James S. Olson, Randy W. Roberts

Coup Detat The Assassination Of A President What If He Lived:

Coup D'etat James J. Shanni, 2005-10 The authority of moral law is universal and obligates all Morality and law are the fundamental condition for social order States and nations are built upon law without which they perish John Paul II While each presidential assassination was a tragedy the last was most egregious involving conspiracy among politicians military corporate CEOs and organized crime Sixty six percent of Americans did not believe the official government report that one man acted alone in the assassination Substantial credible evidence points to a cover up by both elected and appointed officials Coup D etat explores the premise of Mafia involvement and answers the question what if he lived What if he exposed them In all of history there has never been a nation quite like the United States America s founders had a specific purpose in mind when they crafted the words that would guide the government of the new republic They created a form of government that has become the envy of the world In the United States the people elect their leaders who govern within constitutional guidelines If the people don t like the way a leader governs they can remove him peacefully through recall or at the next election In congressional districts all over the United States a handful of people continue to elect politicians who probably would not make it to office if more Americans voted In the election of 2000 the country was nearly torn apart when the election came down to a 561 vote difference Having risked their lives and fortune standing up against repressive England America s forefathers would probably not be pleased to see what their dream has become Morality and law are the fundamental conditions for social order Have we become so polarized that murdering a leader we disagree with is acceptable

American Memory Hole Donald Jeffries, 2024-08-27 Donald Jeffries takes another deep dive down the historical rabbit holes with American Memory Hole How the Court Historians Promote Disinformation You will discover how cancel culture was born during the administration of Franklin D Roosevelt And how our interventionist foreign policy was established during the Woodrow Wilson presidency Jeffries documents the tragically common atrocities committed by US troops beginning with the Mexican American War which became official policy under the total war and scorched earth strategy of Abraham Lincoln s bloodthirsty generals He recounts the shocking abuses of our military forces in countries like Mexico Haiti the Philippines and elsewhere Jeffries builds on his groundbreaking investigation into the murder of John F Kennedy Jr uncovering even more evidence of conspiracy and cover up He talked to people no researcher has talked to before in a powerful new section on the assassination of President John F Kennedy Jeffries explores the Kennedy family in general and finds that the establishment especially the Left continues to treat them unfairly The events of September 11 2001 and the Oklahoma City Bombing are investigated in depth as never before There is stunning new information on much maligned Senator Joseph McCarthy who emerges here not as some irredeemable monster but as a genuine American patriot who has been demeaned in death even more than he was in life The reader will never look at the supposed heroes and villains of American history the same way again after reading this book History is written by the victors *A Cruel and Shocking Act* Philip Shenon, 2013-11-05 The questions have haunted our nation for half a century Was the President killed by a single gunman Was Lee Harvey Oswald part of a conspiracy Did the Warren Commission discover the whole truth of what happened on November 22 1963 Philip Shenon a veteran investigative journalist who spent most of his career at The New York Times finally provides many of the answers Though A CRUEL AND SHOCKING ACT began as Shenon s attempt to write the first insider s history of the Warren Commission it quickly became something much larger and more important when he discovered startling information that was withheld from the Warren Commission by the CIA FBI and others in power in

Washington Shenon shows how the commission's ten month investigation was doomed to fail because the man leading it Chief Justice Earl Warren was more committed to protecting the Kennedy family than getting to the full truth about what happened on that tragic day A taut page turning narrative Shenon's book features some of the most compelling figures of the twentieth century Bobby Kennedy Jackie Kennedy Lyndon Johnson J Edgar Hoover Chief Justice Warren CIA spymasters Allen Dulles and Richard Helms as well as the CIA's treacherous molehunter James Jesus Angleton Based on hundreds of interviews and unprecedented access to the surviving commission staffers and many other key players Philip Shenon's authoritative scrupulously researched book will forever change the way we think about the Kennedy assassination and about the deeply flawed investigation that followed
