Cousteau Lilliput In Antarctica:

Jacques Cousteau Kathleen Olmstead,2008 Jacques Cousteau spent his life exploring oceans and sharing his discoveries through weekly television shows documentary films and books He excited and educated people by bringing the underwater world sharks whales penguins dolphins and sea turtles within reach This remarkable man also created important inventions like the aqualung which allowed people to breath underwater Even Cousteau s beloved ship the Calypso used as his home and office for more than forty years became well known His legacy lives on in the conservation efforts of the Cousteau Society Book jacket

Green Heroes László Erdős,2020-01-14 This book provides an introduction into the diversity of the environmental movement through great characters in the green sector The book describes inspiring personal achievements and at the same time it provides readers with information regarding the history the main directions and the ethical principles of the environmental movement Some of the most important characters of the movement from all around the world are included in the book As well as the title characters Buddha and Leonardo DiCaprio other famous environmentalists like Albert Schweitzer David Attenborough and Jane Goodall are discussed Some of the less well known but equally important environmentalists such as Chico Mendes Bruno Manser Henry Spira Tom Regan or Rossano Ercolini are highlighted in the various chapters The selection of characters represents all major branches within the green sector ranging from medieval saints to Hollywood celebrities from university professors to field activists from politicians to philosophers from ecofeminists to radicals

Carbon Hunters: Reflections And Forecasts Of Climate Markets In The 21st Century Richard L Sandor,Paula Diperna,2025-09-23 The book is a unique overview of the launching of carbon markets worldwide and the evolution of those markets as critical tools to manage climate change and other environmental problems The book also presents uniquely personal narratives of the authors who have each led unconventional and exciting professional lives meeting by coincidence and then working together on the largest environmental and economic problems of our times addressing climate change with flexibility and maximum potential Given the unique backgrounds of the authors as pioneers in their respective domains the book is likely to have no comparable or competitive books Carbon Hunters also situates the evolution of carbon markets as a journey of invention imagination and creativity bringing to life in real world terms the academic and intellectual underpinnings of an exceptional and rewarding journey inventing and activating new markets to save our planetary home Finally the book offers catalytic Food for Thought and Forecasts on how carbon markets can shape the future of environmental stewardship
