Phillips, 2012-02-01 This is a book about life modeling Unlike the painter whose name appears beside his finished portrait the life model posing nude perhaps for months goes unacknowledged Standing at a unique juncture between nude and naked between high and low culture between art and pornography the life model is admired in a finished sculpture but scorned for her or his posing Making use of extensive interviews with both male and female models and quoting them frequently Sarah R Phillips gives a voice to life models She explores the meaning that life models give to themselves and to their work and seeks to understand the lived experience of life models as they practice their profession Throughout history people have romanticized life models in an aura of bohemian eroticism or condemned them as strippers or sex workers *Modeling Life* reveals how life models get into the business managing sexuality in the studio what it means to be a muse and why their work is important **Passionate Discontent** Patricia Mathews, 1999 Art historian Patricia Mathews examines the artistic social and scientific discourses of fin de siècle France Along the way she illuminates the Symbolist construction of a feminized aesthetic that nonetheless excluded female artists from its realm She analyzes contemporary cultural assumptions as well as theories such as social Darwinism biological determinism and degeneracy **BOOK JACKET** *Bodies of Art* Marie Lathers, 2001-01-01 To the time honored myth of the artist creating works of genius in isolation with nothing but inspiration to guide him art historians have added the mitigating influences of critics dealers and the public *Bodies of Art* completes the picture by adding the model This lively look at atelier politics through the lens of literature focuses in particular on the female model with special attention to her race ethnicity and class The result is a suggestive account of the rise and fall of the female model in nineteenth century realism with a final emphasis on the passage of the model into photography at the turn of the century This history of the model begins in nineteenth century Paris where the artist model dynamic was regularly debated by writers and where the most important categories of models appear to be Jewish Italian and Parisian women *Bodies of Art* traces an evolution in the representation of this model in realist and naturalist literary works from her birth in Balzac to her death in Maupassant in the process revealing how she played a key role in theories of representation advanced by writers Throughout the book Marie Lathers connects the artist's work to the social realities and actual bodies that surround and inhabit the atelier Her work shows how much the status of the model can tell us about artistic practices during the century of the birth of modernity **The Undressed Art** Peter Steinhart, 2004 Combining the scientific the historical the anecdotal and the personal with marvelous ease Steinhart reveals the allures and joys of a familiar art and inspires readers to pick up a pencil and draw **Journal of the Archives of American Art**, 1986 *Women Artists* Sherry Piland, 1994 Expanded to include an additional 29 artists the second edition of *Women Artists* is evidence of the growing interest in the lives and careers of women artists Additional annotated entries are included for the painters printmakers
