humanity's spiritual evolutionary journey into higher consciousness. Our present world is one in which order is arising out of chaos. Everything is changing and seeking equilibrium. The conditions are nothing short of a rebirth. We are quite literally witnesses and participants in the shift from individual to planetary consciousness. We are part of the emerging consciousness and the signs are everywhere. It is here now and we all have a part to play in it. This book is a guide to navigating the shift from an old paradigm into a new one. It is deeply rooted in the shamanic and Taoist traditions which are a fountain of wisdom and knowledge for restoring our relationship with the Earth. Shamanism and Taoism are a way of living in harmony with nature rather than an adherence to a religious doctrine. By practicing these ways of being we awaken our soul calling and our connection to nature. They provide a myriad of responses to the spiritual quest of self discovery. They are ways that embed us in the living web of life yielding greater awareness and perspective. These practices are easily integrated into contemporary life and provide a means of navigating the turbulent times in which we live.

Code of Federal Regulations, 1994. *The animal soul* Laurent Amann, 2023-01-05. What is the mission of animals on earth? Do animals pursue a purpose and fulfilment? What do pets, farm and wild animals wish to experience and share with us humans? And how can we use the wisdom of an animal's soul for our spiritual development? The behavioral biologist and animal whisperer Laurent Amann has explored these questions and more in this book. Combining fascinating facts from science, religion and spirituality, the ethologist and shamanic healer concludes that animals are powerful beings who have come to earth on a very special mission. Each one of them not only preserves our massive ecosystem but also serves a higher purpose that plays a central part in the spiritual evolution of humanity. Once we understand the deeper meaning of the presence of animals on earth, we will be able to engage with them in a more authentic way and at the same time come closer to the purest essence of ourselves.
