Country House Estates:

English Country Houses and Landed Estates Heather A. Clemenson, 1982-01-01 *English Country Houses and Landed Estates* Heather Clemenson, 2021-11-30 Originally published in 1982 and based on extensive research in estates archives this book outlines the changing fate of the 500 largest estates in England over the centuries It examines estates in their heyday and looks at their changing role as they declined in the twentieth century showing how some estates have survived and describing the differing uses to which country houses have been put

The British Country House Revival Ben Cowell, 2024 British country houses have experienced a renaissance since the early 1970s A new accord is needed today recognising the increasingly contested contribution of country houses to British cultural life Fifty years ago the future for country houses in Britain looked bleak The Victoria Albert Museum's exhibition *The Destruction of the Country House* which opened in October 1974 charted the loss of over a thousand country houses in the preceding century The makers of the exhibition warned that history could be about to repeat itself because of the threats besetting mansion properties principally from higher taxation Houses faced the prospect of having to be stripped of their collections and sold for use as offices hotels or hospitals with their parks and gardens turned into golf clubs Government might afford to save just a handful of the most significant of these places working in tandem with charities such as the National Trust The rest would be consigned to history This book traces the history of country houses in Britain from the *Destruction* exhibition to the present day The wave of country house losses anticipated in 1974 never actually happened Instead over the next five decades Britain's country houses experienced a renaissance Fiscal rules changed in the mid 1970s to make it easier for owners to hold on to their assets Economic improvements in the 1980s and 1990s allowed many houses and estates to develop profitable commercial businesses All of this was achieved only after dedicated campaigning from heritage organisations in support of the country house cause The book argues that a new accord is needed today to recognise and value the ongoing if increasingly contested contribution of country houses to British life and culture in the twenty first century

Country House Estates Margaret Willes, 1996 The servants quarters in many National Trust properties are particularly well preserved giving an insight into how a country house and estate was run in the 18th and 19th centuries This book looks at the roles of the land agent the stable lads and the gardener Wherever possible the author cites specific individuals to illustrate their roles such as John Caesar the agent at Erdigg

London's Country Houses Caroline Knight, 2009 First impressions of London and its environs suggest that country houses are unlikely to survive in large numbers but closer inspection reveals that many are still standing Some of these are of outstanding importance while many others are of interest Some are now surrounded by highrise housing some by industrial premises others have small areas of park or garden and a few still have extensive almost rural surroundings most are still intensively used The area covered by this book extends from London to the M25 which sliced through the country round London in the late 20th century This book is the first to address the history of these houses

concentrating on those that still exist while giving some indication of the major lost ones as well and includes plans of most houses listed and full color illustrations of each as well as information on owners architects landscape design building materials and styles

The Country Houses of Shropshire Gareth Williams, 2021 A gazetteer of the many fine Shropshire country houses which covers the architecture the owners family history and the social and economic circumstances that affected them Shropshire is the largest English inland county and has a wide variety of important landed country houses with owners from diverse social groups with links to trade in Liverpool Manchester and London as well as the local gentry This book is not simply about the houses they built but also about the people who lived in them and the context in which the houses are set The architecture is of course fully covered What is distinctive about the author's approach is that he treats the histories of the families their artistic tastes and their estates as an integral part of the character of each house Country houses can serve as a barometer of national tastes and of the social and economic times in which they were built The work includes reference to the important sporting associations fine and decorative art collections and to important guests and social networks Unlike most architectural guides this aims at a wider readership and will be an important resource for social historians genealogists and local historians The Country Houses of Shropshire considers the history of 347 identified houses of varying importance those with a significant or influential history are given a main entry of up to 6000 words whilst lesser houses are treated with an entry of less than 1000 words All houses have footnoted entries enabling the reader to refer directly to source and to undertake further research themselves rtant guests and social networks Unlike most architectural guides this aims at a wider readership and will be an important resource for social historians genealogists and local historians The Country Houses of Shropshire considers the history of 347 identified houses of varying importance those with a significant or influential history are given a main entry of up to 6000 words whilst lesser houses are treated with an entry of less than 1000 words All houses have footnoted entries enabling the reader to refer directly to source and to undertake further research themselves rtant guests and social networks Unlike most architectural guides this aims at a wider readership and will be an important resource for social historians genealogists and local historians The Country Houses of Shropshire considers the history of 347 identified houses of varying importance those with a significant or influential history are given a main entry of up to 6000 words whilst lesser houses are treated with an entry of less than 1000 words All houses have footnoted entries enabling the reader to refer directly to source and to undertake further research themselves f less than 1000 words All houses have
