Green Economic Structures in Modern Business and Society Jean-Vasile, Andrei, Andreea, Ion Raluca, Adrian, Turek Rahoveanu, 2015-03-31 Environmental and sustainable development concerns permeate numerous aspects of society including economic activity Many countries now run their economies based on such sustainable economic structures to

improve production models and overall living conditions Green Economic Structures in Modern Business and Society discusses the implementation of environmentally friendly models in contemporary economies as well as the development and evolution of such strategies in recent years Focusing on theoretical frameworks empirical research findings and key methodologies this book is a pivotal reference source for academicians advanced level students and professionals within the growing field of green economics **Management, Organizations, and Paradoxes** Malgorzata

Rozkwitalska-Welenc, Agnieszka Zakrzewska-Bielawska, Anna Maria Lis, 2025-06-27 Paradoxical tensions are persistently inevitable in today's complex organizational world Therefore managers should perceive them as a lens through which they see organizations and work through them Reconciling paradoxes requires understanding their nature and appraising them It also involves novelty and creativity in implemented tactics Thus to help managers navigate dualities and contradictions in their organizations Management Organizations and Paradoxes presents a comprehensive overview of implementing the paradox theory from a distinct organizational standpoint in the Central and Eastern European CEE context Beyond theoretical foundations it integrates recent research findings and practical insights providing rich knowledge for managing conflicting demands across diverse organizational dimensions In addition it unlocks new insights that can enrich academic discourse and guide practitioners in embracing a paradox mindset It develops less explored areas such as paradox regarding sustainability in clusters or digital and energy transition It also explores paradox in human resource management workplace learning diversity equity and inclusion policy It tests whether paradoxes have regional variation and provides insight from managerial practices in CEE The authors prove that organizations embracing paradox can expand the scope of their opportunities and thrive This monograph can serve as a scholarly guide for managers academics and Ph D students encouraging them to analyze and manage organizations from a paradox angle *Handbook of Research on Global Fashion*

Management and Merchandising Vecchi, Alessandra, 2016-05-03 Innovation and novel leadership strategies have aided the successful growth of the fashion industry around the globe However as the dynamics of the industry are constantly changing a deficit can emerge in the overall comprehension of industry strategies and practices The Handbook of Research on Global Fashion Management and Merchandising explores the various facets of effective management procedures within the fashion industry Featuring research on entrepreneurship operations management marketing business modeling and fashion technology this publication is an extensive reference source for practitioners academics researchers and students interested in the dynamics of the fashion industry *Market Orientation of Nonprofit Organizations: An Indian Perspective* Renjini

D., Mary Joseph T., 2020-01-03 This book is an insightful account on market orientation and how it enhances the performance of non profit organizations in India The book provides the readers with a succinct yet comprehensive view of scholarly research on the concepts of market orientation non profit marketing and organizational performance of non profit organizations and demonstrates why and how market orientation can be an effective organizational orientation for Indian non

profit organizations Despite the growing importance of non profit sector in socio economic well being of societies academic debate and research in developing economy context in this field is glaringly sparse This book attempts to addresses this gap in literature by analyzing market orientation and related concepts against the background of environmental conditions in a typical emerging economy context Therefore it will be especially beneficial to academics researchers students and practitioners in the fields of non profit management strategic marketing and social work desirous of advancing their knowledge in nonprofit market orientation in these settings

Export Assistance: The Way Back and Forward Anisur R. Faroque, Yoshi Takahashi, 2011-09-15 Born global BG firms have attracted many researchers throughout the last decade The emergence of this phenomenon initially posed a serious challenge to the validity and applicability of the traditional stage theory of internationalization however scholars have more recently been able to reconcile traditional and new theories into a single framework for studying the process of internationalization This volume applies both network theory and knowledge based theory to analyze export assistance in the context of internationalization of low tech BG firms in developing countries with an in depth study of the apparel industry in Bangladesh The findings that non governmental network partners provide more useful advice than government agencies is one that may resonate through other countries including developed economies Government s more useful role is confined to the financial support and incentives that are provided to such firms It is however the commitment to exporting that emerges as critical for performance more so than export strategy suggesting that enhanced export performance is to attract reassure and motivate entrepreneurs in ways that strengthen their commitment to international expansion

Strategy and Management of Industrial Brands Philippe Malaval, 2012-12-06 Strategy and Management of Industrial Brands is the first book devoted to business to business products and services Looking at numerous companies this book defines two brand objectives that are specific to the industrial and service sectors and which must be added to the traditional functions of branding the minimization of risk as perceived by buyers and the facilitation of the customer company s performance by the supplier brand Different ways of classifying brands are suggested providing a better understanding of brand strategies adopted by business to business companies as well as new concepts such as brand printability visibility and purchaseability Five major brand categories are dealt with in separate chapters entering goods brands intermediary equipment goods brands equipment goods brands business to business service brands and industrial distributor brands From a practical point of view the aim of the book is to address the main concerns of managers How to create and protect brands What type of visual identity is appropriate How to manage international brands An analysis of 1 500 industrial brands as well as 40 case studies are included in this book These brands are used in both the industrial automotive building aeronautics IT etc and consumer sectors clothing electronics food packaging telecommunications etc This book has been written for professors and students of universities and business schools as well as managers and people working in industry or the service sector

CUSTOMER EXPERIENCE MANAGEMENT - THE

EXPERIENTIAL JOURNEY James Seligman, 2018-09-19 Organizations that want to deliver required outcomes can do so by shifting gears from traditional command and control tactics to a more collaborative way of working with customer interactions ensuring relevant skills and capabilities are made available By investing in technology organizations that support the customer experience can provide accurate forecasting customer in sight and the skills and capabilities regardless of their location and time zone Processes that span the back office to the front office should provide real time insight into the interpersonal experience journeys and enable co creation of goods and services
