buying their way into political power As their self seeking behavior came under scrutiny the clients of successive minister favorites reinvented themselves as paternalist courtiers committed to delivering good governance for the subject populations under their rule In doing so the book offers new perspectives on broader questions through a case study of three brothers from a representative noble family it explains a major shift in aristocratic power in the seventeenth century uncovering how dissimulation and subterfuge became central to the preservation of social privilege in an age of unprecedented threats to established power from below Steeped in sociological and anthropological research on elite power this captivating story from seventeenth century Italy tells us much about the reproduction of social inequality in our own times Reformation and Early Modern Europe David M. Whitford, 2007-11-01 Continuing the tradition of historiographic studies this volume provides an update on research in Reformation and early modern Europe Written by expert scholars in the field these eighteen essays explore the fundamental points of Reformation and early modern history in religious studies European regional studies and social and cultural studies Authors review the present state of research in the field new trends key issues scholars are working with and fundamental works in their subject area including the wide range of electronic resources now available to researchers Reformation and Early Modern Europe A Guide to Research is a valuable resource for students and scholars of early modern Europe

spirituality and culture Jesuit Foundations and Medici Power, 1532-1621 Kathleen Comerford, 2016-11-07 Jesuit Foundations and Medici Power 1532 1621 focuses on the cooperation between two new foundations the last Medici state and the Society of Jesus spanning nearly a century concentrating on the Jesuit foundations in Florence Siena and Montepulciano As the Medici built and centralized their power in the Grand Duchy of Tuscany they sought to control both the civic and religious behavior of their citizens They found partners in the Jesuits whose educational program helped establish social order and maintain religious orthodoxy Via a detailed investigation of both minor and major Italian Jesuit colleges and of multiple Medici rulers Kathleen M Comerford provides insight into church state cooperation in an age in which both institutions underwent significant changes Cultural Exchange in Early Modern Europe Robert Muchembled, Francisco Bethencourt, William Monter, 2006 A ground breaking reassessment of the status of information in early modern Europe first Economies of Literature and Knowledge in Early Modern Europe Subha Mukherji, Dunstan Roberts, Rebecca Tomlin, George Oppitz-Trotman, 2020-09-22 Placing literature at the centre of Renaissance economic knowledge this book offers a distinct intervention in the history of early modern epistemology It is premised on the belief that early modern practices of change and exchange produced a range of epistemic shifts and crises which nonetheless lacked a systematic vocabulary These essays collectively tap into the imaginative kernel at the core of economic experience to grasp and give expression to some of its more elusive experiential dimensions. The essays gathered here probe the early modern interface between imaginative and mercantile knowledge between technologies of change in the field of commerce and transactions in the sphere of cultural production and between forms of transaction and representation. In the process they go beyond the specific interrelation of economic life and literary work to bring back into view the thresholds between economics on the one hand and religious legal and natural philosophical epistemologies on the other Medicine and the Inquisition in the Early Modern World, 2019-07-01 Medicine and the Inquisition offers a wide ranging and nuanced account of the role played by the Roman Spanish and Portuguese Inquisitions in shaping medical learning and practice in the period from 1500 to 1850 Until now learned medicine has remained a secondary subject in scholarship on Inquisitions This volume delves into physicians contributions to the inquisitorial machinery as well as the persecution of medical practitioners and the censorship of books of medicine Although they are commonly depicted as all pervasive systems of repression the Inquisitions emerge from these essays as complex institutions Authors investigate how boundaries between the medical and the religious were negotiated and transgressed in different contexts The book sheds new light on the intellectual and social world of early modern physicians paying particular attention to how they complied with and at times undermined ecclesiastical control and the hierarchies of power in which the medical profession was embedded Contributors are Herv Baudry Bradford A Bouley Alessandra Celati Maria Pia Donato Martha Few Guido M Giglioni Andrew Keitt Hannah Marcus and Timothy D Walker This volume includes the articles originally published in Volume XXIII Nos 1 2 2018 of Brill's journal Early Science and Medicine

with one additional chapter by Timothy D Walker and an updated introduction The Golden Thread Ewan Clayton, 2015-01-20 From the simple representative shapes used to record transactions of goods and services in ancient Mesopotamia to the sophisticated typographical resources available to the twenty first century users of desktop computers the story of writing is the story of human civilization itself Calligraphy expert Ewan Clayton traces the history of an invention which ever since our ancestors made the transition from a nomadic to an agrarian way of life in the eighth century BC has been the method of codification and dissemination of ideas in every field of human endeavour and a motor of cultural scientific and political progress He explores the social and cultural impact of among other stages the invention of the alphabet the replacement of the papyrus scroll with the codex in the late Roman period the perfecting of printing using moveable type in the fifteenth century and the ensuing spread of literacy the industrialization of printing during the Industrial Revolution the impact of artistic Modernism on the written word in the early twentieth century and of the digital switchover at the century's close The Golden Thread also raises issues of urgent interest for a society living in an era of unprecedented change to the tools and technologies of written communication Chief among these is the fundamental question What does it mean to be literate in the early twenty first century. politics to serve their own ends Levin s account uncovers the vibrant world of late Renaissance diplomacy in which popes were forced to flee down secret staircases and ambassadors too often only narrowly avoided assassination BOOK JACKET

The early modern period saw an increase in printed commercial information including newspapers printed exchange rates and educational texts part of the print revolution that permeated all aspects of the early modern world Rather than relying on externally produced printed works commercial agents retained agency in creating and sharing their own business and educational information which was shared in other forms and prioritised and valued over printed material This book explores the ways that merchants and other commercial agents learned about business in the early modern British Atlantic World It considers how they acquired dispersed stored and used information as well as considering their contribution to creating and shaping that information Prioritising a wide range of manuscript material held in disparate collections including merchants correspondence letter books notebooks family papers exercise books and ships logs Talbott explores the ways that knowledge information and business education was created circulated and used in the early modern British Atlantic World It offers a new perspective on the exchange of business information in a period dominated by discussions of print prioritising manuscript and oral forms of exchange In doing so it presents a more holistic account of the ways that networks of knowledge operated in early modern business centralising the creation circulation and use of business information specifically by those individuals most involved in and most affected by its production Reclaiming Rome: Cardinals in the Fifteenth Century Carol Mary Richardson, 2009-03-25 The fifteenth century was a critical juncture for the College of Cardinals They were accused of prolonging the exile in Avignon and causing the schism At the councils at the beginning of the period their very existence was questioned They rebuilt their relationship with the popes by playing a fundamental part in reclaiming Rome when the papacy returned to its city in 1420 Because their careers were usually much longer than that of an individual pope the cardinals combined to form a much more effective force for restoring Rome In this book shifting focus from the popes to the cardinals sheds new light on a relatively unknown period for Renaissance art history and the history of Rome Dr Carol M Richardson has been awarded the Philip Leverhulme Prize 2008 in the field of History of Arts
