Political Parties in Advanced Industrial Democracies Paul Webb, David Farrell, Ian Holliday, 2002-09-26 How relevant and vital are political parties in contemporary democracies Do they fulfill the functions that any stable and effective democracy might expect of them or are they little more than moribund anachronisms relics of a past age of political life now superseded by other mechanisms of linkage between state and society These are the central questions which this book aims to address through a rigorous comparative analysis of political parties operating in the world's advanced industrial democracies Drawing on the expertise of an impressive team of internationally known specialists the book engages systematically with the evidence to show that while a degree of popular cynicism towards them is often chronic though rarely acute parties have adapted and survived as organizations remodelling themselves to the needs of an era in which patterns of linkage and communication with social groups have been transformed This has enabled them to remain central to democratic systems especially in respect of the political functions of governance recruitment and albeit more problematically interest aggregation On the other hand the challenges they face in respect of interest articulation communication and participation have pushed parties into more marginal roles within Western political systems The implications of these findings for democracy depend on the observer's normative and theoretical perspectives Those who understand democracy primarily in terms of popular choice and control in public affairs will probably see parties as continuing to play a central role while those

who place greater store by the more demanding criteria of optimizing interests and instilling civic orientations among citizens are far more likely to be fundamentally critical

ideas for change the think tanks are examined and academics and participants views are recorded in a number of interviews

Free Market Missionaries Sharon Beder, 2012-06-25 In her recent book *Suining Themselves* bestselling author Sharon Beder exposed how the global corporate elite have brazenly rewritten the rules of the global economy to line their pockets In this new book she trains her sights on the insidious underbelly of this global trend to show how they have also orchestrated a mass propaganda campaign to manipulate community values and convince us that their interest co opting and controlling all of us in the name of the free market is in our interest During the 20th century business associations coordinated mass propaganda campaigns combining 20th century American PR methods with revitalized free market ideology from 18th century Europe The aim was to persuade people to eschew their own power as workers and citizens and forego their democratic power to restrain and regulate business activity Sophisticated corporate funded think tanks augmented these campaigns in the 1970s and 1980s promoting free enterprise and business friendly policies These free market missionaries now seek to change individual and institutional values through bolder strategies such as expanding share ownership and manipulating wider public concerns In each case the goal is the same the triumph of business values over community values Beder s is an intellectual call to arms challenge the ideology of the free market missionaries or be converted to it

Conservative Party Politics Zig Layton-Henry, 1980 **Directory of European political scientists** European Consortium for Political Research, University of Essex. Compiled and ed. by the Central Services of the ECPR, 2016-11-07 No detailed description available for *Directory of European political scientists* *Criminal Misconduct in Office* Jeremy Horder, 2018 Democracy cannot function if the public loses faith in politicians and that faith will be lost if politicians abuse their power with impunity This book analyses the criminal offence of misconduct in office and explains how it should be used along with other measures to hold politicians to account for abuse of their position **Pressure Groups in British Politics** W.N. Coxall, 2014-06-06 Pressure groups are an important influence on modern politics with people feeling strongly about single issues willing to protest lobby and petition for their cause **Capturing the Political Imagination** Diane Stone, 2013-01-11 Think tanks are proliferating Although they are outside of government many of these policy research institutes are perceived to influence political thinking and public policy This book develops ideas about policy networks epistemic communities and policy learning in relation to think tanks The UK's Changing Democracy Patrick Dunleavy, Alice Park, Ros Taylor, 2018-11-01 The UK s Changing Democracy presents a uniquely democratic perspective on all aspects of UK politics at the centre in Westminster and Whitehall and in all the devolved nations The 2016 referendum vote to leave the EU marked a turning point in the UK s political system In the previous two decades the country had undergone a series of democratic reforms during which it seemed to evolve into a more typical European liberal democracy The establishment of a Supreme Court adoption of the Human Rights Act Scottish Welsh and Northern Irish devolution proportional electoral systems executive mayors and the growth in multi party competition all marked profound changes to the British political

tradition Brexit may now bring some of these developments to a juddering halt The UK's previous exceptionalism from European patterns looks certain to continue indefinitely Taking back control of regulations trade immigration and much more is the biggest change in UK governance for half a century It has already produced enduring crises for the party system Parliament and the core executive with uniquely contested governance over critical issues and a rapidly changing political landscape Other recent trends are no less fast moving such as the revival of two party dominance in England the re creation of some mass membership parties and the disruptive challenges of social media In this context an in depth assessment of the quality of the UK's democracy is essential Each of the 2018 Democratic Audit's 37 short chapters starts with clear criteria for what democracy requires in that part of the nation's political life and outlines key recent developments before a SWOT analysis of strengths weaknesses opportunities and threats crystallises the current situation A small number of core issues are then explored in more depth Set against the global rise of debased semi democracies the book's approach returns our focus firmly to the big issues around the quality and sustainability of the UK's liberal democracy

Suited Themselves Sharon Beder, 2012 In this brilliantly researched expos communications Rottweiler Sharon Beder blasts open the backrooms and boardrooms to reveal how the international corporate elite dictate global politics for their own benefit Beder shows how they created business associations and think tanks in the 1970s to drive public policy forced the worldwide privatization and deregulation of public services in the 1980s and 1990s enabling a massive transfer of ownership and control over essential services and still not satisfied have worked relentlessly since the late 1990s to rewrite the very rules of the global economy to funnel wealth and power into their pockets Want a globalized and homogenized world of conflict poverty and massive environmental degradation run by a corporate oligarchy that wipes its feet on democracy Or a democratic world where poverty is history companies work for people and clean water is a right not a privilege you pay for Beder's message is clear it's your world and it's time to fight for it

Neo-Liberal Ideology Rachel S. Turner, 2008-02-07 Neo liberalism has been one of the most influential ideologies since the Second World War This book provides an original account of its intellectual foundations development and conceptual configuration as an ideology Newly available in paperback this book presents a comparative study of the development and the nature of neo liberal ideas in the national contexts of Germany Britain and the United States since the twentieth century addressing the following questions What are neo liberalism's intellectual origins What influence did neo liberalism have on public policy debates What are neo liberalism's core concepts and how have they been interpreted in different national contexts that make it a distinctive ideology In answering these questions the book provides a deeper insight into the historical and intellectual origins and conceptual configuration of an ideology that reshaped politics and societies across the world

Party Funding and Corruption Sam Power, 2020-04-02 This book systematically explores the relationship between party funding and corruption and addresses fundamental concerns in the continued consideration of how democracy should function The book analyses whether parties funded primarily through

private donations are necessarily more corrupt than those funded by the state and whether different types of corruption are evident in different funding regimes Drawing on a comparison of Great Britain and Denmark the author argues that levels of state subsidy are in fact unrelated to the type of corruption found Subsidies are not a cure for corruption or importantly perceived corruption so if they are to be introduced or sustained this should be done for other reasons Subsidies can for example be justified on grounds of public utility Meanwhile anti corruption measures should focus on other regulations but even then we should not expect such measures to impact on perceptions of corruption in the short term Conservative Party Politicians at the Turn of the 20th/21st Centuries: Their Attitudes, Behaviour and Background Dr Nigel Gervas Meek, 2012 Using data collected from one of the most comprehensive quantitative surveys of its type Conservative party politicians at the turn of the 20th 21st centuries offers an authoritative insight into the behaviour background and attitudes of Conservative politicians in England Scotland and Wales at all levels from local councillors to MPs Peers and MEPs
