## Country Topics France:

**France** Robert Prosser, 2005 France today is one of the most modern countries in the world It has taken a central role in fostering the economic integration of Europe along with the development of the Euro currency Intelligent Data Mining Da Ruan, Guoqing Chen, Etienne E. Kerre, Geert Wets, 2005-08-24 Intelligent Data Mining Techniques and Applications is an organized edited collection of contributed chapters covering basic knowledge for intelligent systems and data mining applications in economic and management industrial engineering and other related industrial applications The main objective of this book is to gather a number of peer reviewed high quality contributions in the relevant topic areas The focus is especially on those chapters that provide theoretical analytical solutions to the problems of real interest in intelligent techniques possibly combined with other traditional tools for data mining and the corresponding applications to engineers and managers of different industrial sectors Academic and applied researchers and research students working on data mining can also directly benefit from this book **Web Semantics & Ontology** Taniar, David, Rahayu, Johanna Wenny, 2006-02-28 This book provides an overview of current research and development activities in the area of web semantics and ontology giving an in depth description of different issues including modeling using ontologies in enterprise systems querying and knowledge discovering of ontologies Provided by publisher **Learning French oral skills using role play as a learning strategy: The kenyan experience** Odhiambo Oduke, 2014-02-01 Role play and foreign language learning helps the learners to develop speaking skills within defined social contexts Languages are always spoken within certain defined spacio social context The learning of French as a foreign language in Kenya takes cognizance that oral skills are important to facilitate competent communication in any given language The Kenyan reality of learning oral French skills within a learning set up in Kenyan secondary schools is well presented in this text The salient challenges are also highlighted since language learning is normally not a smooth sail for the learner and for the teacher who plays a pivotal facilitation role in guiding the learner to imbibe the vital communicative skills in the language that is being taught On the whole role play is not just a language learning activity it is an activity that provides impetus which propels human development in its entire gamut of activities A conspicuous hint on the importance of role play in our daily lives is also presented in this text with some examples well presented and cited in this write up Stephen Krashen's Monitor Model on language acquisition and the Grounded Theory which helps to interpret social research findings have been used to analyze the data which was derived from the inquiry done in the Kenyan secondary schools The classical importance of role play and simulation in the learning process has been well underscored in this particular text **Monaco Country Study Guide Volume 1 Strategic Information and Developments** IBP USA, **Visualizing the Semantic Web** Vladimir Geroimenko, Chaomei Chen, 2013-06-29 Vladimir Geroimenko and Chaomei Chen The Semantic Web is a vision that has sparked a wide ranging enthusiasm for a new generation of the Web The Semantic Web is happening The central idea of this vision is to make the

Web more understandable to computer programs so that people can make more use of this gigantic asset The use of metadata data about data can clearly indicate the meaning of data on the Web so as to provide computers with enough information to handle such data On the future Web many additional layers will be required if we want computer programs to handle the semantics the meaning of data properly without human intervention Such layers should deal with the hierarchical relationships between meanings their similarities and differences logical rules for making new inferences from the existing data and metadata etc Dozens of new technologies have emerged recently to implement these ideas XML eXtensible Markup Language forms the foundation of the future Web RDF Resource Description Framework Topic Maps and many other technologies help to erect a multi storey building of the Semantic Web layer by layer by adding new features and new types of metadata According to Tim Berners Lee the inventor of the current Web and the Semantic Web it may take up to ten years to complete the building The new Web will be much more complex than the current one and will contain enormous amounts of metadata as well as data
