**O'Leary's Cow** Richard F. Bales, 2015-09-01 The Great Chicago Fire of 1871 swallowed up more than three square miles in two days leaving thousands homeless and 300 dead Throughout history the fire has been attributed to Mrs O Leary an immigrant Irish milkmaid and her cow On one level the tale of Mrs O Leary s cow is merely the quintessential urban legend But the story also represents a means by which the upper classes of Chicago could blame the fire s chaos on a member of the working poor Although that fire destroyed the official county documents some land tract records were saved Using this and other primary source information Richard F Bales created a scale drawing that reconstructed the O Leary neighborhood Next he turned to the transcripts more than 1 100 handwritten pages from an investigation conducted by the Board of Police and Fire Commissioners which interviewed 50 people over the course of 12 days The board s final report published in the Chicago newspapers on December 12 1871 indicates that commissioners were unable to determine the cause of the fire And yet by analyzing the 50 witnesses testimonies the author concludes that the commissioners could have determined the cause of the fire had they desired to do so Being more concerned with saving their own reputation from post fire reports of incompetence drunkenness and bribery the commissioners failed to press forward for an answer The author has uncovered solid evidence as to what really caused the Great Chicago Fire *The Law of the Farm* Abram Warren Thompson, 1876

**Arizona's Graham-Tewksbury Feud** Leland J. Hanchett, 1994 The infamous Graham Tewksbury Feud which occurred in the late nineteenth century in Arizona surpassed all other feuds in this country in number of men killed and lives broken The families started as friends but soon became so filled with hate that only revenge would balance accounts Suspicion and intrigue linger to this date in what is known as Pleasant Valley Arizona The Broken World of Sacrifice J. C.

Heesterman, 2012-12-10 In this book J C Heesterman attempts to understand the origins and nature of Vedic sacrifice the complex compound of ritual practices that stood at the center of ancient Indian religion Paying close attention to anomalous elements within both the Vedic ritual texts the brahmanas and the ritual manuals the srautasutras Heesterman reconstructs the ideal sacrifice as consisting of four moments killing destruction feasting and contest He shows that Vedic sacrifice all but exclusively stressed the offering in the fire the element of destruction at the expense of the other elements Notably the contest was radically eliminated At the same time sacrifice was withdrawn from society to become the sole concern of the individual sacrificer The ritual turns in on the individual as self sacrificer who realizes through the internalized knowledge of the ritual the immortal Self At this point the sacrificial cult of the fire recedes behind doctrine of the atman's transcendence and unity with the cosmic principle the brahman Based on his intensive analysis Heesterman argues that Vedic sacrifice was primarily concerned with the broken world of the warrior and sacrificer This world already broken in itself by the violence of the sacrificial contest was definitively broken up and replaced with the ritualism of the single unopposed sacrificer However the basic problem of sacrifice the riddle of life and death keeps breaking too surface in the form of incongruities contradictions tensions and oppositions that have perplexed both the ancient ritual theorists and the modern scholar

**Cattle Country** Kathryn Cornell Dolan, 2021-06 As beef and cattle production progressed in nineteenth century America the cow emerged as the nation's representative food animal and earned a culturally prominent role in the literature of the day In *Cattle Country* Kathryn Cornell Dolan examines the role cattle played in narratives throughout the century to show how the struggles within U S food culture mapped onto society's broader struggles with colonization environmentalism U S identity ethnicity and industrialization Dolan examines diverse texts from Native American African American Mexican American and white authors that showcase the zeitgeist of anxiety surrounding U S identity as cattle gradually became an industrialized food source altering the country's culture while exacting a high cost to humans animals and the land From Henry David Thoreau's descriptions of indigenous cuisines as a challenge to the rising monoculture to Washington Irving's travel narratives that foreshadow cattle replacing American bison in the West to Mar a Amparo Ruiz de Burton's use of cattle to connect race and imperialism in her work authors' preoccupations with cattle underscored their concern for resource depletion habitat destruction and the wasteful overproduction of a single breed of livestock *Cattle Country* offers a window into the ways authors worked to negotiate the consequences of the development of this food culture and by excavating the history of U S settler colonialism through the figure of cattle sheds new ecocritical light on nineteenth century literature

 Chatterjee,2016-01-01 A pluralistic country like India has become the playground of communalism In spite of its vivisection  
 on the basis of religion in 1947 India could not rather did not insulate itself from the virus of communalism There are many  
 reasons for the growth and sustenance of communalism in free secular India Perhaps our Constitution is no less responsible  
 for this The Framers of the Constitution might have wanted to usher in a true secular India but their obsession with  
 communalism stood in the way They weighed everything from a communal angle As a result they incorporated several  
 community specific provisions which benefited particular religious communities and at the same time shied away from  
 incorporating those provisions in the Constitution which would have put a death nail to the coffin of communalism What is  
 more ominous is that they never realised that their actions and non actions would give a fresh lease of life to communalism  
 and that there would be polarisation of the communities on the basis of religion in post independent India as well      **The**
