Courting the Diamond Sow Wickliffe W. Walker, 2002 The harrowing account of the pioneering descent of Tibet's Tsangpo River one of modern explorations greatest challenges which ended in tragedy with the death of Olympic Paddler Doug Gordon A COMPELLING AND DRAMATIC EXPEDITION ACCOUNT set in one of the worlds most beautiful and remote regions The Tsangpo is one of the last great uncharted rivers in the world It's the Everest of whitewater except unlike Everest it's never been done Arlene Burns the Washington Post ROMANCE OF THE WORLD'S FORBIDDEN AND SECRET PLACES Mysterious and sacred Tibet has fascinated explorers for more than a century The stretch of the Tsangpo attempted by Walker and his team is the source of the legend of Shangri-la and the model for James Hilton's novel Lost Horizons CONTROVERSY OVER THE DISCOVERY OF TSANGPO'S HIDDEN FALLS In 1924 British explorer Frank Kingdon Ward observed what he believed to be the highest waterfall on the Tsangpo a waterfall to rival Niagra His observations led to a race to document these falls which has attracted generations of explorers FILM TIE IN The Walker expedition is the subject of a National Geographic Explorer special that will re-air at the time of publication In 1926 botanist F. Kingdon Ward described one of modern exploration's greatest challenges Tracking the course of the Tsangpo River of Tibet In a mysterious region called Pemako the Land of Flowers the mighty Tsangpo loops around the eastern anchor of the Himalayan Range cutting the deepest canyon on earth and emerging more than nine thousand feet lower on the plains of Assam India renamed the Brahmaputra He and others added pieces to the puzzle he called the riddle of the Tsangpo gorges But no one has yet followed the river throughout its course For almost four decades on several continents a small group of American companions UWick Walker Tom and Jamie McEwan and Doug Gordon were privileged to participate in the emergence of a new and thrilling sport whitewater racing Moving from World Cup and Olympic levels to expeditions around the globe Wick Walker and his companions were drawn to an area of Tibet where the highest and deepest of the Earth's recesses come together Perhaps no place in the world is more dramatic or less known and explored than the magnificent series of gorges that lie in far southeastern Tibet In late September 1998 after years of planning including a month long reconnaissance into the gorge in 1997 and garnering support from the National Geographic Society Malden Mills Industries and a host of other sponsors the expedition finally launched into the treacherous gorges for a first descent Four whitewater paddlers perhaps the best possible team in the world would descend the Tsangpo supported and resupplied at intervals by a team of four trekkers accompanied by two sherpas local guides and porters and a videographer from National Geographic The descent which began with difficulties A huge river swollen by a season of fifty year floods ended in tragedy with the death of renowned chemist and Olympian Doug Gordon who perished on October 16th while running a small

put powerful waterfall Although his teammates searched for his body for four days his remains were never found vanishing into the treacherous waters The expedition was immediately abandoned Courting the Diamond Sow is a compelling expedition account shaped by the first hand diary accounts of the kayackers as they passed through the gorges the history of this mysterious corner of the world some refer to as Shangri La and the attempts to explore it and a cultural profile of this remote Tibetan region

Storying Multipolar Climes of the Himalaya, Andes and Arctic Dan Smyer Yü, Jelle J.P. Wouters, 2023-03-23 This book initiates multipolar climate/clime studies of the world's altitudinal and latitudinal highlands with terrestrial experiential and affective approaches Framed in the environmental humanities it is an interdisciplinary comparative study of the mutually embodied relations of climate/nature/culture and place in the Himalaya Andes and Arctic Innovation driven the book offers multipolar/clime case studies through the contributors' historical findings ethnographic documentations and diverse conceptualizations and applications of/clime an overlooked but returning notion of place embodied with climate history pattern and changes The multipolar/clime case studies in the book are geared toward deeper/lively explorations and demonstrations of the translatability interchangeability and complementarity between the notions of/clime and climate Multipolar or multipolarity in this book connotes not only the two polar regions and the tectonically shaped highlands of the earth but also diversely debated perspectives of climate studies in the broadest sense Contributors across the twelve chapters come from diverse fields of social and natural sciences and humanities and geographically specialize respectively in the Himalayan Andean and Arctic regions The first comparative study of climate change in altitudinal and latitudinal highlands this will be an important read for students academics and researchers in environmental humanities anthropology climate science indigenous studies and ecology Chapters 8 and 9 of this book are freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com/books/e/10.4324/9781003347026> under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license

Torrents As Yet Unknown Wickliffe W. Walker, 2023-09-12 A dramatic narrative tour of 10 of the world's most incredible whitewater adventures spanning 5 continents and 40 years guided by a legendary whitewater trailblazer This fascinating history of daring whitewater explorers stands alongside classic works on mountaineering outdoor survival and extreme sports Perfect for fans of Jon Krakauer's *Into Thin Air* and Candice Millard's *River of the Gods* In 10 thrilling real life adventure stories pioneering whitewater explorer Wick Walker examines what lured a generation of incredibly daring pioneers into some of Earth's most wondrous yet forbidding river canyons below Victoria Falls on the Zambezi the Great Bend of the Tsangpo in Tibet Tiger Leaping Gorge on the Yangtze the flanks of Mount Everest and more Loaded with great moments and personal stories Wick details what these adventurers found there and within themselves The extraordinary characters driven by different motives and visions but united by their compulsion to seek the unknown and the pulse of free flowing water are as remarkable as the daunting geography and conditions they confront Whitewater sport today stands side by side with mountaineering in participation and

public attention yet it has lagged in generating its own literature Torrents As Yet Unknown will help fill that gap for readers interested in human drama played out against great natural challenges Mountaineering history is deep and its literature rich but whitewater adventurers approach and experience the same forbidding terrain from a different vantage between the steep walls of their canyons and atop powerful torrents of cascading water [Canoe & Kayak](#),2003 *The New York Times Book Reviews* 2000 New York Times Staff,2001 This anthology examines Love's Labours Lost from a variety of perspectives and through a wide range of materials Selections discuss the play in terms of historical context dating and sources character analysis comic elements and verbal conceits evidence of authorship performance analysis and feminist interpretations Alongside theater reviews production photographs and critical commentary the volume also includes essays written by practicing theater artists who have worked on the play An index by name literary work and concept rounds out this valuable resource [The Heart of the World](#) Ian Baker,2020-08-13 The legend of Shangri La emerged from the Tibetan Buddhist belief in beyul or hidden lands Tibetan prophecies proclaim that the greatest of these mythical sanctuaries lies at the eastern edge of the Himalayas veiled by a colossal waterfall at the heart of the forbidding Tsangpo gorge After years of research and investigation Buddhist scholar and world class climber Ian Baker and his team made worldwide news by reaching the bottom of the Tsangpo gorge and finding a magnificent 108 foot high waterfall the legendary grail of both Western explorers and Tibetan seekers The Heart of the World recounts one of the most captivating stories of exploration and discovery in recent memory an extraordinary journey into one of the wildest and most inaccessible places on earth a meditation on our place in nature and a pilgrimage to the heart of Tibetan Buddhism **Going Places** Robert Burgin,2013-01-08 Successfully navigate the rich world of travel narratives and identify fiction and nonfiction read alike with this detailed and expertly constructed guide Just as savvy travelers make use of guidebooks to help navigate the hundreds of countries around the globe smart librarians need a guidebook that makes sense of the world of travel narratives Going Places A Reader's Guide to Travel Narratives meets that demand helping librarians assist patrons in finding the nonfiction books that most interest them It will also serve to help users better understand the genre and their own reading interests The book examines the subgenres of the travel narrative genre in its seven chapters categorizing and describing approximately 600 titles according to genres and broad reading interests and identifying hundreds of other fiction and nonfiction titles as read alike and related reads by shared key topics The author has also identified award winning titles and spotlighted further resources on travel lit making this work an ideal guide for readers advisors as well a book general readers will enjoy browsing [Outdoor Activities, Negligence and the Law](#) Julian Fulbrook,2017-03-02 Recent years have witnessed several tragedies during school and youth expeditions This in turn has led to legislation and the tight regulation of Outdoor Activity Centres with successive governments issuing guidelines for teachers and others supervising such activities Inevitably there will always be risk in relation to adventurous pursuits in the outdoors but the law in this area seeks a balance between the educational benefits

gained and the need to safeguard against potential hazards Mythologies have arisen including the suggestion that a blame culture is so overwhelming that no youth worker or teacher can sensibly engage anymore in such activities This succinct guide to the legal position refers to a wide range of outdoor activities and recent legal cases It demolishes some of the myths pointing out common pitfalls noted in the research and in the litigation together with an outline of robust safety features to combat potential hazards
