Coyote Dream:

Coyote Dream Jessica Davis Stein, 2004 In this stunning debut Sarah Friedman journeys to the Southwest to buy art for her family's New York gallery Determined to put aside personal disappointments she seeks new perspectives in the serenity of the desert landscape Then her car breaks down on a Navajo reservation near the home of an aloof artist And soon she will have to choose between love and duty commitment and freedom and learn to fight for what matters most Beyond Monotheism Laurel Schneider, 2007-11-13 Laurel Schneider takes the reader on a vivid journey from the origins of the logic of the One only recently dubbed monotheism through to the modern day where monotheism has increasingly failed to adequately address spiritual scientific and ethical experiences in the changing world In Part I Schneider traces a trajectory from the ancient history of monotheism and multiplicity in Greece Israel and Africa through the Constantinian valorization of the logic of the One to medieval and modern challenges to that logic in poetry and science She pursues an alternative and constructive approach in Part II a logic of multiplicity already resident in Christian traditions in which the complexity of life and the presence of God may be better articulated Part III takes up the open ended question of ethics from within that multiplicity exploring the implications of this radical and realistic new theology for the questions that lie underneath theological construction questions of belonging and nationalism of the possibility of love and of unity In this groundbreaking work of contemporary theology Schneider shows that the One is not lost in divine multiplicity and that in spite of its abstractions divine multiplicity is realistic and worldly impossible ultimately to abstract **Coyote's Song** Richard D. Western theater's privileging of the written text and rethinks the role of land body and movement as well as dramatic story structure and performance style Co authored with anthropologist Brenda Farnell the book challenges the divide between artist and scholar and addresses the many levels of cultural disciplinary and linguistic translations required to achieve this Placing the complex intellect inherent to Indigenous Knowledges at its center the book engages Indigenous performance theory and concepts that link body land and story such as terra nullius corpus nullius mapping pattern literacy land literacy and movement literacy Enhanced by contributions from other artists and scholars the book challenges Eurocentric ideologies about what counts as performance and what is required from an audience as well as long standing body mind dualisms

Across the Lines Wolfgang Kloos, 1998 This third volume of ASNEL Papers covers a wide range of theoretical and thematic approaches to the subject of intertextuality Intertextual relations between oral and written versions of literature text and performance as well

as problems emerging from media transitions regionally instructed forms of intertextuality and the works of individual authors are equally dealt with Intertextuality as both a creative and a critical practice frequently exposes the essential arbitrariness of literary and cultural manifestations that have become canonized The transformation and transfer of meanings which accompanies any crossing between texts rests not least on the nature of the artistic corpus embodied in the general framework of historically and socially determined cultural traditions Traditions however result from selective forms of perception they are as much inventions as they are based on exclusion Intertextuality leads to a constant reinforcement of tradition while at the same time intertextual relations between the new literatures and other English language literatures are all too obvious Despite the inevitable impact of tradition the new literatures tend to employ a dynamic reading of culture which fosters social process and transition thus promoting transcultural rather than intercultural modes of communication Writing and reading across borders becomes a dialogue which reveals both differences and similarities More than a decolonizing form of deconstruction intertextuality is a strategy for communicating meaning across cultural boundaries
