Cracker Town:

City of Light Cyrus Colter, 1998 City of Light joins the recent reissues of four of Cyrus Colter's books by TriQuarterly Books Northwestern University Press Colter concludes his grand literary project with a work that is foremost a novel of ideas Though City of Light may appear realistic in setting contemporary Paris with a well differentiated cast of believable moment each character nonetheless represents an idea or a position regarding the issue of race in American life The ideas or positions range from black nationalism drawing upon African models and an Afrocentric political position to complete assimilation presented here by the central character's love affair with a white woman Paul Kessey at age twenty nine is caught between two worlds Although his is a privileged world of successful blacks in Chicago and he is a graduate of Princeton handsome and well connected Kessey is uncertain how to identify himself in relation to the African diaspora partly because of his own light skin Throughout his Parisian sojourn he is both attracted and repelled by different ideas attitudes and concepts regarding the place of blacks in a white society he goes back and forth among the persons and the ideas they represent and thus among contradictory possibilities of life as a black man By intertwining in an intricate web racial class and political issues with the intense struggles of one man's heart Colter presents a vivid portrait of the personal effects of prejudice and its hypocrisies City of Light remains a daring push against the grain of American literary fashion both in its method and in treating interracial relationships Afrocentrism and the black middle class **City Infernal** Edward

Mark Whitaker, 2024-02-06 Mark Whitaker writes with the eye of a journalist and ear of a poet The Boston Globe to tell the story of the momentous year that redefined the civil rights movement as a new sense of Black identity expressed in the slogan Black Power challenged the nonviolent philosophy of Martin Luther King Jr and John Lewis In crisp prose The New York Times and novelistic detail Saying It Loud tells the story of how the Black Power phenomenon began to challenge the traditional civil rights movement in the turbulent year of 1966 Saying It Loud takes you inside the dramatic events in this seminal year from Stokely Carmichael's middle of the night ouster of moderate icon John Lewis as a chairman of the Student Nonviolent Coordinating Committee SNCC to Carmichael's impassioned cry of Black Power during a protest march in rural Mississippi From Julian Bond's humiliating and racist ouster from the Georgia state legislature because of his antiwar statements to Ronald Reagan's election as California governor riding a white backlash vote against Black Power and urban unrest From the founding of the Black Panther Party for Self Defense by Huey Newton and Bobby Seale in Oakland California to the origins of Kwanzaa the Black Arts Movement and the first Black studies programs From Reverend Martin Luther King Jr's ill fated campaign to take the civil rights movement north to Chicago to the wrenching ousting of the white members of SNCC Deeply researched and widely reported Saying It Loud offers brilliant portraits of the major characters in the yearlong drama and provides new details and insights from key players and journalists who covered the story It also makes a compelling case for why the lessons from 1966 still resonate in the era of Black Lives Matter and the fierce contemporary battles over voting rights identity politics and the teaching of Black History

The African American Roots of Modernism James Edward Smethurst, 2011 The period between 1880 and 1918 at the end of which Jim Crow was firmly established and the Great Migration of African Americans was well under way was not the nadir for black culture James Smethurst reveals but instead a time of profound response fr
