## **Course Organizers In General Practice:**

*Course Organizers in General Practice* A.H.E. Williams, 1986      **Educating the Future GP** Patrick McEvoy, 1998 This excellent book is long overdue It will be of benefit to anyone with an interest in general practitioner education and anyone considering applying for the post of course organiser should read the opening chapters to prepare them for interview This is a thoughtful book written in a clear and witty style and it deserves a wide readership It provides an educational framework on which general practitioner teaching can be based British Journal of General Practice This book is excellent because it deals not only with the nuts and bolts of being a course organizer but also addresses the difficulties frustrations and emotions involved in a witty and entertaining manner Anyone with an interest in postgraduate medical education at any level would benefit from reading this book Update Paddy McEvoy's book has rapidly and deservedly established itself as invaluable to anyone responsible for any form of postgraduate medical education Education for General Practice As well as updating and revising the book throughout Paddy McEvoy has managed to include sections about the wider context of training without making the book overly long or losing any of the delightful flavour of the first edition I have no doubt that you will find it both useful and enjoyable      **General Practice Under the National Health Service 1948-1997** Irvine Loudon, John Horder, Charles Webster, 1998 This is a history of general practice under the National Health Service covering the whole of the first 50 years from 1948 to the present      **A History of the Royal College of General Practitioners** John Fry, R.J.F.H. Pinsent, 2012-12-06 John P Horder President 1980-82 The first 30 years of the College have been an exciting experience for those most closely involved Some have already passed on but this account has been written soon enough for many of the actors to be historians Future members of the College will be grateful to them for what they have written as well as for what they did as a remarkably determined and harmonious team Students of twentieth century medicine in this country will also be grateful for a first hand account of the development of an institution which has been closely associated with and partly responsible for important changes in medical care and education Those who read these pages may wonder how the builders of this young College could have found time to do much general practice They did The three editors of this history which covers 25 years and the general practitioner members of the Steering Committee all ran large practices in which they worked very hard throughout that time Most of their work for the College was done during off duty hours weekends and holidays The College could not have developed as it did had they not been personally concerned with the practical problems and needs of clinical medicine This is also true of many of the contributors It is impossible to mention everyone who deserves credit The editors hope that they may be forgiven for any serious omissions      **Oxford Handbook of General Practice** Chantal Simon, Hazel Everitt, Francoise van Dorp, Nazia Hussain, Emma Nash, Danielle Peet, 2020 The well loved Oxford Handbook of General Practice is a lifeline for busy GPs medical students and healthcare professionals With hands on advice from experienced practitioners this essential handbook covers the entire breadth and depth of general practice in small

sections that can be located read and digested in seconds Now in its fifth edition the Handbook has been fully revised to reflect the major new developments shaping general practice today Fully updated with the latest guidelines and protocols this edition offers even more full colour diagrams and tables and colour coded chapters on general practice green clinical topics purple and emergencies red Covering the whole of general practice from practice management to hands on advice dealing with acute medical emergencies this comprehensive rapid reference text will ensure that everything you need to know is only a fingertip away

**Managing Family Planning in General Practice** Sam Rowlands, Shelley Mehigan, Catriona Sutherland, Maggie Pettifer, 1997 Value of this book lies in its clear recommendations on how to provide family planning services efficiently and effectively

**General Practitioner Education** Martin Lawrence, Peter Pritchard, 2012-12-06 A workshop to look at strategies methods of implementation and evaluation of vocational training and Continuing Medical Education in General Practice was held in June 1990 in London This text represents papers written by contributors to the workshop and pre circulated papers which describe health systems and educational realities in six countries Denmark Finland Iceland Norway Sweden and the UK The first part of the books compares the structure care systems and General Practice education in the UK and Nordic countries The second part reviews teaching under five headings each introduced by a brief commentary highlighting the main issues and indicating the consensus view Of particular note is the last chapter which presents demography and health service organization arrangements for General Practice and primary health care vocational specialists training of GPs and continuing medical education for each of the six countries

**Succeeding as a general practitioner** Ian Bogle, 2002-06-01 For the aspiring or practising GP the variety of career opportunities has never been greater Although general practice is extremely demanding and requires a wide range of expertise adopting the right approach to it can make it highly rewarding Succeeding as a GP will guide you through the complexities of training assessment and self regulation advise you on coping with the vagaries of partnerships management and finance and help you to meet the challenges of medicine in general practice today Society is changing patients expectations are changing and so too are the skills required of a GP This comprehensive book contains a wealth of information for all those who have embarked on a career in general practice or who are contemplating doing so

*The Beecham Manual for Family Practice* John Fry, 2012-12-06 This third edition of the Beecham Manual has its origins in a manual produced by Selwyn Carson for his general practice in Christchurch New Zealand He produced loose leaf sets of instructions for his practice team and colleagues Beecham Research Laboratories of New Zealand did a great service for the medical profession by publishing and distributing Dr Carson s manual there The British version of the Beecham Manual had different objectives The vocational training programme needed basic resources and the British Manual was created as an easy to read reference book on common problems and methods in general practice The first and second editions met with enthusiastic approval from principals trainers and trainees This third edition follows the same general format but has been

completely revised and updated and includes many new additions The five sections are o planned care of definable population and other groups o principles of teaching and learning o emergencies and their management o psychiatry o clinical care of common conditions We have kept to simple clear and brief presentations of our conjoint views based on our experiences in our own practices We dedicate this third edition to our colleagues involved in caring learning and teaching They may not agree with us completely but we hope that we will make them consider our suggestions and use them for thought debate and discussion We hope also that it will be used as a work book for the whole practice team

*General Practice Under the NHS* James Sherifi, 2022-08-17 This accessible text covers the entirety of General Practice and the General Practitioner from student to retirement and from the beginning of the NHS to the present day It provides a comprehensive historical overview representing both academic and front line perspectives describing what has changed beneficial or otherwise as the specialty has evolved The details within each chapter represent the views of the average working British GP and illustrate how the changes over the decades have impacted patient care and its delivery The perspective often differs from that which prevails in many academic tomes on the subject The topics covered from the primary care team changes to out of hours provision the impact of IT training and regulation to the future of General Practice will be essential reading for all doctors considering a career in the specialty and will also be of interest to GP vocational training scheme course organisers and trainers overseas medical educators and healthcare policy makers social and medical historians and the general public

**The General Practice Jigsaw** Steve Field, Bob Strachan, Gai Evans, 2001 This resource provides comprehensive information on the future of education training and professional development in general practice and primary care

Blanken Working Together A. J. Blanken, R. H. Oudkerk, 1990-01-01
