Covenant And Contract Politics Ethics And Religion:

Covenant and Contract Adela Cortina Orts,2003 Modern republicanism nevertheless turns liberal and opts for the contract between independent beings as fiat of the political world But the Contract is not self sufficient since anyone who looks back to their roots will come to the narration of reciprocal recognition The Covenant falls similarly short as those who forget the parable of independence may well have a disregard for justice In a dialogue with the most relevant philosophical currents of the age the book proposes an articulation of politics ethics and religion appropriate for our own time starting from the contract between independent beings and from the reciprocal recognition of those who know themselves to be human Jacket [Compromise](#) Alin Fumurescu,2013-02-11 This book offers a conceptual history of compromise demonstrating the connection between understandings of compromise and understandings of political representation

A New Protestant Labor Ethic at Work Ken Estey, 2011-01-01
 Estey proposes a labor ethic that emphasizes the protest in Protestantism. The purpose of this ethic is to interrupt the drudgery of the Protestant work ethic which Estey asserts is the dominant cultural ideal in the U.S. Protestantism must not be about capitulation to capitalism and a Protestant ethic that works must be one that questions and confronts authority in order to undo the newest and oldest forms of dehumanization as they pertain to workers' labor issues and conditions in the workplace

Covenant and World Religions Alon Goshen-Gottstein, 2023-06-06
 Finalist for The Rabbi Sacks Book Prize 2023. A new paradigm for relations between religions: one of acceptance and collaboration requires not only a willingness to move beyond a tradition of hostility and competition but also significant theological rethinking. Within Jewish Orthodoxy, there have been very few voices that have advanced and justified a vision of other faiths. In this light, to this day, the reigning paradigm is one of practical collaboration while avoiding theologically based engagement or reflection. Two of the most important Orthodox Jewish voices advocating change have been those of Irving Yitz Greenberg and Jonathan Sacks. This book presents the theological, moral, and social views of these two leading rabbis. It focuses on the significance of covenant for both and how they adapt this concept to enable the development of a Jewish view of other religions. In considering how they may have influenced each other, it also studies the limitations and internal contradictions that characterize their work as they attempt to point the way forward in a spirit of dialogue to continuing theological reflection on Judaism's approach to world religions

Christian Ethics Introduced Hans O. Tiesel, 2024-03-11
 Christian Ethics Introduced asks why humans count as ends in themselves. The biblical answer was that humans have standing, inherent worth as creatures in the image of God. This traditional answer yielded to seventeenth and eighteenth-century enlightenment secularism. To these secularists, human reason promised to be a surer and more peaceable foundation for a just culture than religion. Human rationality, the light of human reason, would enlighten and improve the human condition. Two world wars and more realistic trends in new social sciences created not just awareness of human irrationality but fostered skepticism of sound foundations for morality and justice. It seemed that both traditional religion and enlightened reason fell short of what had been hoped. And the cause of failure may not lie in traditional religion.

or in human irrationality Rather the problem might lie in human conduct Specifically it may lie in the human inclination to favor self over others of the me outranking the we Christian responses to the human failure to live a moral and just life recognize the persistence of immoral conduct acknowledge it in regard to oneself ask for forgiveness and make amends and peace with God and with those wronged Covenant and Constitutionalism Daniel Elazar,2018-02-06 This volume traces the trends and the developing relationships of constitutionalism and covenant that ultimately led to the transformation of the latter into the former Elazar explores the paths that emerged out of the constitutionalized covenantal tradition in Europe such as federalism communitarianism and the cooperative movement **The Religious Monitor, and Evangelical Repository**,1834 Includes the minutes of the annual meeting of the Associate Synod of North America Religion and the Workplace Douglas A. Hicks,2003-10-30 Table of contents Ethics, Liberalism and Realism in International Relations Mark D. Gismondi,2007-09-17 This book explores the complex issue of international ethics in the two dominant schools of thought in international relations Liberalism and Realism Both theories suffer from an inability to integrate the ethical and pragmatic dimensions of foreign policy Liberal policy makers often suffer from moral blindness and a tendency toward coercion in the international arena whilst realists tend to be epistemic sceptics incorporating Nietzsche s thought directly or indirectly into their theories Mark Gismondi seeks to resolve the issues in these two approaches by adopting a covenant based approach as described by Daniel Elazar s work on the covenant tradition in politics to international relations theory The covenant approach has three essential principles policy makers must have a sense of realism about the existence of evil and its political consequences power must be shared and limited liberty requires a basis in shared values Ethics Realism and Liberalism in International Relations will be of interest to students and researchers of politics philosophy ethics and international relations Cross-cultural Perspectives in Medical Ethics Robert M. Veatch,2000 Cross Cultural Perspectives in Medical Ethics Second Edition is an anthology of the latest and best readings on the medical ethics of as many of the major religious philosophical and medical traditions that are available today **Politics Reformed** Glenn A. Moots,2010-06-09 Many studies have considered the Bible s relationship to politics but almost all have ignored the heart of its narrative and theology the covenant In this book Glenn Moots explores the political meaning of covenants past and present by focusing on the theory and application of covenantal politics from the sixteenth through the eighteenth centuries Moots demands that we revisit political theology because it served as the most important school of politics in early modern Europe and America He describes the strengths of the covenant tradition while also presenting its limitations and dangers Contemporary political scientists such as Eric Voegelin Daniel Elazar and David Novak are called on to provide insight into both the covenant s history and its relevance today Moots s work chronicles and critiques the covenant tradition while warning against both political ideology and religious enthusiasm It provides an inclusive and objective outline of covenantal politics by considering the variations of Reformed theology and their respective consequences for political practice This includes a careful account

of how covenant theology took root on the European continent in the sixteenth century and then inspired ecclesiastical and civil politics in England Scotland and America Moots goes beyond the usual categories of Calvinism or Puritanism to consider the larger movement of which both were a part By integrating philosophy theology and history Moots also invites investigation of broader political traditions such as natural law and natural right Politics Reformed demonstrates how the application of political theology over three centuries has important lessons for our own dilemmas about church and state It makes a provocative contribution to understanding foundational questions in an era of rising fundamentalism and emboldened secularism inspiring readers to rethink the importance of religion in political theory and practice and the role of the covenant tradition in particular
