

COWRIES OF EAST SINAI

E.L. HEIMAN

Cowries Of East Sinai

Richard Bailey

Cowries Of East Sinai:

Cowries of East Sinai Eduard L. Heiman, 2002 **Hellenistic Nysa-Scythopolis I** Achim Lichtenberger, Oren Tal, 2025-07-29 This book deals with the first three campaigns of the German Israeli Tell I abba Excavation Project conducted by the Institute for Classical Archaeology and Christian Archaeology Archaeological Museum of the University of Münster and the Sonia and Marco Nadler Institute of Archaeology of Tel Aviv University under the direction of Achim Lichtenberger and Oren Tal Tell I abba is the location of the town of Nysa Scythopolis established in the Seleucid period a short lived Hellenistic site founded under Antiochus IV in the 160s BCE and destroyed under John Hyrcanus in 107 BCE The excavations shed light upon the material culture of this period as well as producing evidence of earlier Early Bronze Age and later Byzantine occupation **El-Ahwat, A Fortified Site from the Early Iron Age Near Nahal 'Iron, Israel** Adam Zertal, 2011-10-28 This report presents the findings of a unique archaeological site in central Israel The site is a fortified city possibly from the Sea Peoples Shardana that contains intriguing architecture and many Egyptian finds The Egyptian finds specifically indicate that it may have been an Egyptian stronghold with foreign mercenaries **Mollusca of the Dahab Region** Hubert Blatterer, Jasmin Blatterer, 2019 **Diagnosing Cowry Species** E. L. Heiman, 2004 **The Festivus**, 2005 *New Worldwide Cowries* Felix Lorenz, 2002 *Of Sea and Shore*, 1998 *Tel Malḥata* Itzhaq Beit-Arieh, Liora Freud, 2015-06-18 Tel Mal ata A Central City in the Biblical Negev presents the results of nine seasons of excavations two by the first expedition and seven by the second Tel Mal ata is an elliptical shaped mound located in the eastern sector of the Arad Beer sheba Valley and spreads across some 18 dunams Tel Mal ata is generally identified with biblical Moladah one of the cities of Judah although other identifications have been suggested The Arabic name of the site Tell el Mil Hill of the Salt is apparently indicative of its association with the production and distribution of salt from the Dead Sea in more recent times The many Bedouin graves on the upper terrace of the tell significantly hindered the planning of the excavations and consequently the excavations were concentrated mainly where no graves were discerned The two volume report consists of 22 chapters that take the reader through six strata of civilization ranging from the Middle Bronze Age to the early Byzantine period 2015, **Tel Aviv**, 2010 Sinai and its faith Harriet Martineau, 1848 **Zoological Record**, 2001 The Zoological Record, 2003 **Archaeozoology of the Near East IV** Marjan Mashkour, 2000 *Spirula*, 2004 **The Early Neolithic of the Eastern Fertile Crescent** Roger Matthews, Wendy Matthews, Kamal Rasheed Raheem, Amy Richardson, 2020-07-31 The Eastern Fertile Crescent region of western Iran and eastern Iraq hosted major developments in the transition from hunter forager to farmer herder lifestyles through the Early Neolithic period 10 000 7000 BC Within the scope of the Central Zagros Archaeological Project excavations have been conducted since 2012 at two Early Neolithic sites in the Kurdistan region of Iraq Bestansur and Shimshara Bestansur represents an early stage in the transition to sedentary farming life where the inhabitants pursued a mixed strategy of hunting foraging herding and cultivating maximising the new

opportunities afforded by the warmer wetter climate of the Early Holocene They also constructed substantial buildings of mudbrick including a major building with a minimum of 65 human individuals mainly infants buried under its floor in association with hundreds of beads These human remains provide new insights into mortuary practices demography diet and disease during the early stages of sedentarisation The material culture of Bestansur and Shimshara is rich in imported items such as obsidian carnelian and sea shells indicating the extent to which Early Neolithic communities were networked across the Eastern Fertile Crescent and beyond This volume includes final reports by a large scale interdisciplinary team on all aspects of the results from excavations at Bestansur and Shimshara through application of state of the art scientific techniques methods and analyses The net result is to re emphasise the enormous significance of the Eastern Fertile Crescent in one of the most important episodes in human history the Neolithic transition

Annotated List of Mediterranean Molluscs of Israel and Sinai Al Barash, Zippora Danin, 1992

The Cowry, **The Natufian Culture in the Levant** Ofer Bar-Yosef, François Raymond Valla, 1991 This large volume presents virtually all aspects of the Epipalaeolithic Natufian culture in a series of chapters that cover recent results of field work analyses of materials and sites and synthetic or interpretive overviews of various aspects of this important prehistoric culture essential reading and an important reference for archaeologists interested in the origins of agriculture
