My dear COOP 5 students, while you are staying at home, and, probably helping your parents meet both ends, let us do something to also enhance your learnings. Thus, this module is prepared for you.

Each Chapter is composed of three Parts:

- Presentation of the subject matter and its supporting discussions
- Chapter Activity/activities
- Questions or exercises for you to do which would include:  
Objective Quizzes, or  
Simple essay questions
- Midterm and Final Exams are to be based on this Module

Those of you with internet connection, you may send the answers to me through this email:  
[susanatiENZA12@yahoo.com](mailto:susanatiENZA12@yahoo.com), or to my messenger.

Those without internet access, please coordinate with your class adviser for the schedule of collecting the hardcopy of your answers to the Chapter quizzes/midterm/final exams, exercises, among other simple requirements.

Enjoy, and please keep safe always!

God bless!

George Burt,2023-10-24 Scenario planning is a long and well established approach to help leaders create novel insights and challenge what they know of the world to influence future action But as the world becomes increasingly unpredictable leaders must question the traditional mode of analysing the contextual environment and adopt new capabilities to embrace change while they redefine and reframe their organisation for the future The Evolution of Scenario Planning explores the pervasive nature of change It provides a contemporary approach to using scenarios as strategic conversation to embrace experiences past and present to create novel understanding and insights The book uses case studies and practical examples to guide facilitators in applying the scenario process in their organisation Leaders senior managers consultants and academics will learn how to engage with scenarios as a central element of strategy and better understand their role in strategic leadership They will also gain insight into the skills and capabilities revealed during the process of strategic conversation where ambiguity and equivocality is a natural feature of such conversation The Evolution of Scenario Planning makes a compelling case for using scenarios to enable leaders to develop foresight and attunement to grasp the ongoing dynamic of their uncertain and ambiguous world
