Country Life A Social History Of Rural England:

Country Life Howard Newby,1987 **Village England** Trevor Wild,2004-02-26 The romantic imagery of village England and the prominence that this commands in English cultural identity is well known Yet just how accurate is this notion of the rural idyll in which the organic nature of village life was gradually undermined and destroyed by social and economic factors Trevor Wild s text explores the evolution of village England from the earliest times to the present Drawing upon both contemporary accounts and scholarship he provides an engaging and revealing account of the major transformations affecting the English village Of particular interest is the book s coverage of the more recent past with the whittling away of the great estates the appearance of such institutions as the village hall and the development of alternative systems of power such as the councils The Non-Representation of the Agricultural Labourers in 18th and 19th Century English Paintings Penelope McElwee,2016-02-08 The life of the poor rural worker appears to have been one of unmitigated toil within an unequal society a reality seldom endorsed in paintings of the eighteenth and early nineteenth centuries The contemporary viewer who constituted less than three per cent of the population wished to see visions of the idyllic golden landscapes of Merrie England peopled by happy contented workers or alternatively images of the Big House a feature and phenomenon now marching over the countryside fed by a new building frenzy This particular element would soon evolve into an all consuming preoccupation for the wealthy throughout the period Members of the upper echelons of society with their families all attired in fine silks and satins look out at their audience from ornately framed canvases as individuals Yet the rural poor the rabble at the gates the unseen workforce who toiled at the behest of the Master are virtually unknown They have left few records Enclosure came at a price The Poorhouse beckoned And still the agricultural labourer did virtually nothing for most of the eighteenth century to protest or rebel against the inequalities of his downtrodden existence Only the dreaded behemoth of the nineteenth century the threshing machine would stir him into action How would it end **The English Countryside Between the Wars** Paul Brassley,Jeremy Burchardt,Lynne Thompson,2006 Organised into sections on society culture politics and the economy and embracing subjects as diverse as women novelists and village crafts this book argues that almost everywhere we look in the countryside between the wars there were signs of new growth and dynamic development **The Cambridge Companion to British Literature of the 1930s** James Smith,2019-12-19 Explores 1930s authors genres and contexts giving fresh attention to well known authors and bringing new writers and approaches to the fore **The English Landscape in the Twentieth Century** Trevor Rowley,2006-01-01 Trevor Rowley s new study is a highly topical account of the changes that have taken place and that continue to take place on the country around us *The Countryside Ideal* Michael Bunce,2005-10-26 Draws together diverse images of landscape to explore the historical processes shaping our continuing attachment to the countryside seen in artistic expression attitudes to nature country life and the development of rural and urban land The Countryside Kathryn Hinds,2008 A social history of Elizabethan England

focusing on life on the farms and in the villages of rural England during the reign 1558 1603 of the famous monarch Provided by publisher **Societies, Cultures and Kinship 1580-1850** Charles Phythian-Adams, 2010-07-15 This work maps the cultural and physical divisions of medieval England It concentrates on the level of hierarchy immediately above individual local societies using detailed case studies of networks of linked communities in the East Midlands the South and East Anglia The societies studied are respectively on the periphery of a cultural province central to another such province and linked closely to a major urban centre The text is a synthesis of modern continental historical scholarship social anthropological and geographical techniques and English medieval history Included in the investigations are findings about the role of women in defining the sense of local community during the medieval period *Topothesia* Ameeth Vijay, 2023-05-02 SHORTLISTED 2024 MSA FIRST BOOK PRIZE *Topothesia* reads urban planning as a mode of speculative fiction one inextricably linked to histories of British colonialism and liberalism through a particular understanding of place The book focuses on town planning from the late nineteenth century to the present day showing how the contemporary geography of Britain sharply unequal and marked by racial division continues ideologies of place established in colonial contexts Specifically planning allows for the speculative construction of future places that are both utopian in their ability to resolve political disagreement and at the same tantalizingly realizable able to be produced in concrete reality This speculative imaginary I argue is only possible within the ideological framework of colonialism and the history of empire within which it developed *Topothesia* refers to a rhetorical device employing the vivid depiction of an often imaginary place This device Vijay shows helps us understand urban planning as a narrative genre one that even in its most mundane documents is compelled to produce elaborate fantasies of future places The book examines specific planning movements over time to understand the form and the stakes of their speculative worlds In building these worlds the book shows planners continually coopted literary critiques of the present and reveries of the future retaining literature's aesthetics while eschewing its politics At the same time Vijay shows writers and artists have dwelled within and against these colonial imaginaries to seek other means of representing place **The Visible Poor** Joel Blau, 1992 Taking an in depth look at the causes of homelessness in the United States Joel Blau disproves the convenient myths that most homeless are crazy drug addicts or lazy misfits who brought their suffering upon themselves He shows that the current crisis was an inevitable result of economic and political changes in recent decades systematically reviewing the explanations offered by researchers politicians and pundits from the deinstitutionalization of mental patients in the 1960s to the gentrification of urban neighborhoods in the 1970s to the evisceration of federal spending on social welfare in the 1980s Blau argues that current government policies at every level are mired in pointless headcounting and quick fix solutions that only push the homeless out of sight without touching the underlying causes He advocates social reforms ranging from a national standard for welfare benefits a higher minimum wage and establishment of a social sector for non profit affordable housing A powerful contribution to public debate on homelessness *The Visible Poor* must be read by concerned citizens as

well as by policy makers and advocates **Village England** Martin Trevor Wild,2003 List of Figures vii List of Plates vii Preface and Acknowledgements xi Introduction xv One Origins Organic Quality and Geographical Context 1 Two The First Transformation Village England and the Parliamentary Enclosures 22 Three Villages of Poverty and Rioting Rural England in the Bleak Age 45 Four High Farming and the Ordered Rural Society 70 Five Villages in Decay Rural England in the Agricultural Depression 87 Six Village England in the Inter War Years 114 Seven The Second Transformation Village England in the Post War Era 149 Epilogue 176 Notes 179 Bibliography 190 Index 197 *The Past in Contemporary Society: Then, Now* Peter Fowler,2002-09-11 Changes or innovations which threaten our heritage arouse great hostility in those who want to preserve the past in its entirety The heritage has become a commodity a device to sell everything from biscuits to country houses Fowler skilfully examines the present relationship between the past and the present analysing the manner in which we mould and interpret the past to fit our current needs He assesses the influence of our heritage in the last decade of the 20th century and with a wide range of examples judges the consequences of the increasing pressures of the heritage industry As well as a diagnosis of where the past is being misused he provides prescriptions for responsible development and a thoughtful interpretation of a common past As well as addressing the needs of the professional involved in the heritage industry he also considers the consumer all those who visit museums enjoy a historic site or an art exhibition or who simply dislike the hijacking of our common heritage by commercial or vested interests **Country Life, 1897-1997** Roy C. Strong,1996 Published to celebrate the centenary of Country Life magazine this book examines the changing role of the magazine over the years from the Arcadian era before the First World War to the countryside of today *English Country Life and Work* Ernest Pulbrook,2007-06 First published in 1922 English Country Life and Work presents an enduring record of a long vanished way of life Travelling from farm to moorland from coast to leafy lane Ernest C Pulbrook documents the people traditions and crafts of rural England painting a fascinating and moving portrait of a world which has now been all but swept away by modernity Evocative descriptions and photos capture both the cottages cornfields rivers and woodlands of the countryside and its inhabitants The squire the dairymaid the blacksmith and the gypsy all roam through these pages as well as more unusual characters such as the snake catcher and the supertramp Whether you are interested in social history or just want to take a nostalgic trip back in time English Country Life and Work offers a spellbinding view of the past brought vividly back to life *In Churchill's Shadow* David Cannadine,2003 With In Churchill s Shadow David Cannadine offers an intriguing look at ways in which perceptions of a glorious past have continued to haunt the British present often crushing efforts to shake them off The book centers on Churchill a titanic figure whose influence spanned the century Though he was the savior of modern Britain Churchill was a creature of the Victorian age Though he proclaimed he had not become Prime Minister to preside over the liquidation of the British Empire in effect he was doomed to do just that And though he has gone down in history for his defiant orations during the crisis of World War II Cannadine shows that for most of his career

Churchill's love of rhetoric was his own worst enemy Cannadine turns an equally insightful gaze on the institutions and individuals that embodied the image of Britain in this period Gilbert Sullivan Ian Fleming Noel Coward the National Trust and the Palace of Westminster itself the home and symbol of Britain's parliamentary government This superb volume offers a wry sympathetic yet penetrating look at how national identity evolved in the era of the waning of an empire

Colonizing Nature Beth Fowkes Tobin, 2011-06-07 With its control of sugar plantations in the Caribbean and tea cotton and indigo production in India Britain in the eighteenth and nineteenth centuries dominated the global economy of tropical agriculture In *Colonizing Nature* Beth Fowkes Tobin shows how dominion over the tropics as both a region and an idea became central to the way in which Britons imagined their role in the world Tobin examines georgic poetry landscape portraiture natural history writing and botanical prints produced by Britons in the Caribbean the South Pacific and India to uncover how each played a crucial role in developing the belief that the tropics were simultaneously paradisiacal and in need of British intervention and management Her study examines how slave garden portraits denied the horticultural expertise of the slaves how the East India Company hired such artists as William Hodges to paint and thereby Anglicize the landscape and gardens of British controlled India and how writers from Captain James Cook to Sir James E Smith depicted tropical lands and plants Just as mastery of tropical nature and especially its potential for agricultural productivity became key concepts in the formation of British imperial identity *Colonizing Nature* suggests that intellectual and visual mastery of the tropics through the creation of art and literature accompanied material appropriations of land labor and natural resources Tobin convincingly argues that the depictions of tropical plants gardens and landscapes that circulated in the British imagination provide a key to understanding the forces that shaped the British Empire

Thomas Arthur Leonard and the Co-operative Holidays Association Douglas George Hope, 2016-12-14 This book focuses on Thomas Arthur Leonard a Congregational minister in Colne Lancashire in the 1890s and the Co-operative Holidays Association which he founded in 1893 The Co-operative Holidays Association which was re-named the Countrywide Holidays Association in 1964 but was always affectionately known as the CHA operated as an independent provider of outdoor holidays until 2002 Leonard left the CHA in 1913 to establish the Holiday Fellowship an organisation with similar ideals to the CHA which continues to trade as HF Holidays Leonard was also instrumental in the establishment of the Youth Hostels Association in 1930 and the formation of the Ramblers Association in 1935 of which he was the first President He strongly supported the National Trust founded in 1895 and was a stalwart of the campaign for national parks during the 1930s He was a founder member of the Friends of the Lake District in 1934 and was connected with a number of other outdoor holiday organisations This book details the life and achievements of this extraordinary man who rebelled against the conventionality of the 1880s and 1890s and was appalled by the dull and grim lives of artisans and textile workers in the industrial north of England It also tells the story of the CHA which pioneered walking holidays in the outdoors for working people from its foundation in 1893 to its demise in 2004 The book describes

how the CHA faced the challenges of changing social economic and cultural conditions during the twentieth century such as increasing affluence and consumer choice changing cultural attitudes and expectations the popularisation of outdoor recreation and the proliferation of outdoor holiday providers It shows how the CHA drifted away from its original ideals in an attempt to remain viable in the face of increasing consumerism but nevertheless continued to provide holidays for thousands of people based on healthy recreation and quiet enjoyment and the principles of friendship and fellowship The Evolution of English Sport Neil Wigglesworth,2013-01-11 This work uses original material from clubs and sporting organizations to illuminate the evolution of sporting activity nation wide It relates these documents to themes such as commercialism and club fortunes It concludes by discussing the outlook for English sport *The Car and British Society* Sean O'Connell,1998 The car was first introduced into British society over one hundred years ago Sean O Connell s study of the social impact of the car offers a radical new way of looking at the history of motoring
