**The Important Things of Life** Dee Garceau, 2022-01-07 Sweetwater County lies in southwestern Wyoming and has stood as a significant symbolic geography for the new Western Woman's history As the county in which Elinore Pruitt Stewart Letters of a Woman Homesteader Nebraska 1990 said she proved up her homestead in 1913 it is a fitting locale for the study of western gender relations The Important Things of Life examines women's work and family lives in Sweetwater County in the late nineteenth and early twentieth centuries The 1880's discovery of coal caused a population boom attracting immigrants from numerous ethnic groups At the same time liberalized homestead law drew sheep and cattle ranchers Dee

Garceau demonstrates how survival on the ranching and mining frontier heightened the value of group cooperation in ways that bred conservative attitudes toward gender. Augmented by reminiscences and oral histories, Garceau traces the adaptations that broadened women's work roles and increased their domestic authority. Hers is a compelling portrait of the American West as a laboratory of gender role change in which migration, relocation, and new settlement underscored the development of new social identities.

Chronology of the American West Scott

C. Zeman, 2002-05-28 This four-part chronology presents the unfolding of the American West from 23,000 B.C.E. to A.D. 2001.

Not long ago the story of the American West was an uncomplicated tale. Its theme was The Winning of the West, and its plot simply followed Euro-Americans as they galloped across the continent. But throughout the last two decades, historians like Scott C. Zeman have begun to examine the story and separate the myths from the facts. Today the history of the American West is about the land itself, about conquest and colonization, about migration and social change. Its heroes are not only white men but also women and children and peoples of African, Asian, Native American, and European descent. In this up-to-date chronology, readers can explore hundreds of political, social, and cultural plot points from the arrival of the continent's first migrants more than 20,000 years ago to the Wounded Knee Massacre in 1890 and from the completion of the trans-Alaska pipeline in 1977 to the shootings at Columbine High School in 2000.

**Cowgirls, Women of the Wild West**, 2000

Cowgirls of the Rodeo Mary Lou LeCompte, 2000 In this first substantial study of rodeo women, Mary Lou LeCompte surveys the early rodeo cowgirls' achievements as professional athletes, the near demise of women's rodeo events during World War II, and the phenomenal success of the Women's Professional Rodeo Association in regaining lost ground for rodeo cowgirls. Recalling an extraordinary chapter in women's history as well as the history of American sport, *Cowgirls of the Rodeo* contributes to a deeper understanding of the challenges facing women in the American West and in American sport.

Imagining the American West through Film and Tourism Warwick Frost, Jennifer Laing, 2015-06-05 The West is one of the strongest and most enduring place images in the world, and its myth is firmly rooted in popular culture, whether novels, film, television, music, clothing, and even video games. The West combines myth and history, rugged natural scenery and wide open spaces, popular culture and promises of transformation. These imagined places draw in tourists attracted by a cultural heritage that is part fictional and mediated. In turn, tourism operators and destination marketing organizations refashion what they present to fit these imagined images. This book explores this imagining of a mythic West through three key themes: travel, film, and frontiers, to offer new insight into how the imagination of the West and popular culture has influenced the construction of tourism. In doing so, it examines the series of paradoxes that underlie the basic appeal of the West: evocative frontier, a boundary zone between civilization and wilderness, and between order and lawlessness. It draws on a range of films

and literature as well as varying places from festivals to national parks to showcase different aspects of the nexus between travel film and frontiers in this fascinating region Interdisciplinary in character it includes perspectives from cultural studies American studies tourism and film studies Written by leading academics this title will be valuable reading for students researchers and academics in the fields of cultural studies tourism film studies and media studies and all those interested in film tourism     *Western Lives* Richard W. Etulain, University of New Mexico. Center for the Southwest, 2004 The life stories of many individuals are woven together to tell the history of the American West from the earliest days of westward expansion to the twentieth century
