Courtship Rite:

Courtship and marriage customs of many nations R A. Melsom, 1885 **Courtship, Love, and Marriage in Nineteenth-Century English Canada** Peter Ward, 1990-03-01 Courtship love and marriage are seen today as very private affairs and historians have generally concluded that after the late eighteenth century young people began to enjoy great autonomy in courtship and decisions about marriage Peter Ward disagrees with this conclusion and argues that freedom in nineteenth century English Canada was constrained by an intricate social institutional and familial framework which greatly influenced the behaviour of young couples both before and after marriage **Shakespeare's Comic Rites** Edward Berry, 1984-10-18 Professor Berry combines social history anthropology and literary criticism to Shakespeare's romantic comedies *The History of Human Marriage* Edward Westermarck, 1891 *Courtship Rite* Donald Kingsbury, 1983 Science fiction roman Word and Rite Beatrice Batson, 2010-05-11 This book is an attempt to show something of the ways in which the Bible and the Christian tradition intersect the language of Shakespeare Word and Rite also focuses on the manner in which rites are efforts to illuminate mysteries the mystery of marriage the mystery of baptism the mystery of confession the mystery of the Eucharist the mystery of funerals and even the mystery of words in their relation to the Word Holy objects such as the Fountain of blood may also be considered Maimed rites frequently occur in Shakespeare but through ceremony there are attempts to turn mayhem into mystery especially in comedies In the words of the author of the Foreword to this book In Shakespeare word and rite are as inseparable as word and sacrament in worship so outward signs of inward truth are linked with words of these plays and with Scripture and with the Word incarnate This book also explores the ramifications of observing this insight **The Matrix of Lyric Transformation** Zong-qi Cai, 2021-01-19 Pentasyllabic poetry has been a focus of critical study since the appearance of the earliest works of Chinese literary criticism in the Six Dynasties period Throughout the subsequent dynasties traditional Chinese critics continued to examine pentasyllabic poetry as a leading poetic type and to compile various comprehensive anthologies of it The Matrix of Lyric Transformation enriches this tradition using modern analytical methods to explore issues of self expression and to trace the early formal thematic and generic developments of this poetic form Beginning with a discussion of the Y eh fu and ku shih genres of the Han period Cai Zong qi introduces the analytical framework of modes from Western literary criticism to show how the pentasyllabic poetry changed over time He argues that changing practices of poetic composition effected a shift from a dramatic mode typical of folk compositions to a narrative mode and finally to lyric and symbolic modes developed in literati circles **Umleavyo** Mary Ntukula, Rita Liljeström, 2004 Umleavyo The Dilemma of Parents is composed of studies on the gap between the generations and how this gap has widened over the past century The past serves as the seemingly stable background on which to project currently fluid and ambiguous parent child relationships The focus of the studies is often on the different methods and goals for bringing up the next generation These range from physical punishment to achieving compliance

through fear and reference to supernatural forces to initiation ceremonies that provide multiple precautions and timely instruction on marriage and procreation to the emphasis on relations between people as the most crucial experiences and to the encouragement of a sense personal responsibility This volume is based on the narratives of the grandparents parents and youths in the villages of the Pare people in the north and of the initiation leaders in Songea in the south and on a comparison of the opinions of elders and youths about gender issues among the Nyakyusa The unwillingness of parents to talk about a topic so delicate that they cannot find the right words is confronted Parents are handicapped in their efforts to discuss sexual matters with their children by a lack of terms that are sufficiently clear without being crude Part of the parents dilemma arises from societal conditions they cannot control For a long time individualisation has been understood as a response to hitherto unknown opportunities opened up by education science and technology Currently there are two main branches of individualism one involving those who have been able to emancipate themselves and reap some of the benefits of modernisation and another for those for whom the modern economies have no use surplus people individualised by force poverty and eroding social bonds How should one support youths for whom there is no clear passage to full adulthood How can one forge links between the plight of families and issues of citizenship and public action These are some of the questions raised in this book

Tropes of Politics John S. Nelson, 1998-04-15 Talk is of central importance to politics of almost every kind it s no accident that when the ancient Greeks first attempted to examine politics systematically they developed the study of rhetoric In Tropes of Politics John Nelson applies rhetorical analysis first to political theory and then to politics in practice He offers a full and deep critical examination of political science and political theory as fields of study and then undertakes a series of creative examinations of political rhetoric including a deconstruction of deliberation and debate by the U S Senate prior to the Gulf War Using the neglected arts of argument refined by the rhetoric of inquiry Nelson traces how everyday words like consent and debate construct politics in much the same way that poets such as Mamet and Shakespeare construct plays and he shows how we are remaking our politics even as we speak Tropes of Politics explores how politicians take stands and political scientists probe representation how experts become informed even as citizens become authorities how students actually reinvent government while professors merely model politics how senators wage war yet keep comity among themselves The action Nelson shows is in the tropes these figures of speech and images of deed can persuade us to turn from ideologies like liberalism toward spectacles about democracy or movements into environmentalism and feminism His argument is that inventive attention to tropes can mean better participation in politics And the argument is in the tropes evidence itself as sights or citations governments as machines or men politics as hardball or softball deliberations as freedoms or constraints borders as fringes or friends
