Organizational Processes and Received Wisdom Daniel J. Svyantek, Kevin T. Mahoney, 2014-03-01 This Research in Organizational Sciences volume to explore and question the received wisdom of organizational sciences The chapters in this volume and the companion volume seek to establish boundary conditions for important organizational constructs and processes They illustrate the importance of context for interpreting the received wisdom of organizational science by showing when constructs must be adapted to changing circumstances The volume begins with four chapters looking at the construct of leadership Each of these addresses an important aspect of our understanding of leadership and its practice The four chapters on leadership are followed by five chapters dealing with other organizational processes including motivation organizational change the role of diversity in organizations and organizational citizenship The last three chapters deal with the issue of knowledge in large systems Two chapters address how information may be transmitted across organizations and generations of workers The final chapter deals with the use of information by

organizational decision makers The 12 papers in this volume all in some way question received wisdom and present alternatives which expand our understanding of organizational behavior These chapters each strive to present new ways of understanding organizational constructs and in so doing reveal how received wisdom does not always lead to best practice in research or application It is our hope that these chapters illustrate how challenging received wisdom in organizational studies can provide new ways of thinking about organizational processes These new ways of thinking in turn can provide better understanding of the processes necessary to increase organizational effectiveness

International Labour and the Third World Rosalind E. Boyd, Robin Cohen, Peter C. W. Gutkind, 2023-08-11 Originally published in 1987 this book focusses on the debate around the international role of the working class and other dominated classes such as the rural and urban poor The contributions discuss whether Marx's original version of the revolutionary role of workers can still be sustained They examine the response of workers to the globalisation of production to structural unemployment in the industrialized world and to the changing composition of the workforce in the industrialising periphery The volume questions the historic starting points in the theorization of international labour
