Kalu, George Klay Kieh Jr., 2021-11-04 Democratization and Military Coups in Africa Post 1990 Political Conflicts studies the seemingly endless cycle of coups that have occurred in Africa since the Free Officers Coup of 1952 in Egypt Unfortunately after more than three decades of the third wave of democratization that began in the 1990 s military coups remain a firm figure on the African political landscape Although the Organization of African Unity OAU and its successor the African Union AU have developed and implemented anti coup norms they have not deterred coup makers Contributors to this volume analyze the major fault lines in the body politics of African states that have created the conditions for coup making and offer suggestions for ending the cycle of coups Using countries such as Burkina Faso Cote d Ivoire Egypt Mauritania Sierra Leone and Sudan as case studies each chapter studies the causes effects and evolution of military coups in Africa in order to show that eliminating military coups will require identifying and addressing the root causes of the coup in each affected state *Political Domination in Africa* Patrick Chabal, 1986-10-09 This collection of essays brings together historians and political scientists

from Britain France and the United States who from widely differing perspectives and traditions have been involved in the process of rethinking African politics They present here the outline of a new approach grounded in universal political theory rather than on theories of Third World political development This seeks to integrate the history of Africa from pre to post colonial with concepts of political theory as they have been applied historically to the analysis of Europe and America The book addresses a wide audience students of African history and politics of Third World development and of political theory

Revolution and Democracy in Ghana Jeffrey Haynes,2022-12-30 This book analyses Flight Lieutenant Jerry John Rawlings plans for radical democratisation in Ghana involving ordinary people directly in the country s political and economic decision making processes Rawlings came to power in Ghana in late 1981 determined to restructure the characteristics of Ghana s political and economic systems Despite Rawlings aim to bring ordinary Ghanaians into the decision

making process his regime was still heavily dependent on the support of the military and attempts at direct democracy ultimately ended in failure Outside analysts have viewed his plans as one of Africa s most draconian economic reform programmes The book traces this turbulent period of Ghana s history showing Rawlings development from a fiery revolutionary to a democracy supporting politician adept at winning elections It investigates how despite frequent coup attempts and the loss of most of its original civilian support base the regime was able to remain in power overseeing a halt to economic decline and a return to growth Building on over thirty years of research including contemporaneous interviews conducted by the author during Ghana s revolutionary period this book will be of interest to researchers of African history and politics Selected Library Acquisitions University of Illinois at Urbana-Champaign,1981 **The African Communist** ,1988 **National Union Catalog** ,1982 Includes entries for maps and atlases Soldiers in Revolt Maggie Dwyer,2018-02-01 Soldiers in Revolt examines the understudied phenomenon of military mutinies in Africa Through interviews with former mutineers in Sierra Leone Burkina Faso and The Gambia the book provides a unique and intimate perspective on those who take the risky decision to revolt This view from the lower ranks is key to comprehending the internal struggles that can threaten a military s ability to function effectively Maggie Dwyer s detailed accounts of specific revolts are complemented by an original dataset of West African mutinies covering more than fifty years allowing for the identification of trends Her book shows the complex ways mutineers often formulate and interpret their grievances against a backdrop of domestic and global politics Just as mutineers have been influenced by the political landscape so too have they shaped it Mutinies have challenged political and military leaders spurred social unrest led to civilian casualties threatened peacekeeping efforts and in extreme cases resulted in international interventions Soldiers in Revolt offers a better understanding of West African mutinies and mutinies in general valuable not only for military studies but for anyone interested in the complex dynamics of African states **Africa's Quiet Revolution Observed from Nigeri** Dominic Okereke,2012-07 This book prescribes rapid revolution in principal sectors of this African economy through radical paradigm changes And the resultant comprehensive transformation will guarantee significantly higher productivities and double digit annual economic growth Included in this paradigm shift is the joint reindustrialization of the African economy and the US ailing industries via a new Strategic trans Atlantic Alliance modeled on the balanced Euro US cooperation after World War II But it first takes readers through a thorough evaluation of the familiar subject corruption which haunts Nigeria the principal economy in the continent The fundamental difference with other texts on the subject is that this book identifies the most debilitating variant of that corruption That variant causes massive capital flight from a post colonial soft economy that is neither capitalist nor socialist The Nigerian corruption thrives on the native Philosophy of Commission hardened by intractable tribalism that coagulated and ossified with the imports substitution pattern preferred by European firms since independence The book then proceeds to earn its priced revolutionary credential by inventing very novel scientific methods

that will skillfully turn this insidious source of structural rigidity and arrested development into a force for economic growth. A new apex political leadership culture is recommended and to be fortified with a unifying lingua franca. An inter ethnic marriage melting pot is advised for intensified nigerianization of Nigerian youths at birth. Spiritual diversity is envisaged to significantly diminish religious intolerance and sectarian violence. Modern bureaucracy and inward looking tourism are reformulated to reduce effervescent insecurity and minimize capital flight. The resultant economic stability will enlarge domestic foreign investment inflow and will reverse the current dis industrialization and massive job loss and the conditions of under full employment. Technological Functionalism, Economic pan Africanism and the Alternative Policy of Inputs Substitution are among the several brand new blueprints that this book offers for the extensive transformation of Africa's economy into the robust emerging economy that will rival its counterparts in India and China in the immediate future.
